"Flies have caused more deaths than all wars," says Major Ransom of the Medical Department of the United States Army.

"Since the fly came into the world it has been synonymous with pestilence and disease."

But with FLY-TOX it is a very simple easy matter to rid the house of flies—to keep it fresh and clean, free of insect taint. FLY-TOX is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Research Fellowship. FLY-TOX has a perfume-like fragrance, is harmless to people. Simple instructions for killing ALL household insects on blue labeled bottles. INSIST ON FLY-TOX. —Adv.
