

devastation in some places is represented to have been terrible; not only were houses and fences swept away like chaff before the mighty hurricane, but the stoutest trees of the forest, some of which had probably withstood the fury of the elements for half a century were either up-rooted or broken in twain like pipe stems.—*Norfolk Her.*

We learn with sincere regret, that the operations at the Swash have met with a serious impediment by the filling up of Wallace's Channel. As this is the principal outlet, its obstruction renders unavailing the labors of the boat which is at present employed on the Flounder Slue. We are informed that the Tent, Select, Timothy Pickering, and several vessels from Washington, went aground in the channel during the last week. It is earnestly hoped that this circumstance may not oppose a permanent bar to the success of a work in which our citizens have always felt such sanguine interest.—*Newbern Sent.*

Cumberland, Md. June 3.—A stranger, calling himself Jesse Moore, who represented himself to be a native of Perquimons county, North Carolina, put an end to his existence, in this town, a few days since, by taking a large portion of arsenic. After taking the poison, he drank water very freely, and lingered 3 or 4 days in great apparent pain, during which time, we learn, every attention was paid to him by those in whose hands he fell. He said he left three sons and a brother and sister, residing near Hertford, Perquimons county, North Carolina. He was about 33 years of age; was evidently laboring under mental alienation. He also stated that he had left the infirmary at Baltimore about two weeks ago.

The Race.—The great contest between the North and the South, over the New York course, has been decided in favor of the latter. The race was won, it is said, almost without effort, by Col. William R. Johnson's *Trifle*. Fifty thousand persons were estimated to have been present.

Fatal Salute by an American Frigate. A correspondent of the London True Sun, under date of Paris, May 7th, says: "A disastrous catastrophe has occurred at Poulon. On firing her *salve d'artillerie* with the French ships, in honor of Louis Philip's fete, the United States American frigate fired with ball into the French frigate *Le Suffren*, by which unpardonable neglect one man belonging to the latter vessel was cut in twain, two mortally, and four grievously wounded. This unfortunate mishap had excited great irritation on the part of the French sailors against the Americans."

Tennessee.—An act was passed by the Legislature of this State, at its last session, calling a Convention, "for the purpose of revising, amending, altering the present, or forming a new Constitution." This body, composed of 69 members, met in Nashville, on the 3d Monday in May, and are actively at work. It is not a little remarkable, that there is scarcely an article or section of the existing Constitution, of the simplest kind, that has not been objected to by some member of the Convention, and substitutes proposed. Several propositions are before the Convention for an elective judiciary, limiting the term of service to four years for the Supreme Circuit Court Judges.

Mr. Jabez Smith, of Petersburg, Va. has brought to perfection the manufacture of Cotton Seed Oil for the use of Lamps.—The Editor of the Petersburg Intelligencer says, after a full trial, he gives it the preference over Sperm Oil. It burns with a beautiful and clear light, without smoke, and entirely free from any offensive smell. We congratulate the Southern country on the successful effort which has thus been made to give increased value to one of its staple products. The time is not far distant, when the oil from cotton seed, entering as it will into competition with sperm and linseed oil in the various uses to

which they are applied, will become an important item in the exports of the Southern and South-Western States.

FOREIGN.

Latest from Europe.—By the arrival at New York, of the packet ship *Sylvanus Jenkins*, London and Liverpool papers to the 11th May inclusive, have been received. The news contained in these papers is interesting and important. The long continued contest in Portugal would seem to have nearly terminated. The flight of Don Carlos into England is an event that will probably close the insurrectionary troubles in Spain, and leave the Queen Regent in quiet possession of the government.

The Liverpool Journal of May 10th, says.—We have great pleasure in announcing the probable cessation of hostilities in the peninsula. The Lord Nelson, in five days from Lisbon, has arrived at Dartmouth, with the news that the Pedroites had taken Figuera,—that Coimbra had declared for Donna Maria, that the whole of the road from Oporto to Lisbon was open to the Pedroites—and that Don Miguel and Don Pedro had come to a settlement, an armistice having been agreed to. Nor is this all, a telegraphic despatch was received at Paris on the 6th inst, stating that Don Carlos had embarked for England; it also corroborates what we have above mentioned respecting Portugal, for the despatch says, "The affairs of Portugal have been arranged between Don Miguel and Don Pedro." These letters by the Lord Nelson confirm the fact respecting Don Carlos, and say that he had placed himself under the protection of the English.

The news reached Paris from Bayonne, whither it had been brought by the French Secretary of Legation, who had left Madrid on 3d inst. Coming to us, from two sources, besides its extreme probability, we are inclined to give it every credence. We understand that the ratification of the convention between the four powers would be immediately and finally executed.

The effects of the insurrection at Lyons have been felt at a great distance in France. At Calais and Bologne the net manufactories have suffered severely. The goods sent to Lyons have remained unsold, and the bills drawn in consequence have not been accepted. The manufacturers, overloaded with goods, have ceased to employ their men, excepting only one for each machine, as necessary for keeping it in order.

Two grand camps are to be formed, one of 80,000 men, for manœuvring in the environs of Lyons, and the other for the same purpose, near Paris and St. Omer.

Candidates for this County.—We are authorized to announce HARDY FLOWERS for the Senate, and JOHN W. POTTS and TURNER BYNUM for the House of Commons, of the next General Assembly of this State. And, SOLOMON T. BRADY and WILLIAM D. PETWAY as candidates for the office of Sheriff of this county.

MARRIED,

In this county, on Tuesday evening last, by the Rev Wm. Hyman, Mr. Luke Ward, of Pitt county, to Miss Mahala Leggett, daughter of Mr. Lein Leggett.
