NORTH CAROLINA NOTES.

Choice Items Taken From Our Exchanges And Boiled Down For The Herald Readers.

Ground has been broken at Lynchburg, Va., for the rail road to Durham.

The Greensboro Patriot at an early day is to be issued as a morning daily.

Durham Recorder: Mr Atlas Bagwell has a sunflower in his garden that contains 218 blossoms.

Henderson voted on subscription to the Durham Railroad the 12th inst., and gave a majority of 433 for the subscription.

Graham Gleener: Mr. W. F. Ireland had the misfortune to lose his residence and some of the contents by fire last Wednesday night.

Oxford is on a regular boom. It has recently decided by an almost unanimous vote to build a ten thousand dollar City Hall and Market House.

Goldsboro Argus: A colored man employed on the gravel train of the W. & W. R. R., had one of his feet run over and badly injured recently.

Raleigh Chronicle: There are 125 new students at Trinity College and more are expected.

Greensboro Workman: The estimates of dried fruit shipments from Hickory, N. C., for three months, are set down at over \$100,000, and blackberry shipments for ten days nearly \$20,000.

A Democrat with Republican principles is a strange animal and a strayed animal. Are there such? He has a name to live by and yet as a working Democrat he is a failure, he is dead.

Edenton Enquirer: About one hundred children have been at Nag's Head this season. Only one death occurred there during the summer, that of a colored woman whose demise was caused by her own imprudence.

Goldsboro Argus: Mr. Farrar, superintendent of the furniture factory, says he has had as many as 250 applications for situations, since he came to Goldsboro. He can employ only about 250 at very reasonable wages.

Equiver-Express: One of our townsmen has been exhibiting in town a cotton stalk about seven feet high and well limbed, but which sustains but one boll. And we regret to learn that this is the case with a great deal of the cotton.

Charlotte Chronicle: Governor Shepherd, Dr. Lee, E. A. Quintard and Jesse Young, a party of capitalists from Washington City, arrived at the Buford House last week. They are here prospecting with a view to making investments.

Oxford Torchlight: We think the crops of Granville is finer than that of the surrounding counties, and while it may be only 75 per cent of an average crop, yet the quality is very fine and the tobacco curing are exceptionally good.

Louisburg Times: Our tobacco farmers are making some excellent cures, and some very fine tobacco has been raised in this county. The crop this year was probably not so large as in was last, but we are glad to say, that the quality is much better.

The astounding and pleasing information has been received by Mr. George W. Dillard, a lawyer now resident of Asheville, that a native of South Carolina, but the uncle of his two children had died recently in California and left them the magnificent sum of \$1,600,000 to be divided equally between them.

Sandford Express: C. F. & Y. V. Co., has fitted out an office at Greensboro where it is collecting specimens of all kinds of products, minerals, woods and manufactured articles to be found on its line.

The Labor Vote.

Mr. Henry Watterson, writing a letter to the Courier-Journal, from New York, on the demonstration in that city on Labor Day, remarks that if the Democratic party loses possession of the national government at the next election, it will be through the agency of the labor vote.

It is strange that the honest sons of toil do not see in this light. The proper resting place for the working men is in the folds of the Democratic party. By working men, we mean all honest toilers, whether by brain or hand, or both, who make a livelihood by their labor, and do not rely for subsistence upon corruption or fraud.

Some of the great evils of the day, which have the effect to oppress and injure the workingman are the tendency of the Republican party to foster monopoly so as to grind the poor; the concentration of capital, which gives it greater power, and the extortion practiced in the collection of a hundred millions of revenue per annum more than is needed by the government.

The prominent issue of the day in national politics is the question of revenue. The Democrats are pledged to the repeal or modification of the harrassing internal revenue laws. On the subject of the tariff they occupy the position which is exactly in the best interest of every working man.

Under the circumstances it will be a fearful mistake on the part of the workingmen of New York and Richmond and other cities if, as Mr. Watterson thinks, the Democratic party must fight its battle next year with the labor vote cast in the scale against it.

Economy is Wealth.

"What is the matter?" asked a lawyer of his coachman. "The horses are running away, sir." "Can't you pull them up?" "I'm afraid not." "Then," said the lawyer, after judicial delay, "run them into something cheap."

Mr. Thobe's Contest.

The revival of the contest of Mr. Carlisle's seat in the Fiftieth Congress by Mr. Thobe, who was his opponent at the last election, is quite a surprise to the majority of people who were led to believe that the contest of Mr. Carlisle's seat had been virtually abandoned. It was stated shortly after the election that a careful canvass of the votes had been made, and the results showed that Mr. Carlisle had undoubtedly received a majority in his district, and had secured an election.

Cameron's Views of Cleveland.

