Entered at the Post Office at Smithfield, Johnston Co., N. C., as second class matter.

PUBLISHED EVERY THURSDAY EVENING.

Subscription Rates: One Year, Cash in Advance, \$1.00. Six Months, .60. Four Months, .40. THURSDAY, NOVEMBER 16, 1893.

Eight inches of snow fell at Dunkirk, N. Y., yesterday morning where wind and snow formed a regular blizzard.

The lowest estimate for this year's cotton crop now is 7,500,000 bales with a probability of 8,000,000 bales.

The governments of Spain, France and Russia are trying to form an international agreement to suppress dynamites and bomb throwers.

Two men, Abner Slaughter and Doc Smith, of Pitt county became involved in a fight in a dispute over some land fought with pistols each killing the other.

JOHN A. DRAKE, treasurer of the Indiana, Illinois and Iowa railroad was sand-bagged and robbed of \$20,000 in cash in the office of the company on the ninth floor of the Rookery building in Chicago yesterday morning by two robbers who made their escape.

It is quite probable that Mr. Simmons will take charge of his office sometime next week. He left Raleigh to-day with his bond for Washington and as soon as his bond is approved and he receives his commission he will come back and take charge. It will be two or three weeks before he gets charge so that can go to work.

The Governor of Indiana says that he will prevent all prize fights in that State if it takes the whole State militia to do so. He is a Governor of the right kind. When all the Governors of the states do likewise prize fighting and boxing will be at an end. It is hoped that the day is not far distant when all the Governors will follow the example of the Chief Magistrate, of Indiana.

ONLY six new cases of yellow fever were reported at Brunswick, Ga., yesterday. In all the number of cases of fever treated are 979-331 whites and 647 colored and 1 Mongolian. Among those who died are 40 whites and 14 negroes. The ratio of deaths among the whites is 12.31, and among the negroes is 2 per cent, says Surgeon Murray in control. Frost is expected this week and then the fever will be at an end.

The receipts of the government of the United States during this fiscal year according to the secretary of the treasury's statement are \$30,000,000 less than expenditures. Under these circumstances it looks as if the government will be forced to issue bonds to pay expenses and meet demands. When congress meets again it will find an empty treasury and will have to make some measure whereby the credit of the government will be retained. An issued of bonds seems to be the only resource now.

Beware of Ointments for Catarrh that Contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. CHENEY & CO., Toledo, O.

Sold by all druggists, 75c. Nov. 5-1m.

The North Carolina Liquor Dealers', Distillers' and Growers Association met in Charlotte last week.

WASHINGTON LETTER.

(From our regular correspondent.)

WASHINGTON, D. C., November, 13th 1893.

The election returns received from the different states last Tuesday is bad news to Democrats. The news was received here with many demonstrations from the Republicans. Your correspondent was unaware until Tuesday night that there were so many Republicans left in the city. The Republicans were the first to cheer the news from New York and New Jersey, which had gone Republican for the first time in many years. It seems a little discouraging to the Democrats, but it must be remembered that it is usual for the party in power to lose the first years after the election, and some naturally expected it. There is much satisfaction in the fact that the South is still solid. Maryland, Kentucky and Virginia, elect Democratic legislatures. The elections in Virginia "paralyzes" the Populist Party. They are like Dr. Dunn, "claim all and get none." The great Democratic victory in the "Old Dominion," is an assurance that the South is still in the Democratic column. The result of the election is not discouraging by no means. It is not so bad as expected. Virginia went Democratic by 50,000 majority, and Mr. Marion Butler, of North Carolina, assisted the Populists in their canvass, and also distributed some of his papers (letters from headquarters) in that State. Of course his valuable paper helped the Populists wonderfully, but the Democrats won by a much larger majority than in 1892. It would be a wise thing for the Populists in that State to import some other man for their next campaign. Butler is no good. He failed in his own State in 1892, too.

Ten days or two weeks will probably see the new Democratic tariff bill before the public. The members of the Ways and Means Committee have not yet made their final revision of any of the schedules, but the members are a unit on the question and will not be changed except in minor details. The committee is a set of conservative men who realize the responsibility upon them, and it is safe to say that they will do all they can for the interests of the people of the country. A report was circulated last week that the elections Tuesday had effect upon the Ways and Means Committee. A reporter of the press called upon the committee, and they all declared that the elections are not going to have any effect upon them, but that they are going straight on with their work without hesitation. The most emphatic remarks were made by representative McMillin, of Tennessee. He repudiated the idea that Tuesday's votes had terrified the tariff framers. "There will be no back down by the committee," he said. "They will go straight on without variation or shadow of turning to keep the pledges upon which they were elected, and upon which the Democratic party swept and can still carry the country. They will report a thorough, painstaking reduction of the tariff to a revenue basis. They will report a bill imposing taxes for the support of the government instead of a tax for the support and enrichment of individuals. No, sir, there will be no back track taken. The continuance of McKinleyism is no remedy for the intense ills and the ruin it has produced." This is the kind of talk that the people of the country like to hear.

