

Lodge Meetings. WADSWORTH LODGE, NO. 1701, K. of H. Lodge meets in Masonic Hall, Wadesboro, N. C. on the 1st and 3rd Friday nights in each month. J. W. LITTLE, Dictator. JOHN C. McLAUCHLIN, Reporter.

Local News.

OFFICE OVER HARDISON & ALLEN. Democratic County Ticket.

FOR THE LEGISLATURE. W. L. PARSONS. FOR CLERK OF SUPERIOR COURT. J. C. McLAUCHLIN.

FOR SHERIFF. J. A. CROWDER. FOR REGISTRAR OF DEEDS. P. J. COPPEDEGE.

FOR TREASURER. E. D. GADBY. FOR SURVEYOR. W. L. TILLMAN.

FOR CORONER. J. T. PORTER.

Now is the time for our business men to advertise, and as THE TIMES is booming again, we know they will bring them in promptly.

THE TIMES was started here when you needed a paper, now let the business men show their appreciation of it by giving their support.

We were pleased to meet in our office on Monday Mr. E. S. Warrock of Asheville, formerly of Wilmington. Mr. Warrock is well and favorably known to our citizens, having been connected with the old Wadesboro Agency many years ago.

It is likely that Mr. Warrock will take a leading part in the conduct of THE TIMES in the future. We will have more to say on this subject in our next issue.

For the relief of Cha-Teston. A meritorious meeting of the citizens of Wadesboro took place at the Court House on Friday afternoon to take action in regard to raising funds for the relief of the sorely stricken people of our sister city of Charleston.

Mr. T. B. Wyatt was called to the chair, and Mr. J. H. Cowan to the Secretary's desk. Touching and sympathetic speeches were made by Mr. Lockhart, Dr. Bennett, Rev. W. H. Battle, and Rev. C. C. Quinn.

Dr. Bennett then offered the following resolutions, which were unanimously adopted:

WHEREAS the earthquake of the night of the 24th ult., carried unparalleled devastation and suffering to the city of Charleston—the once beautiful and historic Metropolis of our sister State—and whereas there has thus been created need for HELP and sympathy; be it therefore resolved, That we, the citizens of Wadesboro and vicinity, share most profoundly in the sentiments of condolence which a numberless multitude North and South, making common cause in affliction, extend to Charleston in this her hour of desolation.

21. That we hold ourselves ready, severally and jointly, to help to the extent of our ability, with open hands, open hearts, and open homes.

22. That a committee be appointed to canvass for contributions to this object, and instructed to forward such contributions to the proper authorities.

On motion a committee, consisting of Messrs. T. B. Wyatt, J. W. Bennett, H. W. Battle, D. L. Parker and T. B. Henry, were appointed to canvass the town for subscriptions. The meeting then adjourned.

Since the meeting the committee have been at work, and the individual members have collected the following amounts:

Table with names and amounts: J. W. Bennett \$23.85, D. L. Parker 4.25, H. W. Battle, 15.75, T. B. Henry, 5.25, T. B. Wyatt, 61.50. Total \$110.60.

This sum has been forwarded to the sufferers. The following is the letter of the Chairman remitting the amount to the Mayor of Charleston:

WADSWORTH, N. C., Sept. 6, 1886. W. E. Huger, Esq., Mayor, Charleston, S. C.

DEAR SIR: As the result of a meeting of citizens here to give form and expression to our sympathy, I beg to hand you a copy of the resolutions passed, and a check on Messrs. Murchison & Co., New York, for \$110.60 to be used as you may deem best for your earthquake sufferers.

Respectfully, &c., T. B. WYATT, Chairman. All honor to Wadesboro for this noble deed.

Mr. Trenholm, who has carried his family from Charleston to Washington, says that for three nights Mrs. Trenholm refused to sleep, but sat in the doorway of a little outhouse, holding her baby in her arms, almost prostrated by anxiety and fright. And this great anxiety still pervades the people at Charleston.

