Defalcation Is Settled In Part

Former County Attorney Turns Over To Clerk of Court \$15,508.99 Paid By Bonding Companies For Adams And Keen.

James D. Parker, former county attorney, delivered checks to H. V. Rose, clerk of the court, Tuesday, July 5, in the total amount of \$15,508.99 in the case of the Board of Commissioners vs. W. T. Adams, former register of deeds, and J. A. Keen, former auditor.

The Maryland Casualty Company which signed both of the auditor's bonds and the bond of the register of deeds for the second term was the heaviest loser.

The defalcation with interest was more than the total penalty of the bonds of the register of deeds during both terms, the amount paid by the Fidelity and Deposit Company on Adams, first term, was \$5175.00 and one-half of the cost amounting to \$301.63. This defendant has not yet paid its part of the costs. The Maryland Casualty Company paid for Adams' second bond the amount of \$5175.00 and \$301.63 costs and an additional amount on the auditor's bonds of \$4,857.36.

These checks were made payable to James D. Parker, the attorney of record, and endorsed by him to the clerk of the court.

Hon. J. C. Clifford, the referee made his report last August, and the same was affirmed and judgment thereon as of the September term of the Superior court, and heard of in the Supreme court on appeal this Spring.

Mr. Parker, former county attorney, who brought the actions and secured judgment in the Superior court, was requested to remain in the case and appear in the Supreme court, with Mr. Paul D. Grady, the present county attorney.

The Good Things.

"The really good things—the big things—are inside and not outside the man. The big thing is not luxury, but contentment; not a big house, but a big satisfaction; not accumulated art treasures, but a fine art appreciation; not a big library, but a serene studiousness; not a big estate, but a large vision. The big things are not the things that are seen, but the things that are not seen. Seek peace and ensue it. Seek the things that are above. Such indeed are the true, goodly people."—Dr. Jowett.

When Cotton Reports Appear.
"When will 1927 cotton reports be issued by the United States Department of Agriculture?"
A cotton report on July 9 will give figures on the acreage of cotton in cultivation as of July 1.

Cotton reports on September 8 and December 8 will include estimates of acreage of cotton abandoned since July 1. Cotton conditions reports on July 6, September 23, and October 25 were eliminated by act of the recent Congress.—Progressive Farmer.

City To Install Stop And Go Sign

Town Board Sets Friday, July 22 As Time For Public Hearing On Paving Assessments Rolls

The acceptance of the street paving assessment roll, the consideration of the licenses and dealers tax in compliance with the state Revenue and Machinery Acts of 1927, the decision to purchase a stop-and-go street sign, and the refusal to allow another subscription dance without payment of the fifty-dollar tax, were the high spots of the July meeting of the board of town commissioners held Tuesday evening.

Perhaps the matter of most concern to a number of Smithfield citizens was the paving assessment rolls which were prepared by George J. Brooks, city engineer, assessing the cost of the recent street and sidewalk paving in the town. This information is now open for public inspection at the office of the city clerk and a public hearing will be granted by the board of commissioners on Friday evening, July 22, for the purpose of hearing all allegations and objections should there be any in respect to the assessment rolls.

The licenses and dealers tax constitute a long drawn out report covering numerous items as sources of revenue for the town treasury. Among the changes which will affect this city has to do with pool rooms. The 1927 statute states that a twenty-five dollar license is collected for each pool or billiard table unless operated by a fraternal organization having a national charter, by the American Legion, by the Y. M. C. A. or by a Y. W. C. A.

In accordance with a recommendation to the board by R. P. Hilding, chairman of the committee who was to make proper investigations, Smithfield is to take its place with other cities in the installation of a "stop-and-go" sign. This city makes a beginning by purchasing only one of these signs which will be placed on the corner of Market and Third streets. This device is the invention of Claude Grantham, of Goldsboro, who for 29 years was city manager of that city. The sign which represents an outlay of about \$200 will be installed within the next 30 days.

A committee appeared before the board and asked permission to hold another subscription dance. The motion never received a second, and therefore no action releasing the \$50 tax for such dances was taken.

KIWANIANS DISCUSS TOBACCO MARKET

The rebuilding of the Smithfield tobacco market was the theme for discussion at the weekly luncheon meeting of the Kiwanis club held yesterday at the Woman's club room. Special guests on this occasion were the local warehousemen. Dr. W. J. B. Orr, had charge of the program. Before the occasion was over, a committee, composed of Dr. Orr, Everett Smith Stevens and W. M. Gaskin was appointed to lay plans for the boosting of the Smithfield market. The warehousemen and buyers were asked to meet with this committee to offer any suggestion for the good of the market.

