

**ERWIN MILL ABOUT FINISHED.**

It Covers Four Acres.—New Mill Will Add 2300 to Population of West Durham—Houses for 250 Families.

Work on the new Erwin cotton mill in West Durham is being rapidly completed in order to have everything in readiness for beginning work in the fall. The building has been completed for some time almost all the machinery is installed, there being only a few more looms to be placed. Work on the installation of the enormous steam turbine is now being rapidly carried on and in a few weeks all will be ready for the generation of power. The machinery will run by what is known as steam-electrical power. An enormous 2,500 horse power steam turbine is being installed which will be used to generate electrical power. This power is to be transmitted to motors situated in different parts of the mill so arranged that one section of the work may stop while the other will continue. This removes the necessity of multiple shafting and a small break in one piece of machinery will interfere with the work of only a small section.

It is not definitely known when the machinery will start as trade conditions are not yet such as to justify the manufacture of cloth. None of the big mills in the country are running full time now, but it is only a question of a few months until business will improve.

When asked about the opening, those in charge of it, said that it would be sometime in the early fall and that everything was being done to get the machinery in shape. Some families have already been secured and others are coming in all the time. If trade conditions will justify it there is no doubt but that work will be begun in a very short while.

More than 800 people will be employed when the work starts which will mean the bringing of over 200 families to West Durham. Houses are already prepared for 250 families. There will be others to come to West Durham besides those connected directly with the mill and it will mean the increase of the population of that town by early 2,000.

The size of the mill can be judged from the floor space of the main building. It covers over four acres of ground. This does not include the space covered by the power house and the bleaching plant. On a rough estimate it will take from 200 to 300 bales of cotton to fill all the machinery so that a piece of finished cloth will be ready to come from the looms.

A different grade of goods than that usually made by the North Carolina mill will be manufactured here. The product will be wide bleached sheeting. The bleaching and everything will be done on the grounds and the goods will leave the mill ready for the domestic market. A great deal of the sheeting made in the South is for the export trade but this will be made entirely for the home market, and will not be sent North to be bleached and prepared for the markets, but will come from the mill ready to measure over the counter.—Durham Evening Sun.

**A Dreadful Wound.**

From a knife, gun, tip can, rusty nail, fireworks, or of any other nature, demands prompt treatment with Bucklen's Arnica Salve to prevent blood poison or gangrene. It's the quickest, surest healer for all such wounds as also for Burns, Bolls, Sores, Skin Eruptions, Eczema, Chapped Hands, Corns or Piles. 25c. at Hood Bros.

**Railroads.**

Railroads are made for the purpose of bringing prominent hotels together in different parts of the country, also to supply our best people with California fruit, and to provide bond issues.

Our railroads are very numerous, and friendly engines are constantly running across us.

Every self-respecting railroad has a president, a board of directors, a Wall Street broker, and a seat in the Senate. It is also made up of rolling-stock and watered stock. Private stock is also seen in some of its parlor-cars.

Besides its parlor-cars, there are freight-cars which transport furniture. If you are moving from one part of the country to the other, and should put your furniture in a freight-car, you would never see it again, because it is the business of freight-cars loaded with furniture to wander around without a home. If you were the head of a meat trust, however, and should fill a freight-car with your goods, it would reach its destination in double-quick time.

One of the uses of our railroads is to kill off every year about fifty thousand of our commonest people. This leaves all the more for us.

But railroads also have their responsibilities: they are responsible for our suburbs; also for our popular lecturers.—Success.

**THE GREAT LACK IN BEDS.**

It Will Take 45 Years at Present Rate to Care For All Consumptives of the United States.

At the present rate of increase, nearly forty-five years must elapse before sufficient hospital accommodations to provide for all the indigent consumptives in the United States will be provided, declares the National Association for the Study and Prevention of Tuberculosis in a bulletin issued recently.

Although over 7,000 beds in hospitals, sanatoria, camps, and wards for tuberculous patients were established last year, there are fully 300,000 indigent consumptives who ought to be placed in such institutions and a total of only 22,720 beds in the entire country. On May 1, 1909, there were 15,244 beds for consumptives and 294 institutions. The annual report of the National Association shows an increase of 99 institutions and 7,590 beds.

In seven states, Alabama, Idaho, Montana, Nevada, Oklahoma, Wyoming and Utah, with a combined population of over 5,000,000 not one bed for consumptives has been provided. In nine states and territories, Alaska, Delaware, Florida, Kansas, Mississippi, South Carolina, South Dakota, Vermont and West Virginia, the number of beds for consumptives in each case is less than 50, while the combined population of these states is over 7,000,000. On the basis of 400 deaths to a million of population, which is approximately the present rate in the United States, there would be nearly 5,000 deaths annually from tuberculosis in these fourteen states with at least 20,000 cases of this disease all the time, and less than 500 beds to care for them.

