Happy Feeding
It is not only what you feed, but the way you feed it that counts. We've been in the feed business long enough to find that out. We can help you get better results from your poultry or livestock.

One of your neighbors told us a few days ago that he was amazed and delighted at the increased production he had gotten from Happy Feeds. He fed his cow the way we told him to. He saved money by getting better results on less feed. That's something to think about.

We don't want to sell you a bag of Happy Feeds unless we can show you where it will save you money. The Happy Way of feeding has been carefully worked out by experts. It is a real help to every feeder. Let us explain the Happy Plan to you.
