# SAVED MY LIFE"

-That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials received when they were in Cuba. in addressing the public, but the above remark and made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old 'age Scott's Emulsion offers a reliable proper and weak development, restoring lost flesh and vitality, and repairing cluded to charge the animal; but waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does conference with the fireman, it it does through nourishment-the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free. Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you

Some Church Notes.

It is proposed to erect the tallest church in Chicago on the site now occupied by the First Methodist Church. It will cost \$1,000,-000. There will be a huge auditorium, and the rest of the building will be for offices.

Of the population of Ireland-4,400,000-about 3,200,000 are Roman Catholics. The Protestant Episcopal Church known as the church of Ireland, and established by law as the state church of that country until the year 1869, reported 570,000 members. Presbyterians have 453,000; Methodists, 62,000; Independents, 10,000, and Baptists

In France in a population of 38,000,000, 30,000 000 are known as Roman Catholies Protestants number 700,000. Of these 500,000 are connected with the Reformed Church, 15,000 have 2,500 members, Baptists. 2,260, Plymouth Brethren and allied companies 10.000, Jews, 60,000. Until now three ecclesiastical bodies have received state support, the Roman Catholic. the Reformed and the Lutheran. On January 1st 1906 there was a complete separation of church and state .-- Selected.

GREETED BY STEER IN CUBA.

Mr. Longworth Tells How Animal Held Up Bridal Train-

Representative Nicholas Longworth related an anecdote yesterday afternoon which indicated the cordiality of the reception with which he and his bride were

Shortly after the train on which they were traveling had left Santiago, it was brought to little mining king were not greatly sursimilar expressions are a sudden stop by the engineer. Mr. Longworth and his bride stepped out to ascertain the cause and saw in the middle of the track a large steer. The animal was facing the engine, shaking his horns and bellowing erally has luck on his side. He knows vociterously. The engineer toot-ed his whistle and the fireman to Z, he understands how to play both rang the bell, but the steer not business and politics so that the two means of remedying im- only refused to budge, but bel- games will work his way, and he has lowed all the louder.

After this had gone on for several minutes, the engineer conas soon as he started the engine the steer lowered his shaggy with them. But Heinze even ten years head and prepared to make an ago, when he was quite a young man, onslaught himself. This disconcerted the engineer and broke Standard Oil vice president to solve. his resolution. He then held a was decided to give the animal some hot air. The engine was started slowly in his direction, Amalgamated properties. At the beand when it reached him a cloud ginning of the interview Mr. Rogers is of steam was let loose. To add said to have intimated in his usual poto the animal's confusion the lite and suave manner that of course whistles were blown and the bell he had the power to crush his youthful rung again.

This was a demonstration which the beast had never met before, and he slowly stepped to the side of the track. This gave Heinze, with equal politeness, remarkthe engineer his opportunity, ed that he had not come to make a and he started the train with a proposition, that Mr. Rogers had sent jerk, and before the steer could for him, and he was there to listen. recover from his surprise, it was out of reach.

When last seen the animal was still standing alongside the track shaking his ponderous head, Young Heinze smiled. "Mr. Rogers," which the friends of the bride and he said, "I am surprised. I had thought groom said was his method of you were a man of broad views, accusbidding them farewell. They tried to convince the couple that he stopped the train in order to extend them a cordial welcome.-Washington Post.

## f. A. Beinze, The Napoleon Of Copper

THEN it was announced a few days ago that F. Augustus Heinze had won his fight against the Amalgamated Copper company and its Standard Oil backers men familiar with the dapper prised. There are few men who stand a chance of winning when the battle is against such men as John D. Rockefeller, H. H. Rogers, Senator W. A. Clark and other exponents of what Thomas W. Lawson calls "the system." Heinze is one of these few. He gennerve enough to tackle anything. The harder the proposition the better he likes it. H. H. Rogers is considered to possess a wonderful power as to estimating men and handling them in any negotiations he may think fit to enter There is a story that about that time Mr. Rogers invited him to his office one day with a view of compromising suits against the companies controlling rival completely to the earth, but that he hesitated to exercise it, that litigation would interfere with some of his plans and that, in short, he would listen to a proposition for settlement. Mr. Thereupon John D. Rockefeller's right hand man is said to have declared:

"Well, Mr. Heinze, we will give you \$250,000 to settle all your claims—give it to you in cash this afternoon."

tomed to great negotiations."

