WASHINGTON LETTER.

(From our regular Correspondent.)

July 15, 1901.

Phillipine facts at first hand are likely to be a specialty in the discussion of that subject during the coming Congress, as a number of Senators and Representatives, of all parties, are either already over there are on the way, with the avowed intention of gathering facts to be laid before Congress. That some of these men will make the trip a mere pleasure junket, and that all of them are making it at the expense of the government, is true, but it is nevertheless a good thing that so many of the men who will be called on to legislate for the islands, will visit them before Congress meets. They will all find out some things, and Congress and the country needs all the facts that can be had about the Phillipines. To legislate intelligibly for these islands are going to be one of the hardest problems ever tackled by Congress, and it will be impossible to have too much information about them.

Although it was estimated that the reductions in internal revenues made by the last Congress would reduce revenues of the government from \$40,000,000 -\$50,000,000 a year, the receipts from internal revenue for the first half of thismonth, when the reductions have been in effect, have exceeded those for the first-half of July of last yearby about \$1,000,000. This has been somewhat puzzling to Treasury officials. The only explanation they offer is that the business in hand. changes in rates of taxation caused many manufacturers to accumulate goods, thus necessitating unusually large purchases of stamps as soon as the new law went into ef-
