

**How to Raise Poultry**  
By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

**BAN THE "GET THE AXE" CURE**

Little Excuse For the Widely Prevalent Custom of Killing Chickens at the First Sign of Illness; Use of Simple Home Remedies or Easily Obtainable Commercial Preparations May Save Valuable Birds and Many Dollars of Profits.

The wife of a friend of mine tells with great relish of waking up not long ago and finding him in the throes of a violent nightmare. He was struggling desperately against some imaginary assailant and shouting at the top of his voice, "No-no-no! Don't! I tell you W's toothache, darn you—nothing but toothache!" Being finally roused up and pressed for an explanation, he admitted rather sheepishly that he had dreamed a huge rooster had him pinned up and was preparing to cut his throat with his spurs because he looked so droopy and had a huge swelling on his jaw. Not wishing to lose this advantage, friend wife at once reopened an argument that had been waging for months between them—"Serve you right if it really happened," she snapped. "Any man who is too lazy to save birds that could be saved with just a little trouble ought to have to take his own medicine."

Sometimes I feel much the same way about it, for chickens are much more than a mere hobby with me. But aside from all such sentimental considerations as might influence the enthusiast, there are some good sound reasons why it is unwise to resort to the axe every time a chicken begins to show signs of some more or less serious affliction. For one thing, the first examination doesn't always tell the whole story. Not every snuffle spells roup nor is every droopy, dispirited fowl infested with worms to an incurable degree.

All sick fowls, no matter what their ailment, should be removed at once from the flock and either killed or doctored. Chickens can be cured as well as live stock, or people, when sick, and I believe in individual treatment in most cases. I have been doctoring poultry diseases on my experimental farm for more than 20 years and have had excellent results except in the incurable ailments, such as T. B., cholera, bacillary white diarrhoea and other diseases known to be incurable.

A well protected coop, box or pen, apart from the flock is very necessary in which to place the sick fowls. Sick chickens placed in such quarters can be watched. If they develop unmistakable signs of diseases known to be incurable, kill them.

My many experiments during the past several years have proven to me that Permanganate of Potash, the medicine that turns water a reddish purple color, is of little or no value in preventing or curing diseases of poultry, when used in the drinking water in the regular way. But I find Epsom Salts very beneficial in preventing and curing many diseases of poultry. Each sick fowl should be given one teaspoonful of epsom salts, or for flock treatment, one pound mixed with a small tempting wet mash feed for each 100 hens.

Sanitation and disinfecting are two of the great secrets of successful poultry raising. Poultry houses and brooder rooms should be thoroughly cleaned often, and sprayed freely with a good dip and disinfectant. Properly built chicken houses with high open fronts that face the south, that are kept clean and free from insects by spraying with a good dip and disinfectant will do more to keep fowls healthy than anything.

In many cases a cure is possible with simple home remedies as easily administered as the flannel rag soaked with camphorated oil on baby's chest when he has a cold. Furthermore, any druggist or feed merchant carries reliable preparations for the treatment of practically every poultry disease that is amenable to medication.

**HEADACHE RELIEVED QUICKLY**  
**CARTER'S VEGETABLE PILLS**  
This Purly Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs.

Such medicines are always accompanied by simple, complete instructions, not only for the dosing of the feathered patients but for the general care needed to make treatment successful. Why then let them die or deliberately kill them off when they can be easily cured.

Poultry raising is a business that is or should be run for profit. It is for the poultry raiser to determine, therefore, whether or not any individual cure will justify the labor and expense necessary to effect a cure. It is unquestionably true, however, that many fowls are needlessly sacrificed when a little extra trouble would be repaid many times over. Don't forget that every fowl in your flock represents an investment of both time and money. You throw that away in addition to sacrificing possible future profits every time a bird is subjected to the "get the axe" cure if less drastic methods would have saved it.

**MRS. POU TAKES PART IN NAVY DAY CELEBRATION**

Mrs. Edward W. Pou who is in Washington, D. C., was recently invited to place a wreath on the monument for American War Mothers. Washington newspapers commented upon the exercises which were held on October 28 as follows: "John Paul Jones Honored. At the John Paul Jones monument, Mrs. Edward Pou placed a wreath on the monument for the American War Mothers. Her son, Edward S. Pou, a naval aviator, was killed in a seaplane accident 11 years ago yesterday.

