Village Council

(Continued From Page 1-C)

"in the event the village is incorporated," Ms. Galiher said Council attorney Joe Monroe advised the Pinehurst Village Council could not approve or authorize any redefinition of village boundaries; this must be done by act of the NC Legislature.

The Finance Committee, she stated moves to vote "no."

Ms. Galiher's next request was for a motion to approve payment of \$758.35 to be paid the Pinehurst Civic Group for expenses of the September referendum.

After a brief discussion, with

Slade pointing out that "a considerable number of people found it necessary to spend time as well as money over the past several months in the interest of this village and I cannot see why a minority should be reimbursed," it was decided the committee should research the problem further and report at next month's meeting.

Wheaton Kittredge reported for the Architectural Committee a total of 101 new homes as compared to 95 last year at this time, and an upgrade in the type of homes.

Public Safety chairman Ellis Fields reported on the new van

added to the Fire Department and thanked members and others for this needed addition. General Mather had no report on Zoning.

Jerry Slade reported particularly heavy resort activity the last six weeks.

Councilman Scott said he had contacted Dog Warden Kennedy and Barbara Paine, president of the Humane Society (HUSOM) about the problem of dogs running loose in the village and that Kennedy was to meet with Police Chief Wise to try to work out some control of this situation.

For Future Planning, Micajah R. Wyatt said Bob Viall of the Fire Department had asked his Committee to investigate the addition of a Fire Sub Station as the Pinehurst Fire Department is the largest in Moore County. Wyatt said he felt there was no need for this, however.