The bill will receive some opposition in Congress, but of its passage there is no doubt. The Southern newspapers do not seem to be the least discouraged by the results of the recent elections. The best Democratic newspaper in the South, and one that can be relied upon, has this to say:—"If the party will only rally around its courageous President, and carry out the Chicago platform, there is no reason to despair of success in the Presidential campaign. Remember the lessons of the election. 1. The people believe in sound money. 2. (As shown in New York.) The people do not believe in corrupt politics. 3. (As shown in Iowa, where the Republicans only succeeded by unloading prohibition.) The people do not believe in interference with personal liberty. 4. (As shown in Virginia.) Populist defection amounts to nothing, even when backed by so able and popular a Senator as Daniel. Let Congress go ahead and legislate for the country on Democratic principles, as understood by the people when they elected Cleveland as the exponent of those principles, and let the party throughout the country support Congress in such legislation, and the victory the Democracy will win in 1896 will exceed even the overwhelming success of 1892."

THE RETREAT OF MOORABINDA
For THE HERALD.
This is a strange name, and also a strange place. You may get your geographies and look on every map, but never will you find Moorabinda. It is never seen in history, still there are a few people who know it very well, for it is their quiet home. It is thinly peopled and lies far away from railroads, towns and churches, where the sun of civilization shines but dimly on the happy inhabitants. Happy did I say? Yes, truly happy. They know not the joys, cares and sorrows which beset those who flit amid the gay scenes of society, or spend sleepless nights, thinking of some plan by which they may gain a few thousands. The great greed for gain, which is such a striking characteristic of many inhabitants of our large towns and cities, has not yet entered this delightful retreat, bringing with it, its thousand curses. The inhabitants are humble and poor, yet they are in possession of that greatest of all great gifts—contentment. The traveler who visits this far away retreat for the first time will find many things to interest and amuse him. Though it be far away from the haunts of civilization, the germ of education has been implanted in the minds of its peaceful occupants, and a few small school houses have been built in which schools are maintained a few months in each year.

As yet few newspapers find their way into this remote retreat and the great events of the outside world are almost unknown to these happy settlers. There is one thing peculiar to this quiet people. This is the spirit of oratory which is so warmly cherished in the hearts and minds of the youths and in many places we find small debating societies, where subjects are discussed with all the warmth and animation of the members of the Yencunus and Literary Clubs of the cities and colleges. In a recent journey through this quiet retreat, it was my good fortune to attend a few meetings of a debating society, whose members met weekly at a rude log school house. Here I heard speeches that would have astonished Webster, Benton, Clay and Evarts when they were boys. Though held in a rude log hut, the history of the Caleboga Literary Club is not without interest. This club has been organized about two years. Its meetings are held weekly. It has no written constitution and by-laws, yet it is surprising to note the good order which prevails at each and every meeting. Some of the societies of our schools and colleges might profit by the examples laid down by these boys and young men who are unacquainted with literature and refinement. These young Ciceros of the Moorabinda have heard of Washington and Columbus and never tire in speaking of the greatness of these two famous men, who often furnish the subject for interesting and animated discussion. There is a story going the rounds which says that the manager of admission to the aforesaid club is a very peculiar one, and one which may raise a laugh in the societies of the higher schools and colleges. It says that every member who joins this club gives a plug of tobacco to the treasurer as an initiation fee and thereafter gives one plug monthly for its maintenance. This is only a story and I give it as I heard it, not expecting it to be believed. The exercises of this club consist mainly in debating, though occasionally all members are requested to read, and vary the subjects as much as possible. Some comic, some weird, some poetic, some elevated prose style are rendered in a manner that would surprise some of our finest elocutionists. The members of this club show remarkable interest in their work and no member ever refuses to perform the duty imposed on him. There are boys, members of the Caleboga Literary Club, that will perhaps some day surprise

the nation with their eloquence and wisdom. Who knows? The few weeks which I spent in the Retreats of Moorabinda were very pleasant ones. If any of my readers should ever chance to visit this Retreat, I earnestly entreat them to remember the Literary clubs by visiting them and I am sure they will be amply repaid.

