THE PRESENT SESSION.

The legislature met on yesterday. The democrats of that body have very grave responsibilities resting upon them.

The last legislature as we have stated in these columns before was extremely liberal with the States money.

The good men in North Carolina do not wish to re-instate the Republican party in power.

These facts lead to the conclusion that the people have stood just about as much extravagance as they intend to.

The course to be pursued is not difficult, it does not require any serious study, it is fully expressed with one word—economy.

Legislators may have contempt for the ignorance of their constituents, but they may rest assured that those constituents will find out what has been done, and they may rest assured it will not be forgotten.

SIGNAL SERVICE.

Until recently we have been disposed to regard the Weather Signal Service at Washington with some suspicion. We were inclined to suspect that there might be a good deal of humbugery in it.

THE LEGISLATURE.

WEBSTER, INDEPENDENT ELECTED SPEAKER OF THE HOUSE.

The Legislature convened last Wednesday.

At 12 m., Lieut-Governor Stedman called the Senate to order. Mr. R. M. Furman was unanimously elected Clerk of the Senate.

Mr. W. V. Clifton was elected Sergeant-at-Arms. The House was organized by the election of J. R. Webster, Independent, to the Speakership, by a vote of 59 to 57 for Lee S. Overman the Democratic nominee.

For Chief Clerk, Col. John D. Cameron, Democrat, received 58 votes; Col. Bula, dyed-in-the-wool Republican, received 60 votes.

Up to the time we go to press no other business of importance has been transacted by our Law-makers.

THE proceedings in English divorce cases have become so sickening that numbers of prominent citizens are petitioning the press not to publish the details.

GLENWOOD NOTES.

Reported for the Herald by Our Regular Reporter.

Christmas and New Year have come and gone; and we trust that both were crowded with every good thing that joy unconfined was the order of the day.

We sit in melancholy mood during the last solemn hours of 1886, and respect the year that is falling away from us; the weird chirp of the "Cricket on the Hearth" thrills us with strange and fantastic emotions.

Legislators may have contempt for the ignorance of their constituents, but they may rest assured that those constituents will find out what has been done, and they may rest assured it will not be forgotten.

valuable books and pamphlets for our library. Mr. J. Frank Westbrook has again come to the surface, this time with some beautiful specimens of coral and flint for the museum.

The exercises at the close of the Glenwood School were quite pleasant and interesting. The lecture was listened to with attention by the audience, the pig sold well, bringing \$607 Mr. Lonnie Underwood drew the successful number and was declared to be the future owner of the pig.

Glenwood Monthly came to us this time in Holiday dress, and its friends are much pleased with it in every way.

Misses W. A. Carver, Callie Avera, Ella Parker and Mamie Carver spent the holidays at their respective homes.

Mr. R. D. Kennedy remained at Glenwood all the vacation. peculiar charms it seems, for him.

We were pleased to have in our community, for a day or so, before Xmas Messrs. Alderman and Carver, of Sherwood, N. C., and also Mr. C. L. Avera and his estimable lady.

We expect the Spring session of Glenwood School to be fuller and more work done than ever before in the history of the Institute.

Who will give us another pig for the library? First call takes the offer.

The generous publishing House of Messrs. Alfred, Williams & Co., of Raleigh, N. C., gave us a set of Moore's N. C. History (Library Edition) for Glenwood Library, while we were at the "City of Oaks," last week.

The editor of the Glenwood Monthly spent the holidays at his old home in Johnston, and in Raleigh, visiting relatives and friends.

Glenwood Monthly begins the New Year with flattering prospects; its many friends are working for its success in all parts of the County.

LIME PHOSPHATE. Analyses By the Experiment Station. ANALYSIS No. 2335.

Bone Phosphate.....11.16 per cent. Phosphoric Acid..... 5.11 " " Lime, Carbonate..... 64.26 " " Magnesia..... 0.81 " " Potash..... 0.40 " " Water, only..... 1.39 " "

Dr. Dabney, State Chemist, says at the same place, about "Lime is the chief agent in improving all classes of soils in the eastern part of the State, and is especially applied to a number of crops, as pecans, peas, and oats. This material, which contains Phosphate and a little Potash in addition to Lime, must inevitably prove of the greatest value to the whole section."

FOR COTTON. Here are some different ways of composting it into excellent cotton manures: 1st. Use two to four hundred pounds of Lime Phosphate, 20 bushels of cotton seed or manure, and 100 pounds of Kainit in the open furrow, for one acre. This is composting in the row.

2nd. Compost one thousand pounds Lime Phosphate, 30 bushels of cotton seed and 200 pounds of Kainit, with stable manure or any rich earth or muck. Put from one fourth to one-half of this on one acre.

For Yellow Tobacco.—1,000 pounds Lime Phosphate, 30 bushels fine horse manure, ground fish or other ammoniac, and 100 pounds high grade Sulphate, on one or two acres.

For Truck of all kinds.—Give the land a dressing of 1 ton Lime Phosphate and 500 pounds Kainit the first year; then use in the furrow or hill 600 pounds Lime Phosphate, 800 pounds fish scrap, cotton seed meal or rich stable manure in quantity to suit, and 200 pounds muriate Potash per acre.

For Pease it is the natural manure, as might be supposed; 600 pounds per acre, with Kainit, on sandy land.

For all Fruit Trees, Grapes, etc.—Horticulturists know the necessity of lime, phosphate and potash for all trees and vines, and they have found Lime Phosphate to supply them cheaply, in quantity, just the thing they need. Apply to THE NORTH CAROLINA PHOSPHATE CO., RALEIGH, N. C.