New York state leads in the number of beds for consumptives provided up to May 1st with 5,476 beds; Massachusetts is second with 2,403 beds; Pennsylvania, third with 2,347 beds; Colorado, fourth with 1,489 beds; and New Mexico fifth with 1,104 beds. As yet, not one state in the country has made adequate provision for its consumptives. New York has set itself the task of having "No uncare-for Tuberculosis in 1915," and several cities in other parts of the country have adopted similar programs. The National Association says that tuberculosis will not be stamped out until all cases of this disease are cared for either in their homes or in institutions. With this end in view, efforts will be made to increase the number of hospital beds in this country to at least 35,000 by May 1, 1911.

**E. S. Edmundson for Register of Deeds.**

I notice Mr. Edmundson, of Pleasant Grove township, has been suggested as a suitable man for Register of Deeds for Johnston County. We need a man of intellect, vim and push for such an office and I am fully persuaded that Mr. Edmundson will fill the bill. Therefore, I shall support and do all that I can to secure his nomination at the coming Democratic convention. I know him to be thoroughly qualified for the place, a Simon Pure Democrat, has always worked for the success of the party, has never before asked for any office at the hands of the party. His father, Mr. J. P. Edmundson, has for 50 years voted the straight Democratic ticket without a scratch, having canvassed the county in the interest of his party. Now let's honor him in his old age by nominating his son, Ed for Register of Deeds. I believe Mr. Edmundson can carry as many votes as any man in the race for he has few enemies and to know him is to be his friend. Be sure and let us nominate him for I feel sure his nomination will be equal to an election.

J. B. HARDEE.  
Benson, N. C., R. F. D. No. 3.

**A Gentle Hit.**

He—"I think your family name is such a fine one."  
She—"Do you? I get dreadfully red of it."—London Opinion.

**CENSUS OF THE BIG CITIES.**

Director Durand, of the Census Bureau Will Soon Begin to Tell the Public About the Number in Uncle Sam's Big Family.

Washington City, June 20.—E. Dana Durand, Director of the Census, is now devoting the greater portion of his time to organizing his force so that the public may know at the earliest possible moment the result of the Census of the leading cities of the country. Director Durand is of the opinion that his force will be in readiness to tabulate the returns of the supervisors of the cities of the country of 25,000 or over so that announcements may be made public during the months of July and August. Full returns from many of the large cities of the country are now in the hands of the Director and the work of tabulation is about to commence. It was said to-day that the census of Washington would probably be the first to be announced to be followed as rapidly as possible by cities in the order in which returns have been reported by the Supervisors. Director Durand intends to issue two bulletins daily to the press of the country carrying announcements of the results of the census takers of the cities. One bulletin will be issued daily at 11 A. M. and a second at 6 o'clock, thus furnishing "copy" for afternoon and morning newspapers. When the work is fairly started these bulletins will fall thick and fast, and even at that it will probably consume the months of July and August to complete the returns from the cities.

**Resolutions of Respect.**

Whereas, God in his all-wise providence has seen fit to remove from our midst our beloved sister, Mrs. Susan Caroline Waddell, a member of the Woman's Home Missionary Society, Selma, M. E. Church, be it—

Resolved first—That in the death of Mrs. Waddell our society has lost one of its consistent, consecrated and beloved members.

Second—That we extend our heartfelt love and deepest sympathy to the bereaved family commending them in this hour of great trial to God from whom cometh a more perfect consolation.

Third—That a copy of these resolutions be sent the bereaved family, the Raleigh Christian Advocate and The Smithfield Herald, and a page on our minute book be set apart to her memory.

MRS. R. J. NOBLE,  
MRS. N. E. EDGERTON,  
MRS. T. G. SEAY,  
Committee.

**A Card of Thanks.**

I feel very much indebted to the good people of Four Oaks for their many kind acts during the recent illness of my wife. I wish to thank them one and all.

WALTER HOUSE.  
Four Oaks, N. C., June 22.

**THE LADIES' FAVORITE.**

Wherever Parisian Sage is Known it Has the Call.

Parisian Sage, that most efficient of all hair restorers, is a very delightful and refreshing hair dressing. Besides possessing these qualities it will positively make any woman's hair soft, luxuriant and attractive. Hood Bros. sell it for 50 cents a large bottle and will return your money if it does not cure dandruff, falling hair and itching scalp in two weeks.

"I had given up hopes of ever being cured of dandruff, when I purchased a bottle of Parisian Sage. It has entirely removed the dandruff and has started a growth of new hair, and all this after having been troubled 15 years. I cheerfully recommend Parisian Sage."—Mrs. Elizabeth Anderson, Mechanicsburg, Pa.

Murie!—"And then he kissed you, I suppose just at the psychological moment?"

Gladys—"I don't know whether you'd exactly term it the psychological moment. A big woman who called herself his wife entered the room just then!"—Young's Magazine.

**OUR TOWN TO HAVE TELEPOST.**

New Automatic Telegraph to Extend Its Lines to North Carolina.

New York, N. Y., June 18.—Following the plan of the Telepost automatic telegraph Company to interlace the whole country at an early date with its web of automatic telegraph wires, announcement was made in New York to-day that has under advisement the expansion of this system to all parts of North Carolina.