General Cameron has not only respect, but something approaching reverence, from a very large number of Republicans in Pennsylvania and all over the country. It will not do to have him declaring in this manner that "Cleveland is a safe man."

Lynch Law Breeds Contempt For Authority.

It is to be regretted that the law was not allowed to take its course and deal out justice to the negro who was lynched recently at Greensboro, for Judge Lynch is by no means an infallible tribunal, and every man is entitled to consideration until he has been tried and convicted.

Let the Punishment Fit the Crime.

There has been a disposition to condone criminal acts when they have been committed on a large scale. The tendency is one of the most serious defects in our present social state.

His First Glass of Champagne.

"Have you any champagne?" The questioner was an awkward-looking fellow, apparently from the country; the place a well-known Grand avenue restaurant, and the time early Saturday evening. Upon being answered in the affirmative, he asked: "Do you sell it by the glass?"

A Pretty Jewess.

CREATES A GREAT SENSATION BY MARRYING A GENTLE. A marriage out of the ordinary line was solemnized in Columbia, S. C., recently, the governor of the State performing the ceremony.

The Female Sam Jones.

Mrs. Richardson, a member of the Salvation Army, who is a trifle too old to pass for a Salvation lassie, entertained a big crowd on the public square recently. In the course of a twenty minutes' exhortation she said the following among other things:

To Test the Dynamite Gun.

Secretary Whitney has invited the members of the Naval Committees of Congress, and a number of naval officers to go down New York bay on the "Dispatch," to witness the trial, on the 20th inst., of the pneumatic dynamite gun.

Crazy From Smoking Cigarettes.

Some excitement was created in Spartanburg, at one of the hotels recently, by the antics of a man who had been made crazy by smoking cigarettes. His name was Plummer, and he had just arrived in Spartanburg with his bride from Birmingham.

Buttons Made of Blood.

The country is learning to utilize waste. Making buttons of blood is in this direction. There is a large factory in Bridgeport, near Chicago, employing about 100 men, boys and girls, in which waste animal blood is converted into buttons.

The Missouri Watchword in the Next Campaign.

"It must be done," said the President, accepting the St. Louis invitation. "This remark," says a Washington correspondent of the Philadelphia Record, "so pleased the St. Louis delegation that they made it as a watchword of their visit."

The Largest Gorilla Yet

Boston has just received from Africa the largest gorilla ever landed in this country. His name is Jack, and he is five feet in height when standing erect and measures seven feet from the end of one outstretched hand to the other.

A New and Important Feature of the State Fair.

The executive committee at a meeting held last night arranged for a grand Farmers' State Institute to be conducted during the Fair. The day sessions will be held on the grounds and ample arrangements will be made for the comfort of the Exposition building.

WHAT THE WORLD IS DOING.

News Items Which Are Gleaned From Various Sources And Prepared For Our Readers.

Cholera continues to spread throughout Italy. Gladstone was greeted with cheers by thousands of people at the Parliament building.

The Progressive or Socialist Labor party of New York have determined to hold a State Convention on the 20th.

President Cleveland's letter to the Mayor of New Orleans, regretting his inability to visit that city, is published.

One of our wholesale merchants informs us that trade is better thus far than he has ever seen it in Wilmington. He speaks for his line.

Joan Most, the Anarchist, made application for citizenship, in New York, but was refused on the ground that he had been convicted of crime.

Miners in collieries at Shamokin, Pa., are on a strike; are thoroughly organized as Knights of Labor, and are prepared for a long lock-out.

It is stated that when the Sobranje meets the government will propose the impeachment of Mra. Karaveloff, Nikiforoff, Zankoff and others; suspected of complicity in the overthrow of Prince Alexander.

The discharged Republicans in Washington will organize State associations similar to those which flourished in former election campaigns and to take hold and worry the Democrats who hold the places from which they were ousted.

From the 1st January to the 31st of August there were 6,462 miles of railroad laid in the United States. This is said to be without precedent save in 1882, when 7,000 miles were laid. In that year the total footed up 11,567 miles.

The Socialists in New York demand recognition as an independent party, and will hold a convention for the nomination of State officers. They are dissatisfied with Henry George's nomination, and will nominate a straight-out Socialist in opposition to him.

The arrest of a number of persons in Vienna charged with frauds against the Austrian Custom House may bring some poor consolation to legitimate business men who have suffered from the illegitimate competition fostered by Republican misrule over our own customs.

Atlanta is still worrying with the liquor question. A bill has been prepared to amend the charter of the city of Atlanta so as to provide that in event the city should vote against prohibition the election in November, and the sale of liquor should be again permitted, the sale should be confined to a small area located in the center of the city, and fixing the license, \$2,000.