"This demonstration at the monument was participated in also by the National Sojourners of the Military Order of the World War, and was presided over by Capt. George F. Unmacht of the Army's Chemical Warfare Service and president of the Washington chapter of the order. Tributes to John Paul Jones as the first commissioned officer of the United States Navy were paid by several speakers.

"The Navy Day celebration in Washington started at 2:30 p. m., when a Navy observation plane from the Anacostia Naval Air Station bombarded visitors at the navy yard with small paper balls containing messages of greeting. This was followed immediately by the parachute jumps from the big transport plane, and from that time on events followed each other in rapid sequences as the aces of the Navy and Marine air forces put their ships through their paces in a thrilling array of stunts and practical demonstrations.

"A brief demonstration also was held in the Navy Building, with short addresses by various speakers and a concert by the Marine Band.—Washington Post.

**Wreaths Placed.** "Mrs. Edward Pou placed a wreath at the base of the monument on behalf of the War Mothers, commemorating the memory of their sons whose lives were lost in the World War. "Rear Admiral T. J. Cowie, paymaster general, United States Navy, retired, commander-in-chief of the Military Order of the World War, placed a wreath in behalf of that order, while Captain Unmacht placed another on

behalf of the National Sojourners. "Similar services were held across the Potomac in Arlington Cemetery, in Bethlehem Chapel in Washington Cathedral and at the monuments of other naval heroes throughout Washington."—Washington Herald.

**Johnston County S. S. Association**

J. W. Hollowell, President, Swade Barbour, Vice-President, Ezra Parker, Vice-President, Miss Lillian Blue, Secretary, Rev. D. H. Tuttle, Editor.

The Johnston County Sunday School Association is not a new organization in the county, but has been in existence for several years, but it has been an up-hill proposition for some time, and we are now trying to put it on a different basis and make it what it should be "A mighty factor in the religious education of Johnston county."

Just a word as to the organization and program of work for the county association. Within the county there are seventeen distinct organizations which are known as township organizations, with a complete set of officers of each township, with few exceptions. The association is inter-denominational, therefore it makes its appeal to every Sunday school in the county and is capable of helping each Sunday school in its effort to build a bigger and better Sunday school. The state association with offices in Raleigh maintains a complete library for the instruction of superintendents and teachers of Sunday schools, and other timely topics, which is free to you for the asking. If you want any book write them for a list.

With the present situation of about two out of five persons in Johnston county now in Sunday school it looks as if there is a

great work for the association to accomplish, and we are unwaveringly putting our hands to the task, and ask that the people, pastors, superintendents and teachers take an active interest in the welfare of the organization to the end that your Sunday school may be benefited by the work that is being done.

We will be glad for any person interested in this movement and has a mind to write to do so, and mail your copy to Rev. D. H. Tuttle, and space will be given in this column for your article. J. W. HOLLOWELL, President.

Read this poem and see if your Sunday school is measuring up to the Master's program.

**Your Church School.**  
I am your church school.  
I am Childhood, Youth, Age on an eager quest, seeking the realities of life.

I am Yesterday—I bring heroisms, sacrifices, ideals out of the past.  
I am Today—Through the center of an enlarged universe I seek the Father God.

I am Tomorrow—I carry with me the vision of that which can be.

I am Duty—calling those who are able to "teach these my brethren."

I am Courage—I face great temptations and do not yield; I face insults yet hold my ideals; I face dangers and sacrifice in order to pass on to the Christ-life to youth, and

I do not waver.  
I am Love—The Master said: "Love the Lord thy God with all thy heart and soul and mind and thy neighbor as thyself."  
I am Service—For "Love is the joy of Service so deep that self is forgotten."  
I am Character—I form habits, show the way of the abundant life, create high ideals and direct actions.  
I am Education—For the Master Teacher is my guide and leader.  
I am Challenge—Call Youth on the upward trail to the great high peaks of life.  
I am Christ—Seeking, Serving, and Loving.  
I am your Church School.  
—Gladys O. Small.

**TRUTH TABLETS—**

(Take as Needed)  
By Rev. D. H. Tuttle  
I. Perhaps you are in poor health because God whom you profess to love has lessened his interest in you on account of your lack of interest in his work. You know what you ought to do but you are not doing it. Remedy: Try loving and serving God with all your might, Eccles. 9:10, Quit trying to satisfy God by using only one talent when you have two or five. God is just and if you will give him a real, whole-hearted service he will have a reason for keeping you in health fit for good work. God is not in a hurry to call a good worker from the field. Try it. God heals sick servants. See Matt. 8, 5 to 13.

