EARLY DISCOVERY IS CURE OF TUBERCULOSIS

Sanatorium, July 9. Early diagnosis and sanatorium treatment mean the cure of 89 out of every 100 cases of tuberculosis, figures at the North Carolina Sanatorium for the past eleven years show. Found in its early stages and the proper treatment given, more people recover from tuberculosis than from any of the other major diseases.

The first symptoms of the disease are obscure and hard even for a doctor to rightly diagnose. Often the symptoms of tuberculosis are taken by both doctor and patient to be some other disease. A cough is thought by the majority of people to be always the first symptom of tuberculosis. It is not. Frequently a cough does not appear until the disease has passed the early stages. Tiredness or fa-

Best Speller in U.S.

tigue, without good reason is one of the first and more common symptoms. A loss of weight should put one on guard. Loss of appetite and indigestion is often tuberculosis and not stomach trouble. A slight blood-spitting, pain in the chest or pleurisy, and a subnormal temperature in the morning—rising a degree or a degree and a half during the day are practically always symptoms of tuberculosis.

A person with any of these symptoms should go at once to a doctor and have a thorough examination.

The North Carolina Sanatorium employs two doctors, specialists in tuberculosis, to hold clinics for the diagnosis of tuberculosis throughout the State. A clinic is also held at the N. C. Sanatorium every morning except Sunday from 8 to 11. These

clinics are all free of charge. Arrangement for examination can be made by writing the Superintendent, Sanatorium, N. C. There is no need of any person in North Carolina becoming seriously ill because of lack of diagnostic facilities.

INFANT KILLED WHEN CAR HITS EMBANKMENT

Roseta, 2 1/2 year old daughter of Mr. and Mrs. H. H. McLamb, who live in Meadow township, Johnston county, was instantly killed late Thursday afternoon when a car driven by the mother struck an embankment and threw the child out. The accident occurred on he highway near the Johnston-Sampson line.

The infant was on the rear seat with two other children when Mrs. McLamb lost control of the car and in some manner was thrown out. Death is thought to have resulted from a broken neck, though there was an ugly cut across her forehead. Their car was not damaged and none of the other occupants of the car suffered any injury. The mother is prostrate with grief.

Outdoing Them Both

An Englishman and an Irishman lived in a coast town and both owned boats. One day the Englishman decided to christen his, and on the stern painted: "Henry the Eighth."

"An' wot the divvle will I name mine?" mused the Irishman. Rejecting the suggestion of the others that he calls his "George the Fifth," he became suddenly inspired, got out brush and paint and inscribed the legend:

"March the Seventeenth."—American Legion Weekly.

Livestock men at State College say that the face of the horse collar should be kept clean. It should be brushed off every night and washed at least once each week. This will help to prevent sores.