Allen-Pollard

Mrs. Alice L. Pollard, aged 54, and Mr. Needham Jackson Allen, aged 64, both of this city, motored to Bethesda Primitive Baptist church in Harnett county Saturday morning and were united in marriage by Elder L. A. Johnson, pastor of the church. Mr. and Mrs. Allen will reside near town where Mr. Allen has charge of a truck farm.

State vs. Cap G. Raynor charged with carrying concealed weapon, assault, trespass and operating a car while intoxicated. Found guilty only of trespass and fined \$10 and costs.

NEW BUSINESS FIRM HERE

Two stores on Market street owned by Ashley Smith, colored, have been rented by Baldwin and Shaleford of Goldsboro, who announce that they expect to open a Chevrolet show room and service place by August 1. Work on changing the buildings to suit the needs of the new concern will begin at an early date. Mr. Baldwin and Mr. Shaleford expect to move their families here soon.

The announcement of this new firm would indicate that possibly there will be some changes in the Chevrolet agency of this city. Mr. B. J. Holleman, who has been manager of the Chevrolet place since its establishment here, states that his agency has not yet been canceled but there will probably be a change. Mr. Holleman has made numerous friends since coming to Smithfield who will be glad to learn that he will not leave this city and will continue in the automobile business.

Mr. Yelverton has been operating a bakery in Fremont for several months, and his bread has been complimentary by all who used it. He will have with him a graduate baker of Chicago, who knows his job.

Pythian Offices Come To Clayton

Grand Keeper of Records And Seals Will Have Headquarters At Pythian Orphanage.

HENDERSON, July 6.—Concentration of the central offices of the Pythians of North Carolina to the orphan home the order maintains at Clayton was further completed as a result of the decision of the joint meeting of the board of trustees of the orphanage and the grand council of the grand lodge, held Monday at the orphanage at Clayton, according to R. S. McCain, of Henderson, past grand chancellor of the State, and chairman of the board of trustees of the orphanage.

These two bids ordered the transfer from Charlotte to the orphanage premises in Clayton of the office of the grand keeper of records and seals, which office is now being filled by George E. Lovell. A committee was appointed to raise \$10,000 for the purpose of erecting on the orphanage premises a residence for the grand keeper, the residence to contain his offices as well as his home.

Monday's meeting was attended by a full meeting of the board of trustees, and by Grand Chancellor Fred Brower, of Winston-Salem, and other grand lodge officers.

One of the important decisions of the trustees was to admit nine new children to the orphan home, making a total now of about sixty, the largest number ever to have been cared for there at one time. The orphanage now has five registered Jersey cows, each giving from five to seven gallons of milk, according to Mr. McCain, who was optimistic over conditions at the home, declaring the orphanage in the best condition it has ever been, and with an enthusiastic and united Pythianism behind it in North Carolina.

Important files and records are stored here. The Federation Bulletin is published from this department. It is a service bureau for the state clubs and has established a contact between headquarters.

Annual Dinner Is Enjoyed In Kenly

Woman's Club Entertains Husbands And Licens Club; Mrs. Thomas O'Berry, Mr. And Mrs. Tom Bost Speakers.

KENLY, July 5.—On Friday evening the Woman's club entertained their husbands and members of the Lions club at their annual dinner. They had as their special guests, Mr. and Mrs. Thomas O'Berry of Goldsboro, and Mr. and Mrs. Tom Bost of Raleigh.

The dinner was served by the home economics department of which Mrs. L. C. Wilkinson is the chairman. Covers were laid for 84. Mrs. P. D. Grady, president of Kenly Woman's club, presided. Mr. P. D. Grady acted as toast master, and in his usual original and clever manner introduced the speakers for the evening, who were Mrs. O'Berry, Mrs. Bost, Mr. Bost and Mrs. J. M. Woolard.

Mrs. O'Berry chose as her subject the various activities of club work. She assured the husbands and Lions that the measures supported by the women are the same as those supported by the men. She stated that there are two ways to test the value of women's clubs. First, what the club does for the individual, and what the club does for the community. The individual is personally helped for everything she does for the club. Her work reacts on her home life. The very standards for which the club stands help the community. We believe in clean, healthy, and beautiful towns. The Woman's club deals with human relationships in every form. Mrs. O'Berry explained the work of each department of the club.
