

Agricultural Topics

By J. B. SLACK
Benson Branch Office of Eastern Carolina Chamber of Commerce

The time has come when most ble. By growing most of the above farmers are beginning to make crops, especially cowpeas and soybeans, for their crops the coming season, and the fact of growing all of our feed for livestock on the farm should not be overlooked; and especially those farmers who have put on dairy cows and are selling cream or whole milk can not afford to plan their year's crop without making plans for growing all their own hay for the coming year and just as much of the grain feed for their livestock as possible.

Another item which should be given lots of consideration is that of seeding down a permanent pasture, and three or four acres sown down to a good permanent pasture such as carpet grass, Lespedeza, Dallas grass, etc., or a mixture of all three will make an excellent permanent pasture. A good temporary pasture for one season can be had by sowing a few acres of Sudan grass. This also can be utilized as a hay crop if so desired. Any of the above can be seeded during the coming spring.

For making a good hay crop to feed next fall and winter about the best bet for this section is soybean and cowpeas. Either one or both of these sown on good land will make an abundance of very excellent roughage for feeding the dairy cows. In sowing cowpeas for hay it is usually better to mix with soybeans as the beans will hold up the pea vines and make the hay crop much easier to harvest and handle when they are cut for hay.

We should also put in plenty of grain to furnish that part of the ration for the dairy cows. A good dairy grain ration recommended by the State dairy specialists is:

- 4 parts coarse corn meal
- 3 parts cottonseed meal
- 2 parts wheat bran
- 1 part ground oats
- 1 per cent salt.

We can usually make the first two of the ingredients of this ration on the farms in this section. It is also possible to grow oats to make up that part of the ration, and that would leave only the wheat bran to be bought. It is a certain fact that he man who is making the most profit out of his cows is the man who is producing as near all of his feed as possible.

A BRIEF HISTORY OF A GREAT ACHIEVEMENT

TWO years ago Dodge Brothers embarked upon a program designed to place it and its Dealer Organization in a position on January 1, 1928, second to none in the industry.

The astonishing results of this great achievement are now known to the world.

It is doubtful if industrial annals can cite, over a similar period, an achievement so outstanding.

A smart, swift, low-priced and immensely popular quality Four has replaced its famous predecessor.

The Senior Six, outstanding in performance, quality and luxurious appointment, has been created.

Graham Brothers Trucks and Motor Coaches (formerly exclusively Fours) have been supplemented by sixes. Fifty new types have been added. The capacities are broadened to range from one-half ton to two-ton, all resulting in the most complete and capable line of work cars known, and with prices ranging from \$670 to \$4290.

Then Thursday came The Victory—a Six for \$1045 and up—the most spectacular engineering achievement of the decade.

These accomplishments, one following the other in steady progression, have now provided Dodge Brothers Dealers throughout the world with the most diversified and comprehensive line of passenger and commercial vehicles ever manufactured and sold by a single organization.

For every need and purse there is now a Dodge Brothers vehicle built dependably and in full recognition of the progressive ideals of today and tomorrow.

THE VICTORY SIX	THE SENIOR SIX
Coupe \$1045	Sedan (leather upholstery) \$ 75
Sedan 1095	Coupe for Four 9
Brougham 1095	Sedan 1595
	Cabriolet Convertible 1595
AMERICA'S FASTEST FOUR	GRAHAM BROTHERS TRUCKS AND MOTOR COACHES
Coupe \$855	A chassis and body for every conceivable kind of business. Capacities from 1/2-ton to 2-ton—fours and sixes. Prices ranging from . . . \$670 to \$290
Sedan 875	
De Luxe Sedan 950	
Cabriolet Convertible 955

reproved, but is still recognized as in good standing in his church. Often a lodge in the community disciplines a member for bad conduct, while the church of which he is a member ignores the same conduct, and in effect stamps it with the church's approval. The result is to degrade a church in the eyes of the community, robbing it of its glory as the fair "Bride of Christ." Evil-doers stir up trouble, cripple the work of the church, break the heart of the pastor, and torture him into leaving, while the church looks on sublimely, in fear of trouble if any action is taken. Often such neglect of discipline has brought a church near to decay and death, and the restoration of a healthy discipline has brought back to it life and power. The present tendency has been toward the utter neglect of discipline, the church preferring to go the easy way and to let each member be a law unto himself. Unless there is a reaction surely the glory of the church and the large success of its program are out of the question.

