FRIDAY, AUGUST 16 1901.

Our Jameville correspondent tells us in his items this week that Jamesville is to have an Artesian Well. We congratulate the citizens of Jamesville on this move, and wish them success. Williamston should follow their example.

Mr Porter, of Goldsboro, a blind man, and a piano tuner by profession, who is now in our town, has been the victim of some very dirty horse-trading. Last Saturday week he was in Scotland Neck and his horse being lame from a sore knee, he wanted to get another horse to take his place. Evidently some unscrupulous horse dealer in that town took advantage of the man's blindness and traded him an old horse that was really in a worse condition than the lame one, taking as boot \$17 the tuner had received from friends and had worked for. The following week Mr. Porter wrote this party a note telling him the horse did not suit and if he would return the \$17 he could have both horses. To this the trader replied that the horse was all he had claimed him to be and that he could not refund the money. Mr. Porter's new horse when down in the stables cannot get up. Mr. Porter told us yesterday that he has been tuning pianos in this county for 8 years and for 29 years has been making a living by this means. He also said that he would be glad to tune the pianos of any one who had not already engaged some one to do the work. We hope our readers, or those having pianos to be tuned, will give this gentleman an opportunity to tune them. The citizens of Williamston have contributed some \$14 or \$15 toward helping him purchase another horse. We can't realize how any man, no matter how depraved, or unscrupulous, can take advantage of a blind man.

WASHINGTON LETTER

(From our regular Correspondent.)

Washington, Aug. 12th, 1901.

What will the U. S. Industrial Commission say about trusts, in its report to Congress upon which its members are now supposed to be working? The steel strike and its complications have served to bring this question to the front. The Industrial Commission gave exhaustive hearings on the trusts, and their relation to labor and business, and the report should be of more value than such things usually are. If it should be unanimous, it unquestionably would be. But if there be two reports, signed respectively by the majority and minority members of the Commission, they would have no more value nor carry any more weight than the usual partisan reports put out by a Congressional Committee. Representative Livingston of Georgia, a member of the Commission, said in the course of an interview: "There is one subject the Industrial Commission proposes to handle without gloves

and that is the trust question; and how it affects both capital and labor. The trust question is the most important problem we have to consider, and it will be disposed of first. In view of the present conflict between Capital and Labor, the consideration of this important subject will call together a full attendance of the members of the Commission. No one can now suggest what the recommendations of the Commission to Congress will be, but I trust and believe it will be independent of political bias and free from partisanship. It is not a political question, for both republicans and democrats are directly or indirectly associated with the various trusts. As things are going now, it will require prompt methods by the Government and extremely delicate handling of the subject to prevent a revolutionary contest between capital and labor. This state of affairs cannot go on much longer without serious consequences." Some members of the Knights of Labor and of the American Anti-Trust League, in Washington, have started a movement to aid the steel strikers by legal proceedings against the steel trust under state anti-trust laws. They have engaged a lawyer and are acting largely under the advice of Ex-Attorney General Monett, of Ohio, who claims that the members of the trust in that state can be imprisoned under the state law. The same men are trying to get Attorney General Knox to proceed against the steel trust under the Federal anti-trust law. Without questioning the justice of the public censure of Rear Admiral Rowley D. Evans, by Acting Secretary of the Navy, Hackett, for having written in his book disrespectfully of certain officials actions of Hon. W. E. Chandler, when he was Secretary of the Navy, many are disposed to think that the censure would have been more seriously regarded by the public at large had it been preceded by some sort of official action, showing that the Navy Department disapproved of the disrespectfully manner in which Maclay, one of its employes, wrote of Rear Admiral Schley.

It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver trouble it's a positive, guaranteed cure. Only 50c at N. S. MOTHERHOOD

The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shattered nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.

Now I am mother of a fine baby girl which was born March 31, 1901. The baby weighs fourteen pounds and is well and happy and I never will be without Wine of Cardui in my house again. Mrs. J. W. "Something New Under The Sun.

All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acid used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure. While pastes and ointments cannot reach the disease An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE," and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full months treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It also cures inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLIC in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. 491, EDWIN B. GILES & Co., 2330 and 2332 Market Street, Philadelphia.
