

of the 12th inst. It is a giant in its size—occupying no less than 17½ of the ponderous columns of that print—but this, we are in duty bound to say of it, that we have never read such a coarse, undignified, and (may we dare to say it?) scurrilous production from so distinguished a man.

The orator has already got himself into a very unpleasant predicament by his rash temper and jealous imagination. He insinuates, that there was a collusion between the Speaker and Mr. Mason, in relation to the Previous Question—and both of these gentlemen have tho't it is due themselves to contradict the false and illiberal accusation. We give the articles in this morning's paper—and the very awkward alternative to which they have reduced the publisher of unspoken Speeches, places him in no very enviable situation.

Richmond Enquirer.

Petersburg Market, April 24.—Cotton—Some lots of choice quality have been sold at 13 cents, of fair at 12½, and of ordinary to middling at 11 a 12 cents. The supply has increased of late owing to the advance in price, and the roads being in better order.

April 23.—Cotton has declined a little. The highest sales to-day, for prime 12½, and with appearance of going down to 12½. Corn, \$34. Lard, 8 a 8½. Bacon, 8 a 8½.—*Int.*

In New-York, recently, two men have been sentenced to the Penitentiary, one for 6 and the other for 3 months, for beating their wives—and in Milledgeville, Georgia, a man has been made to pay the round sum of \$6,000 for an assault & battery on another man's wife! It is strange a man should abuse a woman who is so very dear to him!

American Silk.—The manufacture of this article is about to be undertaken at Lisbon, Connecticut, by the firm of Gray & Bottum, who have invented and constructed power looms and all the necessary machinery required for the undertaking.

Theft.—A lady of fashion and fortune has committed a theft in Philadelphia, which has created a great sensation in that city.—One of the journals observes: "Any amount of money would have been willingly sacrificed to veil the momentary infirmity of their relative, & save the honor of an exalted family. All, however, prove unavailing, and she who had, moved in the first circle, who was an object of just deference to the most respectable, was bound to answer to the charge of larceny at next Mayor's Court. We fear that it will be found impossible to stay the prosecution; and the being who has breathed only the atmosphere of rank and fashion, will be forced to attend among the most filthy and degraded creatures who crowd the bar of a criminal court, and stand the trial for the most unworthy and debased crime of which humanity can be guilty."

A board of revisors of the criminal code of Virginia, are now briskly engaged on the duties assigned them by the General Assembly of that State. They will lay before next Legislature an entire new system of punishments, and report largely on the existing offences with the proper remedies. The expediency of abolishing capital punishment will be ably treated, and the result of the labors of the Committee, consisting of Messrs. Chapman Johnson, Judge Brockenbrough, Attorney General Robinson, and R. Stanard, Esq. will, we think, be a just, accurate and interesting document. *N. Y. Star.*

A correspondent of the Mobile Mercantile Journal, who writes from Timoria, Arkansas Territory, under date 26th February, says—"A party of trappers have just come in from the Rocky Mountains, who give intelligence that a most bloody contest has lately been waged between the Cosconti and the Red-Plume Indians. The principal engagement took place at the foot of the Cordilleras, near the head waters of the Elwine river.

The warriors of each party fought with a desperation that evinced a determination to conquer or die. Victory at last favored the Red-Plumes, if I may be allowed to call that a victory, where scarcely a man of either party survived the dreadful conflict."—*ib.*

Professor Olmstead, of New Haven, has offered an ingenious hypothesis to the forthcoming number of Silliman's Journal, on the subject of the extraordinary shower of meteors during the last fall, Nov. 13. He considers them a nebulous body or cluster, moving in an orbit round the sun, within that of the earth. He estimates the time of their annual revolution at 182 days. At the time when seen, some of them must have approached so near the earth as to fall within our atmosphere, which caused their combustion, and thus rendered them visible. It is a singular fact that the great meteoric phenomenon in 1799 appeared Nov. 12th, and most of these sublime exhibitions in the movements of the heavenly bodies are said to have occurred in this month.—*ib.*

It is announced in the last Milledgeville (Ga.) Recorder, that the Bank of Chattahoochee suspended payment on the 11th instant. In a published Card, the President of the Bank ascribes the event to unceasing hostility to the Institution by a portion of the community, and assures the public that the Bank is abundantly able, not only to redeem its entire circulation but to refund back to the stockholders the original capital invested.

FOREIGN.

West Indies.—Captain Lewis, of the schooner Northampton, arrived at New York, from the island of St Vincents, reports that on the day he sailed three successive shocks of an earthquake were felt there, one of which was extremely violent and was supposed did great damage. The sea in the harbour was so high that it was with great difficulty vessels at anchor were prevented going ashore. A number of negro houses were destroyed, but the captain had not an opportunity of ascertaining whether any lives were lost.

We are authorised to announce SOLOMON T. BRADY and WILLIAM D. PETWAY as candidates for the office of Sheriff of this county.