When the people of any nation takes unto itself power (?) to live unto itself a self-willed, self-centered life it will find war in its path, and war is the bloody wedge that will burst an individual or family or nation fragments. Read Matt: 12:25. Read Psalm 92: 12 to 14 and try for

**Bladder Irritation**

If functional Bladder Irritation disturbs your sleep, causes Burning or Itching Sensation, Backache or Leg Pains, making you feel tired, depressed, and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today at any drug store. Put it to the test. See for yourself what it does. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c.

and hold on to those sorts and positions of service which fruitfulness even down to old age. Do not limit God in his use of you, but freely let him have his way with you in promoting you from lesser to larger fields of usefulness. Remember what Paul says, 1 Cor. 15:41, about "Star glory, moon glory and sun glory. In the matter of service what satisfies you may not satisfy your Lord. He made you, knows your capacity and will expect full returns. Many cease to grow in grace and fruitfulness when they back against promotion.

**MORTGAGE SALE OF REAL ESTATE**

Pursuant to the power and authority in him vested by that certain deed of trust of D. L. Tool, J. M. Massengill, Isaiah Massengill, C. C. Lee, J. Ira Lee and Joseph Parker to John F. Bruton, trustee, dated January 1, 1920, and recorded in Book 65 at page 125 of the Johnston County Registry, the undersigned trustee will on Monday, December 2, 1929 between the hours of 12 M and 1 p. m. before the courthouse door in Smithfield, N. C., offer for sale at public auction for cash to the highest bidder the following described lands situate in Johnston county, North Carolina, adjoining the lands of T. B. Allen, W. M. Stanley and others and more particularly described as follows:

First Tract: Bounded as follows: line S 168 poles to a black gum in C. B. Sanders, deceased, line; thence with his line E 174 poles to a stake in Nathan Williams' line; thence with his line N 5 E 41 poles to an oak (down) on Gat, thence down the run of said Gat to Neuse River; thence up the meanders of said river to the beginning, containing 583 acres, more or less; and being the very lands conveyed unto the said parties of the first part by the Hackney Wagon Company.

This the 26 day of October, 1929.

**Still More Millions Treat Colds Direct**

**Round-About Method of "Dosing" Gives Way To Modern Vaporizing Salve**

More and more people each year are giving up the slow, indirect way of treating colds by "dosing" with internal medicines, and are adopting the modern direct treatment—Vicks VapoRub.

Vicks goes direct to the affected parts and checks the cold in two ways—its medicated vapors, released by the heat of the body, are inhaled direct to the inflamed air passages; at the same time it acts direct through the skin like a poultice or plaster, "drawing out" tightness and soreness.

Vicks is especially appreciated by mothers because it is just rubbed on, and therefore, cannot upset children's delicate stomachs as "dosing" is so apt to do. Today the whole trend of medical practice is away from needless "dosing."

To keep pace with the ever-growing demand, the famous slogan, "17 Million Jars Used Yearly," was raised to "21 Million" in a short time ago. This figure too has been outgrown, as there are now "Over 26 Million Jars Used Yearly"—a jar for every family in the United States.

Beginning at a stake near the old blacksmith shop and running thence S 68 E 36 poles to a pine; thence N 37 E 39 poles to a stake; thence E 84 chains to a stake in the field; thence N 60 E 56 poles to a stake; thence S 55 E 144 poles to a stake; thence N 23 E 63 poles to a sweet gum and a maple; thence S 75 E 160 poles to a persimmon tree; thence S 81 E 210 poles to a stake; thence N 42 poles to a stake; thence nearly N 250 poles to a stake; thence N 200 poles to a stake; thence S 10 poles to a stake; thence W 132 poles to a cotton tree; thence N 13 W 98 poles to a stake; thence S 59 W 258 poles to a sweet gum; thence S 15 E 51 poles to a gum; thence S 67 W 68 poles to a stake; thence S 30 W 12 poles to a stake; thence S 2 E 41 poles to a cotton tree; thence N 13 W 98 poles to a stake; thence S 59 W 258 poles to a sweet gum; thence S 15 E 51 poles to a gum; thence S 67 W 68 poles to a stake; thence S 30 W 12 poles to a stake; thence S 2 E 41 poles to the beginning, containing 904 acres, more or less.
