THE INTERPRISE, FRIDAY, JANUARY 31, 1002.

Ben Beiler's Way. "No lawyer of the last century took such liberties with the court as Gen. Butler," said a Bostonian. "He ran rico over judges and juries, and in his later 's was even petted and humored by years was even petter and authored by opposing counsel. I happened to be in court on an accasion when he was de-fending a client charged with a most serious offense against the communi-ty. The case attracted great attention. On the third day the defendant did not primes and the indea asked further to ear and the judge asked Butler to ood enough to produce him. 'It is sstible, your honor,' said the gen-'But the business of the courf must proceed. 'The learned counsel will produce the defendant,' said the indge severely. Butler repeated: Your honor, it is impossible. The de-fendant is not in my keeping. After a consultation with him last night 1 came to the conclusion that he was guilty and felt it was my duty, as his legal adviser, to warn him to leave the state immediately. He departed, your honor, without informing me of his destination.' The jury laughed outright, and the solemn judge had to re tire to his room to conceal his ris fbles."

Industries Changing. Wonderful progress in the advance-ment of agriculture and the building up of the live stock industry has been nade in the South Atlantic States dur ing the past twenty years. From old line, strictly planting states, this vast iline, strictly planting states, this wast bection has grown until it is now more by less devoted to diversified farm-ing, live stock, breeding, feeding and trucking. Especially diving the past ten years has great progress been made in these several branches of work, and the result is seen in a much better condition of the agricultural population. The people make their food largely at home, and raise planting crops, such as cotten and truck, as surplus or monëy crops. Every year crops, such as cotten and truck, as surplus or money crops. Every year shows a distinct advance in this work and with every advance the condition of the farmer is improved. Trucking is now a great industry on the whole of the Atlantic border, from New Jer-sey to Florida, and millions of dollars

are brought into the several states every year from the northern and western markets for the products of these farms .- The Epitomist. Sec. Tea consumed in England is subject to duty of twelve cents per pound.

For two thousand years she was called by name but twice in the Bible. Mother Eve. and next, came Sarah, the wife of Abraham, and for another two thousand years was men-tioned by name only a few times, but at last she was honored as the mother of our Savior and was "last at the cross and earliest at the grave." Within the last half century she has made more progress in establishing her natural and God given rights than in all preceding time. She is the acknowl-edged head of all religious, missionary and charitable institutions. She is the school tracham of the world and in these thrited States constitutes nin-tents of all the public school teachers in the land. In soveral states the has the right of suffrage and is eligible to office on the school boards. Time was when she was almost a dead letter in literature and hardly ever noticed in the press of the country. but now a great metropolitan paper or magazine could not exist without a large spact being devotad to her service and her fairy pictures made to adorn the col-ums-of every issue. Woman in this southland is a power and woe be to the men who scorn it, for they are always on the side of religion and good morals and purity in private life. Without them the church, the prayer, greeting, the Sabbath schools and even the home would speedily decline into that state that Grover Cleveland called an "In-nocuous desuretide."
