

Turlington Graded School Opens Tuesday.

The third session of Turlington Graded School in charge of the superintendent and five lady assistants opens next Tuesday, September 5th.

This session gives promise of being the best in the history of graded school. With an increased number of teachers, and with about \$1600.00 improvements in building and school furnishings we are better equipped than ever before.

The School Board let out the new building by contract the 1st of July to Mr. J. R. Bailey. We are sorry to announce that he, owing to unavoidable circumstances, could not complete the work by the opening of school. Two lumber companies with whom he had placed orders burned, and owing to the large amount of building at this season it was impossible to get the lumber elsewhere in time.

However school opens as previously announced in the old building. We hope to have the new part completed by the last of September.

We earnestly urge patrons to start their children the first day of school, NEXT TUESDAY, and keep them there every day if possible.

We have ten grades in our school requiring ten years to complete the course of study for graduation. An average child can finish one grade per year if kept regularly in school, but if the child is kept out of school half of the time it will be impossible for him to advance to the higher grade the next year. So if you want your children to get the best results from the school that you have established by levying a special tax on your property keep them in school every day.

R. A. MERRITT, Supt.
