A stuffed pepper will keep its flavor and its shape if it is baked in a muffin tin. The same holds true for a baked apple.

We can't compound interest on this CD. But you can.

14.250%

The annual yield and rate on Six Month Money Market Certificates is available for \$10,000 or more. Term: Six months (26 weeks). Interest paid monthly, quarterly, or at maturity. Federal regulations prohibit the compounding of interest on these certificates. Rate effective from 06/09/81 through 06/15/81.

Here's how: 1) Purchase an NCNB \$10,000 Six Month Money Market CD 2) Ask us to automatically deposit your interest every month in an NCNB Regular Savings Account, currently paying 5 1/4%, compounded daily.

So you're earning interest on interest. And you can count on this same interest for a full six months. Unlike Money Market Mutual Funds, your rate won't fluctuate with each day's news.

Dealing with NCNB, you also have the added security of knowing your deposits are backed by the largest banking institution in North Carolina. And every depositor is insured for up to \$100,000 by the Federal Deposit Insurance Corporation.

So come see us at any of our 175 offices. You'll find that the best place for high interest is right in your neighborhood.

Federal regulations require a substantial interest penalty for early withdrawal. Each depositor insured to \$100,000 by FDIC.
