Coming Our Way

And they have been at it since our great sale began a few days ago. You might be surprised and wonder why, but if you will take the time to come here and see how we have priced furniture (not the odds and ends of a stock either, but the best selected grade of goods) you will not wonder at the enormous sales made here.

This Sale

was started in order to close out a mammoth stock of furniture and close it out in spite of conditions. Thus far we have been pleased with the progress made and have now come to a point where everything must be sold regardless of stock or profits. You had better see us if there is a single article of furniture you are expecting to buy during the year. Buy it for less now than ever again and have use of it all the while.