Connection is to be established by way of Louisville, to which point the system will be extended July 1st from Chicago and Indianapolis, where it has been operating for the last 12 months. William H. McCollum, former Superintendent of Construction of The Postal Company, who is in charge of the extensions of the automatic system, has been looking over the ground for some time reports conditions unusually favorable for the inauguration of work on the line.

This system is regarded by scientific men as the most brilliant achievement in the evolution of telegraphy since Morse's time, representing the conquest of a new basic principle in telegraphy that presages for that industry a world wide revolution with its 2000 words a minute service and rates of one cent, half-cent and quarter of a cent a word, regardless of time or distance.

By the Telepost system a message is transmitted with equal facility over either a telegraph or telephone wire. Its rates are the lowest and its service the most rapid in the world.

Civic organizations and boards of trade throughout the state, have been in touch with the officials of the Telepost for several months and have assured the Company of their readiness to co-operate with it in anyway it can suggest as most likely to facilitate the extension of its lines to North Carolina.

Among the cities and town under consideration for connection with the automatic system are: Raleigh, Goldsboro, Newbern, Winston-Salem, Salisbury, Charlotte, Concord, Wilmington, Elizabeth City, Durham, Greensboro, Asheville and Smithfield.

Patrick B. Delany, the inventor of the Telepost system which is now used between Boston Portland, and between Chicago, St. Louis, Indianapolis, Terre Haute, and other cities in Massachusetts, New Hampshire, Maine, Indiana, Illinois and Missouri, is an old associate of Thomas A. Edison. The discovery of the New scientific principle which made its invention possible, is the realization of an ambition Delany and Edison had as far back as 1871, when he and the wizard experimented on improvements to the Morse methods of hand transmission over a special wire constructed between Washington and New York with the idea of evolving a system of rapid telegraphy to displace the mails for long distance communication.

In addition to being a boon of inestimable value to the public, the Delany automatic system will save the newspapers of the country hundreds of thousands of dollars a year in telegraph tolls, through its cheap rates, great speed and accurate service.

Of the \$1,500,000 expended every year for telegraph service by the Associated Press it is figured out that approximately \$700,000 will be saved by the use of the automatic service, when it completes its continent wide expansion.

**For Register of Deeds.**

To my friends and voters of Johnston County:

I hereby announce myself a candidate for Register of Deeds subject to the action of the Democratic County Convention. I have never asked for an office before but always worked as a private in the Democratic party. I am in favor of putting all county officers on salaries and let the money in excess of their salaries go into the County Treasury for the benefit of school and roads, which will give us better schools and better roads.

If I should be nominated and elected I promise you to give the office my best personal attention.

Very Respectfully,  
WALTER M. IVES, Smithfield, N. C.

**A. & M. College.**

In the development of North Carolina's industries, the North Carolina College of Agriculture and Mechanic Arts is taking a foremost part. Its students are giving their lives to improving our farming, our trucking, our dairying and stock-raising. They are rapidly making their way into our factories, our electric power-houses, and our shops. They are helping to build our roads, our bridges, and our railroads. Indeed, they are just the men needed at this stage in the State's growth. We are glad to note that more young men than ever before are seeking, through this well-equipped institution, a place in our industrial progress. We call attention to the advertisement in this issue.

**FRANK A. DANIELS FOR JUDGE.**

Nearly All the Democratic Lawyers Of Wake County Earnestly Recommend Him to the Democratic Voters.

We, the undersigned members of the Wake County Bar, most heartily recommend for the nomination for the Superior Court Judgeship in this District, the name of Mr. Frank A. Daniels, of Wayne County, believing from our personal knowledge that he is most eminently qualified for the position. He is a Democrat whose uprightness and integrity is beyond question. He is impartial and courteous, and firm in his conclusions. His learning and ability are sure pledges of the entire satisfaction which he will give upon the Bench. We earnestly recommend him to the Democratic voters.

Watson, T. H. Calvert, Perrin Busbee, Walter H. Grimes, Alex. Stronach, B. F. Dixon, Jr., R. W. Winston, Ed. Chambers Smith, W. C. Harris, W. N. Jones, Victor H. Boyden, Percy J. Olive, Apex, J. H. Fleming, Carl H. Herndon, Zebulon, B. C. Beckwith, Walter Clark, Jr., Albert L. Cox.  
Raleigh, N. C., June 20th.

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effectual, but in no way disagreeable to use. Sold by Hood Bros.

**Discouraging.**

A pompous man went into a drug-store to buy a cigar. The only person he found there was the soda-water dispenser. The boy was sweeping out the store.

"Sweeping out eh?" said the man.

"Well, that's how I got my start."

The boy looked him over, and replied, "Aw, what do you want to discourage me like that for?"

When the man left, he was frowning.—Ex.

**Dr. Pierce's Favorite Prescription**  
Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.  
It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.  
THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrappers and attest to the truthfulness of the same under oath.  
It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.
