School Lines Will Depend On Bus Plan

A plan to make school attendance areas more flexible in order to reflect changing population trends, and make the best use of all existing school facilities in meeting new $Area\ Here$ demands, is expected to be put into effect in Moore County in the coming school year.

Calling for the elimination of attendance area lines for all elementary and middle schools, and their replacement with school bus routes within Areas I, II and III, the plan was given preliminary approval by the Moore County Board of Education at its February meeting, with final vote to be taken at the regular meeting March 29. This is the procedure followed in making a major

policy change. The traditional lines of the high school, will not be changed, Service grade will, as usual, take the bus livestock feed program. which runs nearest their home. They will go to the school where it delivers them-which may, or may not, be the nearest, or the one they have attended before.

As explained to the board by Yadkin.
Associate Supt. C. Edison Walter Powers, the plan has been office in Carthage said that developed to insure equality of livestock producers would have education, with distribution of to meet certain standards to pupils below the high school level obtain the payments for for maximum utilization of program, personnel and and April period. The recommendation of the Moore County Planning Board to the county commissioners, delivered to them Monday by Tony Carlyle, zoning administrator, was that "a public hearing be held at the earliest possible date, to consider amending the Moore County zoning ordinance to require a three-fourths vote in dealing with zoning change requests, as specified in the original 1966 ordinance."

The motion had been unanimously adopted by the Planning Board at its March 1 meeting, made by William H. Gentry, Jr., and seconded by J.W. Cranford.

But the commissioners had already decided to postpone all meetings, hearings or any other actions which had any relation to zoning, until after the water bond

vote set for Tuesday, March 29. Zoning is in some areas a pretty emotional issue, and if any emotions were going to be stirred up between now and the referendum, the board wanted it to be on getting out an affirmative vote.

They asked Carlyle to see that he had a place on the agenda for their regular meeting Monday, what they are getting are April 4, by which time the water bond issue will be decided; and they would then set the date for the hearing on the three-fourths vote, also on a zoning meeting to be held at Pinehurst.

People from Pinehurst, Foxfire and surrounding areas will be asked to attend, to hear of (Continued on Page 12A)

Why should we entatively approved renewal of the Pinebluff, Aberdeen, Pinehurst, courage growth by initiating a cablevision franchise of the proposed the \$7.75 as a "holding county-wide water system?

A. An adequate water system may be a factor in the future growth of Moore County. However, growth would expand the tax base, as it has in the past decade, and help us keep a low

tax rate. Q. How much will the water system cost?

A. The first phase of the water system will cost \$12,000,000. Q. Where will the money come ference of the town attorney with

from to pay for the bonds? A. Revenues from the users of the system are expected to pay for the bonds. Federal and State grants and low-interest, longin financing the system also.

Q. Will the system cause an (Continued on Page 12A)

No School

The public schools of Moore County will be closed on Friday, March 11. Friday has been designated as one of the 171/2 Teacher Work Days of this school

Originally, Thursday, March 10 was scheduled as the Teacher Work Day and March 11 was to have been a leave day for teachers. Schools were closed on January 25 due to inclement weather and that day was considered as a leave day for teachers. Thursday is being used as a make-up day for the day lost and the Work Day was moved to "naive."

Bond Vote Opposed

Exhuming Of Body **Ordered**

Henry Turner, 35, of Southern Pines, who was freed February 24 in Moore District court from charges of arson and the murder of his mother, was indicted Monday by a Moore County grand jury on both counts, rearrested Thursday on voluntarily surrendering himself in Moore Superior Court, and on Friday was transferred to Dorothea Dix Hospital at Raleigh.

In addition to committing the defendant to Dix for psychiatric evaluation, over a period of up to 60 days, Special Judge Robert L. Gavin signed an order for exhumation of the body of Mrs. Julia Turner, 70, for autopsy by the state medical examiner.

No autopsy had been held at the time of Mrs. Turner's death in a fire January 11 at the home Southern Pines which she (Continued on Page 14-A)

A group of about 25 men and women-including two or three members who said they were 'just observers''--visited the Moore County commissioners in regular meeting Monday to express their opposition to the water bond vote set for March 29. Mrs. Linda McFadyen of Pinebluff, spokesman for the group, said they included representation from Scotland, Hoke, Richmond and Robeson counties as well as Moore.

She said they were concerned at the use, or possible abuse, of waters whose benefits are shared among the counties, by the Moore County regional wastewater treatment plant now under construction, and the proposed clean-water filtration plant for which the bond issue would pay.

Mrs. McFadyen said also that 'a lot of concern centers around the residential and industrial growth" the regional sewer and water systems could promote.

Pollution by the wastewater system, and overuse by the clean-water system, of Drowning Creek, on which both plants are to be located, were feared by members of the group.

and the Pinehurst Forum. Webster moved in April, 1973, to Southern Pines from Conover in Catawba County where he was president of the Conover Glove Manufacturing Co., chairman of the school board and served four years on the Catawba County board of commissioners.

HUNT – Governor Jim Hunt is determined to get a 2 percent reduction in the number of state employes, primarily in what is known as the middle management group, but he is running into some problems with the various departments.

Department heads are relying to a large extent on division directors and others to make reduction recommendations, but proposed cutoffs at the lower levels and practically none in the middle range which was padded out during the Holshouser administration.

Governor Hunt is expected to bear down even harder in the coming week to get the cuts he wants, and one of the departments targeted for

attention is Human Resources. There are 140,000 state employes on the payroll and a cut of 2 percent would mean eliminating 2,800 jobs. At the average state salary of \$10,000 per year that would represent a savings of \$28 million.

Loretta Kay Linder

Linder's selection followed a

yearlong screening process

which culminated in final in-

terviews in Chapel Hill Feb. 25-
