**SMITHFIELD IS YOURS NEXT WEEK**

The Johnston County Fair for 1925 is at hand. Next week will be gala week. Everybody has been working hard and a well earned holiday at the County Fair will be taken by many. Secretary Narron has spared no effort in arranging for a week of pleasure and profit, and if everyone has a good time, he will feel repaid.

In a special section today devoted to the Fair, every phase of the coming event has been written about, until there is nothing we can add except that Smithfield extends a cordial welcome to all the Fair visitors who come here next week. A number of Smithfield business firms extend a welcome through their ads in this issue, but we would speak for every citizen. Hospitality is a great thing, and we know our people to be hospitable. Smithfield is your town next week.

**WHY NOT FINE FIRE-OFFENDERS?**

From time to time, something is said about cleaning up, especially in the business districts as a precaution against fires. The mayor warned during Fire Prevention Week against losing the low insurance rate in this city, and some cleaning up of back lots was accomplished. But to clean up just occasionally is not the idea. Rubbish and especially inflammable trash, must be disposed of continuously. The Industrial News Bureau of The Manufacturer, gives a pertinent suggestion along this line—as follows:

Traffic departments of cities and states can pass traffic regulation laws and ordinances until they are black in the face in an effort to curb automobile accidents. But so long as they fail to do the one most vital thing to protect the traveling public, namely require of a driver an actual test as to his competency to drive a machine, accidents will continue to

increase. "And so it is with fire prevention work. A city or state will talk fire prevention. It will spend thousands and ten of thousands and hundreds of thousands of dollars buying fire fighting equipment, maintaining fire departments and state insurance departments. But the one thing which could be done at the least expense to prevent fires, is entirely overlooked, namely, laws and ordinances which prohibit the accumulation of rubbish piles and fire hazards of a known character. If such hazards accumulate and are permitted to remain and cause loss, why not fine the owner just the same as an automobile driver is fined for breaking traffic laws?"

"If half the energy was expended by fire prevention officials that is expended by traffic officials, the saving in life and property to the American public would be many times as great."

**WHAT IS SCOUTING WORTH TO US?**

Scouting in Smithfield in the last year has gone forward with great strides. The Court of Honor is one of the most active in the whole Council. Some of Smithfield's best citizens go to make up this body of men who are giving their time and thoughts to the future men of our town. Scouting is worth every cent that Smithfield has put into it. The Scout camp has brought nearly two thousand dollars to our town and it will bring more in the years to come. A Smithfield man is the President of the Council. Johnston county has more troops and more scouts than any other county except Lenoir. Scouting brought boys to Smithfield from all four states last year which was a booster for us.

Leaving outsiders out of it, the following is some of the records our town boys have made in two years in Scouting. We want you to read it over and decide for yourself what benefits do these boys of ours get out of Scouting. What is Scouting worth to us?

James Sellers has made 24 credits as follows: Bird study, civics, conservation, forestry, scholarship, handicraft, pioneering, automobilism, public health, first aid, athletics, poultry keeping, pathfinding, camping, cooking, painting, carpentry, craftsmanship in leather, first aid to animals, swimming, life-saving, safety first, personal health and firemanship.

Watson Wharton has made 19 credits in cooking, handicraft, scholarship, swimming, first aid, public health, safety first, pathfinding, pioneering, civics, electricity, physical development, bird study, conservation, carpentry, first aid to animals, personal health, craftsmanship in wood,

firemanship. William Ragsdale, three credits: firemanship, pioneering, swimming. Charles Alford, fifteen: handicraft, life-saving, swimming, wireless, automobilism, firemanship, electricity, signaling, first aid to animals, camping, civics, personal health, athletics, first aid, public health.

Jesse Adams, three: swimming, personal health, firemanship. Walter Lassiter, two: firemanship, handicraft.

James Wellons, five, firemanship, safety first, life-saving, swimming, personal health. Walter Sellers, five: first aid, electricity, personal health, firemanship, pathfinding.

Henry Johnson, three: life-saving, swimming, firemanship. Ernest Aycock, seven: first aid, to animals, life-saving, civics, craftwork in wood, firemanship, pathfinding.

Joe Honeycutt, three: first aid to animals, swimming, life-saving.

**SMITHFIELD FOLKS IN FLORIDA**

Well, here is the Smithfield bunch way down here at Palm Beach. Tomorrow we go to Hollywood and Miami.

We are enjoying every minute of our trip. This is a wonderful state. Southern California really hasn't a thing on Southern Florida. Half of yesterday and all of today we have ridden right by the water's edge of the beautiful Indian river. This afternoon we had a wonderful dip in the good old Atlantic.

We have been on a Hollywood bus since we left Jacksonville. We are really their guests. They have given us wonderful drives and conductors. To cut a long story short, they are wonderful to us, and we want as many of you as can to take this trip. You simply cannot afford to miss this opportunity. The first part of this trip has been worth twice the actual cash.

MILDRED YOUNG, J. K. SANDERS, MRS. EDW. W. POU, MRS. CHARLES DAVIS, MRS. Wm. M. SANDERS. October 19, 1925.

**TO THE CATTLE OWNERS OF JOHNSTON COUNTY**

A few weeks ago The Smithfield Herald published an article asking the people of Johnston county who had not been visited by the state and county inspectors to notify us in order that we could test their cattle before closing the work in this county. For some reason this article was not interpreted correctly by some people. We are again giving notice that our work will close October 31. This is your

last chance to get a test made free. If you have a cow which has not been tested for tuberculosis, send us a card giving your name and location in the county.

Respectively,  
 DR. L. R. SULLIVAN,  
 State Inspector  
 BUCK JONES, Co. Assistant.
