#### PROGRESS OF THE GREAT WAR.

Russo-Rumanians at Critical Point. Must Decide Now Whether to Make Stand Against Teutons or Retreat Into Moldavia and Bessarabia.

The Russian and Rumanian troops who have been in retreat before the Teutonic allies in Dobrudja seemingly now are at a point where they either must make a stand or cross the Danube into southwest Bessarabia or into Moldavia in the region of

The latest official communication from Berlin says that in Dobrudja the Russians have retreated past their newly fortified positions in the north and that the Tentonic allies now are advancing toward the lower Danube.

Aside from the announcement of the capture of more than 1,000 Rusvisions, no mention is made by Berlin of the advance in Moldavia. In the Carpathians the Russians and Teutonic allied forces continue fighting but with no great victories falling to

In all other theatres artillery engagements predominate, only small infantry actions having taken place anywhere. Berlin records attacks favorable to the Turks and Bulgarians in the Struma region of the Macedonian front.

On the right bank of the Meuse river in the Verdun sector, the French fought spirited artillery duels, especially near Bezonvaux, the Caurieres wood and Chambrettes. The infantry of neither side left the trenches. Reciprocal bombardments took place along the British front in France and also along the line in Belgium .- Columbia State, 20th.

Decorating Houses, Churches and Streets With Evergreen Popular Since Dawn of History.

Perhaps the very oldest of all Christmas customs is that of decorating our houses, churches and streets with evergreens. At the very dawn of history began the worship of the SOON WE'LL COME WITH NEW trees, or forest worship, and the groves were man's first temples.

# WHEAT TURNS DOWNWARD.

#### Poor Export Demand and Peace Move Cause Depression in Prices.

As in other speculative channels, peace proposals had a disquieting effect in the wheat markets and prices turned sharply downward again, following the recent rally. Strength was lacking almost from the beginning, largely because of disappointing export buying, and with the significant developments in the foreign situation on Tuesday quotations gave way with rapidity. Thus, declines of 10 cents or more occurred during a single session, with the December delivery at Chicago later dropping close to DO NOT WAIT UNTIL THE LAST \$1.50 and May below \$1.64, against Mr. and Mrs. Walter Hobbs spent \$1.92 and \$1.96, respectively, touched recovery, but renewed depression set Mr. and Mrs. Lida Lee spent Sun- in on Friday and the December option Miss Carra Woodall spent Sunday 1531/2. With wheat declining in spectacular fashion, it was not strange that conditions in flour should have been more or less demoralized. Wide difquotations and so much confusion resulted that trading was extremely difficult. The net outcome was quite a substantial recession in prices to conform with the lower range of wheat.
