Halloween Party

Halloween was party time in West End. On Friday evening, Mrs. W. M. Chriscoe, Jr., assisted by a group of other mothers, entertained all the children in grades 1-7 of the school at the Legion Hut. The hut was decorated with a profusion of black corn shocks and paper streamers.

There was a witch's hut complete with the black pot, where witches Linda Williams and Jane Jackson delighted the children with fortune telling. Mrs. Francis Currie, Jr. was in charge of fishing with each one getting candy. Mrs. Earl Auman, pianist, played for a candy walk.

All 60 children present wore costumes with Deborah Sutphin, as Little Red Riding Hood, winning first place and Pat Wood, as a black cat, receiving second place in the younger children's division.

Jill Hunsucker and Joseph Whisenant won in the older children's division of the costume contest. The judges for the costumes were Mrs. John Thompson, Mrs. Lee Sutphin, Mrs. Dot Black and Joanne Sutphin.

Francis Currie, Jr. was Master of Ceremonies.

Bobbing for apples was a special treat. The mothers served orange punch with chocolate cup cakes for refreshments.

George Cheney attended as advisor to the group. Clarence Gordon provided the tractor used for the ride and Watts Auman was the driver.

No Damage

Principal Harold Wood reports that there was absolutely no damage done in or around the school property during the Halloween weekend. These people who gave so freely of their time to provide recreation for the youth have our gratitude. Because of such leaders, the community had recreation rather than "wreckreation."

Exams Given

Otis Boroughs, Guidance Counselor for the school, administered the Preliminary Scholastic Aptitude Test to 17 Juniors on Tuesday. This two-hour test is a shorter version of the Scholastic Aptitude Test, is specifically designed for use in the guidance program. It is one of several services offered by the College Entrance Examination Board to aid in the transition of students from secondary school to college.

The chief purpose of the test is to provide valid, reliable and inexpensive data for use in helping students to estimate their ability to do various kinds of college work.

Hiking

Mrs. Harold Wood and her Junior Girl Scouts have taken advantage of the fall weather for hiking. The scouts have selected work toward merit badges in following trails, compass direction, nature study and above all enjoying the oak leaves which are the most beautiful this year that many of us can remember.
