## Wyatt Murder Trial Is **Continued Fourth Time**

State Fair Week Considered By Both Defense and State Not The Time For So Notable A Case.

TO BE TRIED NOV. 2

The trial of Jesse Wyatt, charged with the killing of Stephen S. Holt of this city on the second of last June, has again been postponed. This time the Raleigh fair intervenes and the case will not come up until the week of November 2, according to an agreement reached at a conference held Thursday by Judge Garland E. Midyette and the attorneys on both sides. Solicitor Evans and J. Wilbur Bunn and Jones and Horton, representing the defense, did not think that fair week would be a suitable time for a trial of the magnitude of the Wyatt case. Juduge Midyette had already arranged for the converting of the two weeks civil term beginning October 6 into a mixed term. It was decided to use the first week for the trial of civil cases and the second week for the Wyatt and other criminal cases. The Wake County bar voted

twenty-four to five to dispense with the court entirely during fair week, but Judge Midyet's held that such action would hinder too much the business of the courts and the term will be held with the exception of Thursday, the biggest day of the fair. It was agreed at the conference held Thursday that no further continuance will be sought by the defense on alay technical grounds. The case, it will be recalled, was continued in June and again in tinuance next week will be the

The tackle used was the ordinary hook and line with wriggly worms, bits of fat meat and bread for bait. The extraordinary thing about it was "how they did bite!" Hundreds were caught measuring from a few inches to more than a foot in length. Many a boy and girl was made happy, the grownups sharing the pleasure. Acquariums were rehabilitated and ne ones bought.

Three years ago five gold fish were placed in this reservoir and now it is thought to contain thousands. It was deemed best to remove some of them hence the unusual fishing frol-
