COTTON GINS,

Packing Screws, Horse Mills

Chain Bands and Still

Repairing.

THE Subscriber begs leave to inform the citizens of this and the adjacent counties, that he is now building between 15 and 20

Cotton Gins,

Of good materials, part of which will be steel saws and the ribs or bars faced with steel—the large Gins will be double framed, two seed boards bearing in the middle, and double cushioned, to answer the purpose of two 49 saw Gins.

Packing Screws,

Of the usual size, and larger than any now in use in the State, and no doubt superior—they will be made in an engine erected for that purpose, which cannot fail to cut the screws more accurately than those which are made by hand or other ordinary means—the thread will be a square or v, or any other to please the purchaser.

Horse Mills,

Will be built at a short notice, on the improved perpendicular plan, or any other desired by the purchaser—the perpendicular Mill may, by removing the Gin, occupy the same place and be propelled by the same gear.

Chain Bands and Wheels,

Of a superior quality, will be furnished those who desire them, which are extremely well calculated for the propelling of both Gins and Mills.

Persons desiring any of the above mentioned articles, either made or repaired, can be supplied low for Cash or on a short credit, by making an early application to the Subscriber, who will gratefully receive and promptly attend to them.
