

We make no pretensions to great talents, or deep research, but if zeal may be substituted for talent, or industry for research, we hope to be tolerably successful as caterers for the public.

Washington, N. C. May 8.—As yet we have received no account of the schooner McIntyre, of this port. The Mac sailed for New-York in the latter part of February last, and on the passage experienced a violent gale of wind, by which much of the shipping on the coast was injured; since that time, nothing has been heard of her, and it is more than probable that she has foundered at sea. Capt. Parker, her commander, was much respected here, and his loss will be sincerely lamented. We are happy, however, to state, that the owner, Mr. Wm. Tannahill, will sustain no pecuniary loss—the vessel being insured.

The schooner Sarah, Captain Whitehurst, of Portsmouth, arrived here on the 5th instant; having made a passage from the bar to Philadelphia, discharged her cargo, and returned to the bar in seven days! This is what we call going it.—*Times.*

Halifax, May 6.—The Superior Court for Northampton county, was held last week, by Judge Martin. Three negro slaves were tried for murder committed at corn-shuckings, in different parts of the county. Primus was found guilty of manslaughter and sentenced to the pillory and whipping post. —, guilty of manslaughter and was branded and whipped. Lewis, guilty of murder and sentenced to be hung on the 21st of this month.—*Adv.*

Southern Indians.—The Columbus (Geo.) Enquirer of the 23d ult. states that the body of a man, who had been evidently murdered, was found on the 13th ult. in Randolph county, on the Hitchitee creek. He was of ordinary size, very dark hair, and had on a blue satinett coatee. Nothing was found in his pockets, which had doubtless been robbed. A cream-colored stray horse was found in the neighborhood, supposed to belong to the murdered man. Two Indians have been apprehended at Fort Mitchell, suspected of the crime—a quantity of money was found in their possession, and a note of hand for \$20, given by Mr. Solomon Wall to N. E. Mayo.

The same paper contains a letter, dated 20th April, to the President of the United States, signed by eleven Chiefs and head men of the Creek nation, praying to be protected in their present situation, and objecting to emigrate beyond the Mississippi.

Tuskina taken.—The Montgomery (Alabama) Gazette states that Tuskina, the Indian Chief who stopped the United States' mail a short time since, was taken at his residence on the night of the 12th ult. by Major Wager and a small body of United States troops. In a short time after he had been taken to a place called Triplett's Stand, it is said that

there were collected upwards of 1000 Indians, generally armed. It was supposed a rescue was designed, but an old King of a neighboring town, and Tuskina himself, are understood to have told them that they must not put their hands on a white man. Maj. Wager was on his way to Mobile, to deliver the prisoner up to the U. States authority for the Southern District of Alabama.

The Charleston Courier, received since the above was written, states that Tuskina reached Mobile on the 19th ult. and was held to bail for his appearance at the May term of the District Court on a charge of having stopped the U. S. mail in February last. He has been deprived of his rank by the upper towns, and the Little Doctor appointed in his place.

Hands off.—A person was brought before our Superior Court on the last day of its session, and fined \$150, for having, on the previous evening, assaulted a respectable minister of the gospel.—*Newbern Sent.*

Measuring.—The revised statutes of New-York require that a roller, instead of a square edge, shall be used in striking grain that is measured in a half bushel or other measure. The square edge, it is said, will draw off a pint of corn or three gills of oats, below the even surface, while the round makes it exactly level.

Fayetteville Obs.

An American Peer.—The New York Mercantile Advertiser says: "It is reported that information has been communicated to the British Minister at Washington, that Capt. William Bolton Finch, the present commander of the U. S. ship Vincennes, is the legal heir to the title and great estate of the Earl of Bolton. The report is given in such a shape, that we have no reason to doubt it. The Vincennes was at Canton early in January, to sail in a few days for home, and may be soon expected. We are informed that Capt. F. came to this country when he was four years old, and has risen from a humble station to his present rank in our navy, by the regular gradation of merit."

Petersburg Times.

The Richmond Whig says: "An atrocious deed was committed about 3 o'clock last evening, in this city. A Mrs. Hayward, in the neighbourhood of Henrico Court-house, suspecting a servant girl of about 14 years of age of theft, taxed her with it, and one word bringing on another, seized a butcher's knife, and stabbed her to the heart. The girl survived about five minutes, presenting a dreadful spectacle to the beholder. The culprit is in jail."

The Rev. Mr. GULLEY is expected to preach at the Old Meeting-house in this place, on Tuesday, the 18th inst.—*Communicated.*

We are requested to announce Col. BENJAMIN WILKINSON, as a candidate to represent this county in the Senate of the next General Assembly of this State.

COTTON GINS,
Packing Screws, Horse Mills,
Chain Bands and Still
Repairing.

THE Subscriber begs leave to inform the citizens of this and the adjacent counties, that he is now building between 15 and 20

Cotton Gins,
Of good materials, part of which will be steel saws and the ribs or bars faced with steel—the large Gins will be double framed, two seed boards bearing in the middle, and double cushioned, to answer the purpose of two 40 saw Gins.

Packing Screws,
Of the usual size, and larger than any now in use in the State, and no doubt superior—they will be made in an engine erected for that purpose, which cannot fail to cut the screws more accurately than those which are made by hand or other ordinary means—the thread will be a square or v, or any other to please the purchaser.

Horse Mills,
Will be built at a short notice, on the improved perpendicular plan, or any other desired by the purchaser—the perpendicular Mill may, by removing the Gin, occupy the same place and be propelled by the same gear.

Chain Bands and Wheels,
Of a superior quality, will be furnished those who desire them, which are extremely well calculated for the propelling of both Gins and Mills.

Stills Repaired,
In the best manner—Still Worms and Crane Necks made of a superior composition, that will in a great measure resist the power of oxidation, possessed by the concentrated acidous substance collected in the Necks and Worms by distillation, and thereby obviate that long prevailing difficulty of Worms and Necks soon getting out of repair—another very important improvement will be made in the proportion of the Necks and Worms which will greatly facilitate the condensation of the spirits, expedite their running, add to the quantity, and save both time and labor.

Persons desiring any of the above mentioned articles, either made or repaired, can be supplied low for Cash or on a short credit, by making an early application to the Subscriber, who will gratefully receive and promptly attend to them.
JOHN WILSON.
