

Can't Be Separated.

Some Smithfield People Have Learned How to get Rid of Both

Backache and kidney ache are twin brothers.

You can't separate them.

And you can't get rid of the backache until you cure the kidney ache.

If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys.

Geo. L. Allen, residing at 307 Barnes St., Wilson, N. C., says: "When I saw Doan's Kidney Pills advertised I concluded to try them as I was suffering from backache and pains through my loins. I also suffered from a disordered condition of the kidney secretions, and in the morning felt lame and sore. I decided to give Doan's Kidney Pills a trial and procured a box. They relieved me almost at once. I continued their use and they regulated the action of my kidneys, banished the backaches and improved my general health. I have no hesitancy in recommending Doan's Kidney Pills to others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Off to College.

The supreme question with the young men and women of our state is and ought to be, "Shall I go to college this fall or linger yet another year?" My object in writing this article is to beg you to start now. Every day you linger is a day wasted. The day has come to change Horace Greely's famous phrase "Go west, young men," to this "Go to college, young men! Go to college!" All that our country has to look to for the future is the Youth of to day. If you fail her she has no hope.

Do not delay till you are able to go. The Indian Summer of your life will slip away and still you will not be able. It will cost a sacrifice: It will try the manhood in you. But things too cheaply bought are usually worthless. Thousands of young men and women, no more able than you, will go to college this fall and bathe in the fountain of eternal youth and why not you? They have heard the call of life and are preparing to count one in the struggle. Pack your trunk and start for college the first day, and then remain there as long as possible; and when it seems impossible just remain anyway. In this county too much of our material is being wasted. Some go to college it is true, but the greatest number never darken a college door. The hope of the state North Carolina depends on saving this material that is being wasted. "Off to College." Let that be the cry!—Rev. O. R. Mangum in The Church Messenger.

Why James Lee Got Well.

Everybody in Zanesville, O., knows Mrs. Mary Lee, of rural route 8. She writes: "My husband James Lee, firmly believes he owes his life to the use of Dr. King's New Discovery. His lungs were so severely affected that consumption seemed inevitable, when a friend recommended New Discovery. We tried it, and its use has restored him to perfect health." Dr. King's New Discovery is the King of throat and lung remedies. For coughs and colds it has no equal. The first dose gives relief. Try it! Sold under guarantee at Hood Bros. drug store. 50c. and \$1.00. Trial bottle free.

THE VALUE OF A SMILE.

What It Did for a Scotchman in Calcutta During Plague.

On the door leading into the private office of the treasurer of one of the Hartford banking institutions may be seen by all comers a plain white card, on which are these two words: "Keep Smiling."

Ask the treasurer the significance of the placard, and he will say simply: "Just keep smiling. That makes every thing easy. That's what smiles are for. A good, unfeigned, sincere smile is a veritable battering ram to knock hard things out of the way. Sometimes I smile out loud, all to myself, when I run against anything hard; and the invitation is out to whoever enters my door. I take it that people will smile as they read the card, and I want them to continue the act while in here!"

He tells a visitor who came to see him last winter, a Scotchman, who had served in India in the army. "My bear sir," said the visitor, "I am greeting that legend heartily. Many years ago, when the plague was raging, I was in Calcutta, and sick. The hospitals were full and with other patients I was lying in a shed, a very sick man. On each side of me a poor chap had died, when a man came around with one of the doctors to measure the bodies. As they finished the second fellow's measurement they looked at me, and the man said: "Three of 'em high?" and wiped out his tape measure at my side. In spite of all effort, I could only stare. To save my life I couldn't speak or move. My head could do was to smile, and I just smiled. Instead of the measuring line I was given better attention, and recovered. The smile did it! That's right! 'Keep smiling.'"—Hartford Times.

Happiness.

Happiness is a shy plant. For the one who nurses and watches it, devotes time and thought to its culture, and who tries to remove all hindrances from the soil, and shelter it from every rough wind, it never reaches anything but a puny and uncertain development. But he who is too busy with other things to bestow much attention upon it; whose heart and hands are too full of weightier matters to heed its vagaries, will usually be rewarded with a hardy and plentiful growth. There is nothing better than a little wholesome letting alone in the matter of watering and petting, so far as one's own happiness is concerned. It will not live under a glass.—Selected.

Be not too confident of thine own opinion; but be willing to hear the judgment of others.—Thomas A Kempis.
