Hearing Set At Manly Monday On Plan To Repeal Old Charter, Permit Zoning

A public hearing on a proposed Southern Pines Town Council, to make possible the application to the Manly area of new "outside" zoning powers to be acquired by the Town of Southern Pines. The 5 p.m. hour of the meeting was necessary so that the legislators could be back in Raleigh for evening sessions of the General Assembly.

BY TOWN COUNCIL

No Action Taken On Housing Here; Landfill Law Set

Meeting Tuesday night, the town council heard a long, detailed account of how a Public Housing Authority operates, from B. H. Marshall, executive director of the Wilmington Housing Authority for the past 25 years, but took no action on setting up a Housing Authority here, as it has been formally petitioned to do.

Action was deferred to a special meeting April 27, with efforts to be made meantime to find out how successfully small public housing projects have operated in other communities comparable to Southern Pines in size.

The council adopted, to become effective July 1, an ordinance regulating use of the town's landfill waste disposal area by out-of-town users. The ordinance requires payment of a fee and obtaining a permit by such users, authorizes posting of hours of operation, forbids littering of the streets on the way to the landfill and prohibits salvaging and scavenging there, as well as setting other provisions of use.

The Town has formally asked the county commissioners for a \$5,000 annual appropriation toward the \$20,000-plus annual cost of operating the landfill. If such an appropriation is forthcoming, enforcement of the ordinance may not be necessary, it was stated.

Following the theme, "Planning a Successful High School Career," the students of grades 8 - 11 at East Southern Pines High School will spend time April 19 - 23 registering for their 1965 - 66 courses, Principal Glenn Cox said this week.

The registration activities will be under the direction of Mr. Cox and Mrs. John A. McPhaul, guidance counselor. Each teacher on the faculty will work in certain phases of the week's activities.

Preliminary announcement was made to the parents at the P.T.A. meeting on April 5, however, the students will have their first contact with the information for the 1965-66 school year in an assembly to be held on Monday, April 19. Mr. Cox and Mrs. McPhaul will explain the procedures for the week. On Tuesday, April 20, during

introduce such a bill by the Southern Pines Town Council, to make possible the application to the Manly area of new "outside" zoning powers to be acquired by the Town of Southern Pines.

The 5 p.m. hour of the meeting was necessary so that the legislators could be back in Raleigh for evening sessions of the General Assembly. Southern Pines town officials will be on hand to explain the zoning proposal which will permit the town to regulate land use up to one mile beyond its limits (see another story in today's Pilot). The council was told Tuesday night by Town Attorney W. Lamont Brown that the Manly area could not be zoned as long as its charter as an incorporated town remains in effect, even though "Manly Station," as it was originally chartered, has not been an actively organized community for many years—if ever.

A group of Manly residents at Tuesday's council meeting recommended that a public meeting be called to explain the charter repeal and zoning proposals to the people of the area.

Zoning Bill For County, Towns Is Near Ratification

A bill to permit Moore County towns to zone up to one mile outside their limits and also to permit the county to zone areas outside the jurisdiction of towns was expected to be ratified by the General Assembly this week.

Identical bills had been introduced by Rep. Clyde Auman in the House and by Sen. Voit Gilmore in the Senate. Last week, Sen. Gilmore amended his bill to give the "extraterritorial zoning" power to any municipality, removing the general state-wide restriction of this power to towns of 1,250 population or more.

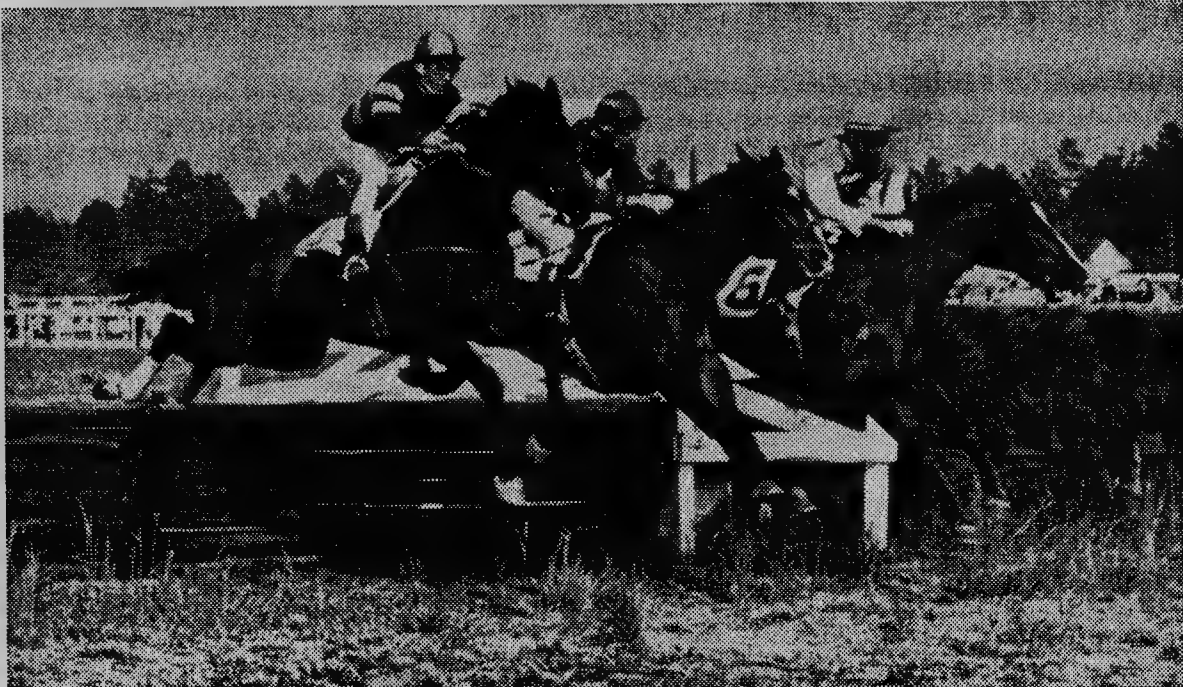

As amended, the Gilmore bill passed the Senate and was sent to the House. Thursday of last week. It is this bill that seemed (Continued on Page 8)

West End Makes Formal Protest On School Site

The West End School Committee, in a letter to Jere N. McKeithen of Aberdeen, chairman of the Moore County Board of Education, this week served formal notice on the board of its disapproval of the "Gilmore-Morganton Road" site for the proposed West End-Aberdeen Area III consolidated high school.

The committee and others in the West End-Eagle Springs-Jackson Springs community had publicly opposed the site in statements to the press last week. The site, formerly a part of the Southern Pines school district, is northeast of Highway 15-501, between the Morganton Road intersection and the Pinehurst traffic circle.

Formal notice has also been given to the county Board of Education of the offer of Billy Johnson of West End to give a 75-acre site for the school, between Pinehurst and West End, on Highway 211. The letter to Mr. McKeithen, which was signed by T. J. Baldwin, secretary of the committee, said that the committee is ready to cooperate in plans for construction of the school on the Johnson site.

Queried by The Pilot this week on the West End protests, Mr. McKeithen said that the board of education has no comment at this time.
