GIFTS
 Dear God, I stand with empty hands
 To have them filled,
 The other gifts thou gavest me
 I long have spilled,
 And some I broke upon these stones,
 And some are bled
 Until they died, because my thoughts
 To strangeness wed.

Dear God, I would have other gifts
 Within my hands,
 Seal them upon me in Thy wrath
 With golden bands;
 That I may never lose again
 A love, but free
 My heart, in deepening loneliness,
 To ecstasy.

BADLY RUN-DOWN
 Kentucky Woman Had "Terrible Time" Doing Her Home Work. Strength Returned After She Took Cardui.

Shelbyville, Ky.—"Several years ago," says Mrs. Alven Jesse, of this place, "my health was very bad. I was very much run-down. I was in such a weak, nervous condition that I was not able to do my housework." "I struggled to keep up, because I had to, but many a time I spent hours in bed, trying to force enough strength to go through the daily routine."
 "This condition went on for some time, until I heard about Cardui, which some one told me was good for such ailments. I gave it an immediate trial, and, I am thankful to say, my improvement was rapid. I soon was able to do my housework with ease and comfort. I felt fine and I looked so much better."
 "This spring I was not as well as I had been. I was ill in the winter with colds, which left me weak. So I sent at once to the store for Cardui and began taking it. In just a little while I was feeling much better, my strength returned and I was able to get my work done easier and with less effort."

MY DEAR YOUNG PEOPLE:
 You and I are being talked of these days. Some things they are saying about us are true, for the simple reason that men and women cannot talk forever and not say something that is true. They are doubtless forgetful when they say that we are so very different from what they were when they were young. When we caught Pa off his guard when he told us about how he dressed up in his home-made gowns and his new store-bought suspenders and stepped out among them. He thought when he got his leather boots greased with tallow and two locks of his foretop pasted down over one eye, that he was a sport of the first magnitude. Of course dad had his day and his boys are having theirs. But there is a big difference to consider and herein lies the danger for us: The difference is that dad was schooled in the university of hard knocks and ploved an oak-head axle for his spending money, while we are gliding on the hard-surface made smooth for us by dad's hard hands. While this is the case we are likely to become

CORRECTION IN BANK STATEMENT
 In the bank statement of the Farmers Bank and Trust Company published in the Herald last Friday, an error inadvertently occurred. The resources of the bank included on Dec. 31, 1927, United States Bonds and Liberty Bonds in the amount of \$21,613.54. The linotype set it \$2,613.54. The corrected statement appears in full elsewhere in this issue.

WORTHY PEOPLE:
 I wish to express my heartfelt thanks to Bro. Tuttle who is doing preaching and pastoral work for me while I am doing nothing. IS PROHIBITION A FAILURE?
 This week marks the eighth milestone of national prohibition in the United States. It is being discussed now more than at any time since it became a law. The bad men are rolling their eyes and "cussing" on account of it and the timid saints are shaking, fearing that these bad boys are as bad as they look.
 If we examine records and evidences concerning this blessed experiment what do we find? The following propositions may serve as an index into the nature of the situation.
 1. Those who love liquor, because of a dark brown taste or because of filthy lucre derived from it, want the law amended or repealed. St. Paul says that the law is a terror only to the evil-doer, I do not hear any good, humble, praying, sainted mothers, appealing for the return of liquor.
 2. There is less drunkenness now than in the pre-Volstead days. This is true even in New York where prohibition is weaker than in any other state. According to statistics from the Prison Department, public drunkenness has decreased seventy-five per cent in thirty years in New York. That is not what we often hear but that is the truth according to the figures. We know that these figures will more than hold in local communities according to our own observation. When I was a lad at Fremont, I remember how we boys spent our Saturday afternoons watching the drunks fight. During those days at Christmas season, we saw scores of drunken beasts. Now it is exceptional to see one. I went through the last Christmas season without seeing one. Of course each drunk guy thought that all other people were drunk and he so relates it, but I do not go to a booze fighter to get facts.
 3. We have more money in banks now than we had when liquor cursed the commonwealth. According to the Union Labor Advocate, we have \$11,000,000,000 in labor banks now. Before prohibition came into being the only labor banks in existence were the fat bellies of the barkeepers, and it was here that laborers deposited their savings.
 4. Liquor is higher priced now than when bars existed. This itself makes liquor prohibitive. Some say that this makes the situation worse since poor men will have it anyway. They do not have it anyway, when they haven't two dollars to pay for a pint. The higher the price of liquor the better it is for those who want it. I wish the stuff sold for a hundred dollars a drop.
 If you want to tell about how much worse it is now than when we sold every mother's son this poison that turned him into a murderer and a debaucher, tell it to Andy Gump—he is the only one who will believe you.

the crowd of happy idlers. We are prone to prove our social standing by the shape and cleanliness of our fingernails. This kind of ideal may do for those who live in king's palaces and recline in soft places and are content to be reeds shaken by the wind, but not for those who are called to be the sons and daughters of a God who hurled out words at his fingertips and laid the rugged foundations of the everlasting hills. I fear that our practices of softness and needless self-indulgence will develop us into putty men who will make good politicians and who will love the chief places in the synagogues. Ours, times demand statesmen and Christians who are willing to bear the cross of loving fidelity to duty.