The first bale of cotton sold in Wadesboro was raised by James Ross, of Chesterfield. Our countyman, J. A. Boggan, sold the first bale made in Anson.

Tuesday night during the earthquake a gentleman was standing at the bar in a saloon in Salisbury. He had just taken a drink when the shock came and he set down the glass, threw up his hands and ran out saying: "My God! I don't want to fall here when it sinks." Good idea. Nothing but earth quakes can bring some folks round.—Concord, Cringler.

Court week.

The Fall Term of our Superior Court convenes here on Monday next, and will be presided over by that upright man and pure, incorruptible Judge John A. Gilmer. The bench of North Carolina has never had a better man upon it, and litigants may feel that in his hands only justice will be meted out. We tempt, from a sincere admiration of the man, to copy what THE TIMES said in November 1882, when he first came among us:

"Judge Gilmer visits our County for the first time, but we have known him long, and we weigh our words well when we say that there lives not in this broad land a purer, better or more upright man than John A. Gilmer. He was a gallant soldier in the Revolution, and he served as Colonel of the 27th, and he bears upon his person to day honorable wounds received in the struggle. But it is in his civil life, and especially in the position he now holds, that his best qualities shine brightest. Those who heard his charge could not but be impressed with the blending of the conscientious judge and the kind hearted man. His charge was replete with appeals for the maintenance of law and order, good morals and a strict observance of duty by those in authority, and clear explanations of those offences most common in our State, and these most recently made crimes and misdemeanors by acts of the Legislature."

Capt J. D. McIver represents the State, and in his hands her interests have never suffered aught.

KING COTTON.

The regular monthly cotton crop report of the Memphis district, which embraces the Tennessee, north Missouri, north Arkansas and north Alabama, was published tomorrow by Messrs. Hill, Fontaine & Co., will say: "The weather during August has not been the most favorable to cotton, although the large majority of our correspondents report it much more favorable than last year. The wet weather which prevailed in June left the plant in poor condition to withstand the drought, and the warm, dry weather which extended from early in July to the middle of August caused a material shedding. There is a general complaint of injury to the plant throughout the entire district from this cause, together with rust, which is also generally complained of except in Mississippi, where the outcome of the crop is noted most favorably. Seasonable showers fall during the last two weeks of August and there has been a marked improvement in the crop since that period. The plant is reported as being unusually heavy fruited and in the majority of cases retaining its leaves and bolls. Of three hundred and ten responses two hundred and twenty six report the crop in better condition than last year, which is a fair and bright prospect for a full yield. The most serious complaint has begun in some localities, but will not become general throughout the district until about Sept. 18. Notwithstanding the damage reported, the indications are that with a fair season and a late frost the yield of this district will exceed those of the past three years."

A DELUGE FROM THE EARTH.

CHICAGO, Aug. 31.—A despatch was received at the City Hall this afternoon from the Mayor of Belleplaine, Iowa, which states that an artesian well, four inches in diameter, burst when the depth of 180 feet had been reached in boring, and instantly a volume of water was forced into the air to the distance of several hundred feet. This gradually increased in size and volume until a stream fully 18 inches in diameter was formed. The water in large volumes is spouting high in the air, and the supply seems inexhaustible. Two rivers have been formed by this phenomenal water-burst, which are running through the town at the rate of 12 miles an hour, and carrying everything before them. Houses and lives are threatened, and the citizens are appalled at their danger. An attempt was made to insert 16 inch boiler tubes into the well, but these were instantly blown out and forced high into the air. The terrified people then attempted to fill up the aperture through which this terrible geyser was spouting its deluge. Fifteen car loads of stone were emptied into the well, but they were thrown upward as though propelled by the force of giant powder. Bags of sand were then hastily constructed and thrown into the well, but they too were hurled into the air. The Chicago and Northwestern Railroad was called upon for assistance, and instantly sent a large gang of men to the rescue. The bridge gang of the county was called upon, but up to this evening no abatement in the flow of water was perceptible, and the rushing waters formed by it were washing the channels they had made deeper and wider, while the water formed by this immense volume of water was spreading over the lowlands in the vicinity.

