"Get thy spindle and distaff ready, and My spindle and dist: ff are ready. And with weary impatience I wait, For the flax is slow in coming, .

And the hours are waxing late. I had planned such beautiful garments. Of texture so fine and fair, With filmy threads for warp and woof, Inwoven with taste and care.

I've had visions of a inds of laces, And drifts like the soft-piled snow : Of the misty fol's of fabrics white, Whose threads from my band should go.

'My spindle and distaff are ready." Was the burden of my song,-"But the Master Calays to : end me The flax I awa't so long."

When a voice, is a softened whisper, Breathed to my ear and heart,-'Be thou sure of thy distaff and spindle The Master will do His part."

I looked. Io! my trusted spindle And quickly I hastened to mend it,

Lest my task be sent unaware. As I turned from mending my spindle Swift feet came through my door, And soft flax in abundance Was the burden which they bore.

So I lightly sang at my labor, And the hum of my toil was sweet, As I dreamed of the dainty fabrics I might with my flax complete. -Mrs. Fannie Goldsberry, in Good
