"Words cannot speak highly enough for the Cuticura Remedies. I am now sev-enty-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost beyond recognition. Dark blood flowed out of wounds in many places and I was so disheartened that I thought surely my last chance was slowly leaving As the foot did not improve you can readily imagine how 1 felt. 1 was simply disgusted and tired of life. 1 stood this pain, which was dreadful, for six months, and during this time 1 was not able to wear a shoe and not able to work. When I withheld until serious harm has result-ed to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties. Miss Matilda Borman writes Mrs. Pinkham as follows:

#### A BIRDS' BALLROOM.

Where the Cock o' the Rock Performs Like a Whirling Dervish.

Dancing is by no means confined to quardrupeds. A writer in the Strand says that It is the principal play of many birds.

Perhaps the finest of bird dancers is the South American cock o' the These birds have regular rock. dancing places, level spots which they keep clear of sticks and stones.

A dozen or more of the birds assemble around this spot, and then a cock bird, his scarlet crest erect, steps into the centre. Spreading his wings and tail, he begins to dance, at first with slow, stately steps, then gradually more and more rapidly until he is spinning like a mad thing. At last, tired out, he sinks down, hops out of the ring and another takes his place.

Some of the quail tribe are great dancers, and so are the American sand hill cranes. It is a most ludicrous sight to watch a crane dancing, he is so desperately solemn over the whole performance. He looks like a shy young man who has just learned to waltz and is rather ashamed of the accomplishment.

Having badgered her into a state of utter speechlessness, the lawyer appealed to the judge to make her answer his o"tations. "Why do you not answer, madam?" asked the judge. "Because, my lord, he scares me so," replied the trembling woman. "So does he me, ma'am," said the judge. -Law Notes.

IT'S THE FOOD.

The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. 1 would have a full, sick feeling in my stomach, with pains in my heart, sides and head.

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could est that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food.

"I hadn't drank any coffee then in five weeks. 1 kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat aimost anything I wanted, didn't feer badly after eating, and my nervousness was all gone. It's a pleasure to be well again."
