The population of the entire United States, including all out lying possessions, was 84,383,-069 in the census year 1900. This is itemized as follows: Continental U. S. 75,994,575; Philippines 6,961,339, / (esti-Hawaii 154,601; Alaska 63,592; Guam 9.000: American Samoa 6,100; U. S. Military and Naval Service outside of the United States proper 91,219.

The above figures are taken from a report issued by the Census Bureau Jan'y 7th.

The Lumber Bridge News says:

"The holidays are over and money making farmers will be seen very busy. They will be manure making. The amount of money it takes to buy all of bald Roosevelt and the five year their manures is found to be too great. A large part of the crop is spent before the crop is made when commercial fertidizers are relied on entirely. Many see that they can save more money to send their sons and daughter off to college by setting apart much of January and February in making fertilizers at home. It is all clear gain. This is to a large extent all that could be done any way. Frittering away the whole of the winter months comes dear. So the intelligent and wide awake money making farmer Cards were sent out in Mrs. Roosetalks. We like to hear such velt's name to some three-hundred talk because it comes from the class whose prosperity is felt and shared by all other classes The farmers are our most important folks."

The above is sound doctrine. and the only comment we care to make is, for our farmers to do likewise.

WASHINGTON LETTER

(From our regular Correspondent.) Jan. 13, 1902.

Immediately tollowing the Diplomatic reception at the White House the President and Mrs. Roosevelt entertained at dinner the lead ing members of the corps. The table was set in the East Room and covers for one hundred guests were laid. Both the East Room and the most of our progressive and dining table were beautifully decorated with palms, smilax, orchids and roses. An amusing incident oc cured shortly before the assembling of the guests when Master Archi old son of the colored butler were discovere I seated at the table de vouring the bon-bons which were placed in small dishes at the side of each plate. Among the guests present were Lieutenant-General and Mrs. Miles. I understand that invitations were also extended to Admiral and Mrs. Schley but that, owing to the fact that the Admiral had made his plans to leave for Savannah that evening, it was impossible for them to be present

The report is entirely in accordance with the prediction made in these letters some months ago and exonerates all the officials upon whom Major Hakes charges cast any reflection, with the exception, perhaps, of Major Hakes and who is no longer an official.

Representative S. D. Wood, of alifornia, has introduced in Congress a bill providing for the establishment of a department of Mines and Mining. Mr. Wood says that the value of the mineral products of the United States in 1830 amou .ted to a little over \$976,800,ooo and that an industry of this size should be represented in the government by, a special depart. ment. Such a department would also have the interests of the miners to protect and Mr. Wood believes that in a short time it would become one of the most interesting and valuable departments of the Government.

The announcement comes from the White House that Mr. Roosevelt proposes to extend the Civil Service law to include the "aborers" in the departments in Wash ington. The change will not be made by a b'anket order but by a series of orders each governing the employees of a particular depart ment and the first of which will be issued in a few days. How this move will be regarded by the mem bers of Congress is hard to predict The class known as laborers' include a'l of the positions in Wash. ington, with the exception of the employees of Congrass itself which the Congresamen control and all of cert to which most of the people the laborers in the departments today have been appointed through afraid to face the music who is congre signal influence. Built Up By Advertising

The publisher of the Ladies Home Journal and the Saturday Evening Post affirms that the success of these periodicals "was built up by advertising at a cost from \$200,000 to \$300,000 a year." Of all the theori s of business success, he asserts that there is only one thing that is absolutely sure, and that is: Good advertising, if persisted in, surely pays."-Philadelphia Record.

The Kind We Need.

We want religion that softens the tep and turns the voice to melody and fills the eye with sunshine and checks the impatient exclamation and harsh rebuke; a religion that is polite, defferential to superiors, considerate to my friends; a religion that goes in the family and keeps the husband from being cross when dinner is late, and keeps the wife from fretting when the husband tracks the newly washed floor with his boots and makes the husband mindful of the scraper and floor mat keeps the mother patient when the baby is cross and amuses the children as well as instructs them, cares for the servants besides paying them promptly; project honey moon into the harvest moon, and makes the happy home like the eastern fig tree bearing on its bosom at once the tender blossom and the glory of ripening fruit, -- Morganton