At another time I may probably write more concerning this Retreat of contentment.
PIERRE WYX,
Caleboga, October, 1893.

Thanksgiving Proclamation.
At the close of another year it is meet and proper that as a State and Nation we should give thanks to the Author of every good and perfect gift for the many blessings vouchsafed to us. The people of North Carolina have much to be thankful. The ravages of the storm, the blight of disease and the serious ills which have befallen some other States God in His mercy has spared us. Our lands have responded to our labors, and although not as abundantly as heretofore, still we have sufficient to preserve us from hunger and want.

In compliance, therefore, with the time honored and beautiful Christian custom of our Commonwealth, and in conformity with the recommendation of the President of the United States, I Elias Carr, Governor of North Carolina, do appoint

THURSDAY, THE THIRTEENTH DAY OF NOVEMBER, 1893,

as a day of public thanksgiving and praise to God. I earnestly request the people of the State to observe this day in a suitable manner, laying aside, as far as possible, their secular pursuits, and to assemble in their usual places of worship and with thankful hearts give praise and thanksgiving. And that every heart may rejoice, let us remember with that charity which is twice blessed the poor and afflicted, the widow and the orphan, the unfortunate inmates of our charitable institutions, and be especially mindful of our fast aging heroes at their own firesides and in the Soldiers' Home.

Given under my hand, and the great seal of the State of North Carolina, at the city of Raleigh, this 8th day of November, in the year of our Lord one thousand eight hundred and ninety three, and in the one hundred and eighteenth year of our American Independence.

ELIAS CARR,
By the Governor:
S. F. TELFAIR,
Private Secretary.

PROCLAMATION BY THE PRESIDENT.
WASHINGTON, Nov. 3. — The president to-day issued the following Thanksgiving proclamation: By the president of the United States of America:

While the American people should every day remember with praise and thanksgiving the divine goodness and mercy which have followed them since their beginning as a nation, it is fitting that one day in each year should be especially devoted to the contemplation of the blessing we have received from the hand of God, and the grateful acknowledgment of His loving kindness.

Therefore, I, Grover Cleveland, president of the United States, do hereby designate and set apart Thursday, the 30th day of the present month of November, a day of thanksgiving and praise to be kept and observed by all the people of our land. On that day let us forego our ordinary work and employment and assemble in our places of worship where we may recall all that God has done for us, and where from grateful hearts our united tribute of praise and song may reach the throne of grace. Let the reunion of kindred and the social meeting of friends lend cheer and enjoyment to the duty and let generous gifts of charity for the relief of the poor and needy prove the sincerity of our thanksgiving.

GROVER CLEVELAND,
By the president:
WALTER Q. GRESHAM,
Secretary of State.

Cure for Headache.
As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In case of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of the medicine. Try it once. Large bottles only fifty cents at Hood Bros., Smithfield, and J. W. Benson, Benson, N. C.

the nation with their eloquence and wisdom. Who knows? The few weeks which I spent in the Retreats of Moorabinda were very pleasant ones. treatment of Eczema and Salt Rheum. These two complaints are so tenacious that the readers of THE HERALD should know of the success obtained by using Dr. David Kennedy's Favorite Remedy.

In cases where all other treatments have failed, it has made a complete cure. Perhaps no more horrible case of Salt Rheum was ever reported than that of Wilbur L. Hale, of Rondout, N. Y. Several physicians utterly failed to render him any relief whatsoever it was finally suggested by one of the physicians attending, that Dr. Kennedy's Favorite Remedy be tried, and steady improvement followed its use, and a permanent cure resulted.

It is used with similar success in cases of scrofula, nervousness, kidney and liver complaints, and in all diseases brought about by bad blood and shattered nerves. Nov. 9-2w.

The fall of the year is a trying season for elderly people. The many cheerless, dark, dismal days act depressingly, not to say injuriously, on both old and young. Now is the time to reinforce the vital energies with Ayer's Sarsaparilla—the best of all blood medicines.

Having qualified as Executors of the Last Will and Testament of Wyatt E.arp, deceased, persons having claims against said Estate are hereby notified to present the same to the undersigned on or before Nov. 15th, 1893, or this notice will be pleaded in bar of their recovery. All persons indebted to said Estate are requested to make immediate settlement. This Nov. 11, 1893.

W. G. YELVINGTON, Executors