Church discipline was strictly enjoined by Christ and his apostles, and practiced by the early churches. Jesus said of the brother that had done wrong, "If he neglect to hear the church, let him be unto thee as a heathen man and a publican" (Mt. 18:17. Paul frequently commands it: "Them that sin rebuke before all, that others also may fear" (I Tim. 5:20). "Purge out, therefore, the old leaven, that ye may be a new lump" "Therefore put away from among yourselves that wicked person" I Cor. 5:7,13. Read I Cor. 5:11, Rom. 16:17; I Thes. 5:14, II Thes. 3:6; Titus 3:10, Rev. 2:14-16, the last being a solemn warning of the enthroned Christ to a church that did not deal with the evil-doers in its membership.

loses confidence in its ability to accomplish worthy objects.

All this applies in an eminent degree to the church of Christ. The church is strictly under law to Christ, and his laws must be the recognized government of the church. The church is a family, and is under the law of the household. It is a democracy, a voluntary association of persons agreeing to be governed by the will of the majority. It has recognized rules by which its members agree to be governed, and they join with the understanding that they will submit to the rules. They enter into a definite 'covenant', not only to submit to these rules, but to give their active support so long as they shall remain members. As they entered voluntarily, so they may retire voluntarily at an time, only they must retire in accordance with the known regulations of the body. All this is reasonable, fair necessary.

Whenever a church neglects discipline, lamentable results inevitably follow sooner or later. And everywhere the tendency has been to neglect discipline, and these lamentable results are almost everywhere in evidence. The worst result is that the standard of living for the church and community is lowered. One who is counted a Christian is seen to do whatever the flesh desires and yet is not

Always Stiff and Achy?

Too Often This Warns of Sluggish Kidney Action.

LAME? Stiff? Achy? Sure your kidneys are working right? Sluggish kidneys allow waste poisons to remain in the blood and make one languid, tired and achy, with often dull headaches, dizziness and nagging backache. A common warning is scanty or burning secretions. Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of bodily waste. Users everywhere endorse Doan's. Ask your neighbor!

That absolute zero creates. That would make possible transportation of electric current without cost or loss, and solve the problem of cheap power.

Mr. Haldeman-Julius, of Kansas, whose daughter is just trying a "companion marriage" experiment, tells the world that his daughter was born six years before he, Haldeman-Julius, her father, was married. He didn't have money to set up housekeeping, but the dear little girl was born anyhow.

That is interesting, not unusual. Leonardo da Vinci, second in greatness among all artists, was born outside of marriage, his father and mother never married. He supported his "legitimate" respectable high born half brothers and sisters.

William the Conqueror was born before his father married the interesting girl whom he first saw washing clothes in a brook as he rode past with his warriors.

But all that doesn't change the fact that marriage is better than lack of marriage. Marriage will not go out of fashion. It will per-

sist until men become worthy of an institution at present too good for many of them.

UNEASY SLEEP

"Nerves Were All to Pieces," Says Lady Who Tells How Cardui Helped Her When She Was Run-Down.

Hopkins, S. C.—Mrs. G. W. Arrants, of this place, says: "I was suffering from spells of weakness. These would come on me suddenly and I would have to give up and go to bed. For several months I did not sleep well at night very nervous. I could not bear the least noise. The children worried me. My nerves were all to pieces. I had taken Cardui several times before, so I sent at once for some and began to take it again. At the end of a short time I felt much better, so I kept right on taking Cardui. When I would feel a nervous spell coming on, I took it more frequently for a few days. "I can certainly say Cardui helped me wonderfully, for after a time the nervousness disappeared entirely. I could sleep at night and my general health was better. My appetite picked up and I enjoyed my meals, too." Thousands of other women have told of the benefit they have received from the use of Cardui. Keep it on hand, to take when needed. A medicine of long-established merit; mild, harmless. At all drug stores. NC-186