The Mayor of Belleplaine telegraphed to Chicago for the best engineers that could be secured to come immediately. Engineer Morgan undertook the mission. He is, however, of the opinion that but little can be done to stop the flow of water, but it may be possible to direct the rivers into less dangerous directions and confine them to their channels.

An engineering party of 13 persons reached here on Friday last week, making a preliminary survey of the view of locating the proposed new Railroad from Smithville via Rockingham to Bristol, Tenn., mention of which has heretofore been made in the Spirit. It begins to look like the road will really be built.—Rockingham South.

A LINE OF WEAKNESS.

Major Powell, of the geological survey, stationed at Washington, says there is a line of weakness in the crust of the earth, beginning somewhere south of Raleigh, N. C., and extending in a line along the tidewater coast Richmond, Washington, Baltimore and Troy, N. Y. that this line of weakness is marked by a displacement. In some places this displacement is a fracture in the neighborhood of this displacement if found are the principal water falls which constitute the water power of the Atlantic slope. It will be interesting to add to discover the relations of the point of origin of this earthquake to this line of displacement of weakness.

Mr. Henry B. Adams.

The Senatorial Convention for this District met at Monroe yesterday, and nominated Mr. Henry B. Adams on the first ballot. This is a most excellent selection, and Anson will help Union give him a rousing majority.

The Supply of Cotton. New York, Sept. 4.—The total visible supply of cotton for the world is 1,097,297 bales, of which 703,537 bales are American, against 1,138,242 and 761,042 respectively last year. The receipts of all the interior towns is 21,337.

SPOUTING WELLS.

One of the most singular features of the terrible shaking-up was observed in many parts of the city—the spouting wells. In Beaufain street the covers were torn from the wells and sent flying in the air. Then came a huge column of water and mud, which was sent up to a height of 15 or 20 feet. Most of the wells were emptied of their contents, but were speedily refilled. After the mud, which was sent up to a height of 15 or 20 feet, the water was ejected, it is supposed, by the subterranean agencies at work below sent flying up into the air.

After the collapse the theory is that the wells were again filled from the water-bearing strata which underlie Charleston. In some cases, an instance occurring in Gibbs street in the yard of Mrs. Hassel Leyward's house, a huge volume of water were ejected, it is supposed, from a dry well in the lot. The well was used for sanitary purposes and had no water in it as far as was known. The entrance was covered by a heavy granite slab. This was thrown up and the entire lot inundated by the water jets of water and fine yellow sand that was ejected. It is difficult to say where the water came from.

In other portions of the city vast jets of water were thrown up from crevices formed by the earth's movement. After the shock most of these closed, soon afterwards leaving exposed a kind of mound of earth from an entirely different character from the surrounding soil.—News & Courier.

THE OLEOMARGARINE LAW.

The Commissioner of Internal Revenue to day issued the instructions to collectors and regulations for the enforcement of the new oleomargarine law. The regulations prescribe that all the oleomargarine and other imitations and compounds of butter in the United States on or before 1st, must be made by collectors and special deputies appointed for the purpose in some cities, and all oleomargarine found unmarked will be seized and destroyed. The enforcement of all the provisions as to tax, stamps, labels, brands, manufacture, sale, exportation, &c., will then commence in accordance with the terms of the law.

Honor Your Dead!

WHEN I CAN GIVE YOU A NICE, complete set of Transcendental for your children, for adults, for soldiers, for sailors, for farmers, for mechanics, for laborers, for all who are honest and of good nature, why not give your children instead of sending to a distance I can give you a nice, complete set of Transcendental for your children, for adults, for soldiers, for sailors, for farmers, for mechanics, for laborers, for all who are honest and of good nature, why not give your children instead of sending to a distance I can give you a nice, complete set of Transcendental for your children,