"In heaven's name," gas ed the oil magnate, "how much do you" ant?" "Ten million dollars," coolly replied Heinze as he turned and said good day, It would have been economy had the representative of Amalgamated and

F. AUGUSTUS HEINZE.

Standard Oil closed with Heinze at his own figures then. But he could not see it that way at the time. When the long warfare was recently concluded through the purchase of a majority of was rumored that Heinze got \$25,000,-000 out of the settlement. Amalgamated officials denied the sum was so large, but nobody doubted it was a good deal in excess of \$10,000,000. The effect of the settlement will be to release the Amalgamated min in Mon-tana from the injunctions obtained by

The "F." in the name of Mr. Heinze stands for Frederick, and he was called Fritz as a boy, but he now goes by his middle name of Augustus. He is the son of a New York merchant and was born in New York in 1869. On graduating from the School of Mines of Columbia university in 1889 he started for Montana. His first job was that of an assistant engineer on the "inside" "What does RHEUMACIDE of the Boston and Montana mine, and his pay was \$5 a day. During the day he grubbed patiently 1,000 feet beneath the surface in overalls and laced cowhides. He studied the trend and dip of the copper veins and compared mines he washed up, put on his "claw hammer" evening suit, one of the first seen in Butte, and dined as though in a clubhouse on Fifth avenue. The miners called him "dude," but they soon

learned that he was no tenderfoot. After two years of practical work in the mines Heinze went to Germany he is immune and cobras cannot hurt and spent two years there in study of "Well, I am going to try this mineralogy. Then he returned to this Heinze, a lawyer, formed a copper company to operate in Montana. The young men had inherited some money posed to be valueless, but which they it is said to have the power of modifynice hand welt shoe in patent calf or vici, at living prices, call all over.' And that's the truth, at W. G. Yelvington's store.

The inside' and 'makes you well all over.' And that's the truth, old man.'

Incomplishments and is a contributor to the leading British publications.

## FOR MEDICAL RESEARCH.

Rockefeller's Gift to Ald Fight Against Disease.

Medical and scientific men the world over are expecting important results from the researches to be undertaken in a large and imposing structure which may now be seen in New York city upon a site in the upper part of Manhattan Island commanding a fine view of the East river, eIt is a site upon which once stood the colonial nanslou of Governor De Witt Clinton, but the historic ground is now to afford en abiding place for the Rockefeller Institute For Medical Research. Eventually there will be a group of buildings

THE ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH.

on the site, which extends along Avenue A from Sixty-fourth to Sixty-sev enth street, but the structure recently completed and shown in the accompa nying engraving is the main building and contains laboratories, offices, lec ture rooms, library and apartments for the conduct of all kinds of experiments. The main building is 135 feet long, 60 feet deep and five stories high. Close by is a building for housing the animals which will be experimented on for the benefit of medical science.

This institute is the outcome of John D. Rockefeller's grief over the loss of a little grandson from cholera infantum, He determined to use a part of-his great fortune in aiding medical investigators to discover effective treatment for this and other diseases which so often baffle the most skilled physicians He has defrayed the cost of the buildings thus far erected, a sum exceeding \$325,000, and has endowed the institution to the extent of \$1,250,000. Most elaborate provisions have been made for experiments on animals, and it is anticipated that much more may be accomplished in the future with such facilities than under conditions existing in the past, when the investigator found himself greatly hampered oftentimes by lack of the right opportunities for prosecution of his research.

### LADY LAWSON.

English Woman Journalist and Her Visit In the Orient.

Lady K. Lawson, the distinguished English woman journalist, has been passing through the United States on her way home from a prolonged stay in the orient. Her tour included Japan, where she had a photograph taken while in the picturesque costume of the mikado's country, but her longest visit was to India, where she was greatly interested in the study medical scientists have been giving to the subject of cures for the cobra bite and for the plague. So many thousands of persons perish annually in India from these causes that the matter possesses the greatest importance. At last the investigators have discovered an antitoxin which is said to be a sure cure for the

LADY LAWSON IN JAPANESE COSTUME.

bite of the cobra and a serum or vaccine for the prevention of the plague. Lady Lawson secured snapshots of several cobras while the fangs of the huge snakes were being extracted for the purpose of making the antitoxin. The venom is injected in small doses into a horse at different times during two years, and at the end of that time him. He is bled, and from this blood the serum is made. It is used in the cine is prepared by taking placeme germs from the bodies of rict putting them through a pracess of a somewhat complicated matter. While It is used in the main as a preventive for the disease in the event of an inoc-

## READ AND YOU WILL LEARN

READ AND YOU WILL LEARN

That the leading medical-writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Tilley Ellingwood, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glauce at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.
