FRIDAY, MARCH 14, 1902.

We regret very much that "The Enterprise" failed to make its appearance last week. We have been getting our papers from Charlotte N. C. the same reaching us on Wednesdays or Thursdays, but last week the papers did not arrive till Saturday night which was too late for us to print it. We had our type all set and the forms locked and on the press Thursday at 3 p. m. and waited till Friday evening after train time.

We hope that this will not occur again; and if our people will give their support to the paper, we will assure them that the paper will hereafter go out on time, (unless providentially hindered) as we will print the entire paper at home after April 1st.

Wise men who go to the White House for favors these days are careful to avoid the subject of sugar.

Nicaragua and Costa Rica also tried to do the "strike" act in connection with the canal.

Cecil Rhodes downed many an opponent, but, like the rest of us, he had to throw up his hands when death took the road.

The marriage-smiths are now beginning to figure on the amount of the spring fees and to guess which couples will come first.

If a number of Senators are not trying to disgust the people with the whole Isthmus canal question their talk and actions are deceptive.

The Kaiser will quickly discover that we can be firm as well as courteous, if he should be unwise enough to ask us to let him establish naval stations in American waters.

Attorney General Knox will now proceed to see whether his efforts to head off the big railroad merge will be any more successful than were those of the Gov. of Minnesota.

Congressman Babcock can now point to a reduction of the Australian tariff on metals and machinery as another reason for passing his bill for cutting our metal schedule.

The amendment prohibiting Senators, Representatives, and other officials becoming beneficiaries under the Ship Subsidy bill, offered by Senator McLaurin, of Miss., is calculated to make every honest American blush with shame, to think that it should have been considered necessary.

Inventors take no chances in dealing with Swift & Co., the Washington patent lawyers. They do business right, and have never had a dissatisfied client. Read their ad, in this paper, and write to them, if you think of taking out a patent.

The House fighters could get more gate money than would be needed for the most extensive Cuban relief asked for, if they would pair off and do their scraping under the regular ring rules.

President Roosevelt is reported to have said in a speech to the Grand Army of the Republic that the Federal soldiers in '61-'65 were fighting anarchy. Teddy is quite often a reckless talker, but in this instance his bray would not do credit to the long-eared quadruped—Southern.

**More Advertising, More Sales.**  
 One of the heaviest and most persistent of advertisers is a shoe manufacturer and retailer. Although his products had been extensively advertised for years, he made a larger appropriation for newspaper space in 1901 than ever before. The increased sales of that year (which he attributes exclusively to the increased advertising) were enormous. In 1898 he sold 748,706 pairs of shoes, and in 1901 (with increased advertising each year) he sold 1,566,702 pairs.—Phila. Record.

**CAN'T KEEP IT SECRET.**  
 The splendid work of Dr. King's New Life Pills is daily coming to light. No such grand remedy for Liver and Bowel troubles was ever known before. Thousands bless them for curing Constipation, Sick Headache, Biliousness, Jaundice and Indigestion. Try them, 25c at any drug store.

**COULD NOT BREATHE.**  
 Coughs, colds, croup, grip, bronchitis, other throat and lung troubles are quickly cured by One Minute Cough Cure. One Minute Cough Cure is not a mere expectorant, which gives only temporary relief. It softens and liquefies the mucus, draws out the inflammation and removes the cause of the disease. Absolute safety. Acts at once. "One Minute Cough Cure will do all that is claimed for it," says Justice of the Peace, J. Q. Hood, Crosby, Miss. "My wife could not get her breath and was relieved by the first dose. It has been a benefit to all my family."

**IS YELLOW POISON**  
 In your blood? Physicians call it Malarial Germ. It can be seen changing red blood yellow under microscope. It works day and night. First, it turns your complexion yellow. Chills, aching sensations creep down your backbone. You feel weak and worthless.

**ROBERTS' CHILL TONIC**  
 will stop the trouble now. It enters the blood at once and drives out the yellow poison. If neglected and when Chills, Fevers, Night-Sweats and a general break-down come later on, Roberts' Tonic will cure you then—but why wait? Prevent future sickness. The manufacturer knows all about this yellow poison and have perfected Roberts' Tonic to drive it out, nourish your system, restore appetite, purify the blood, prevent and cure Chills, Fevers and Malaria. It has cured thousands—it will cure you, or your money back. This is fair. Try it. Price, 25 cents.

He—What do you think is the proper age for girls to marry?  
 She—Oh, about nineteen.  
 He—Indeed! And how old are you?  
 She—Oh, about nineteen.—Titbits.

**AN HONEST MEDICINE FOR LA GRIPPE.**  
 George W. Waitt, of South Gardiner, Me., says: "I have had the worst cough, cold, chills and gripe and have taken lots of trash of no account but profit to the vender. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and gripe have all left me. I congratulate the manufacturer of an honest medicine." For sale by N. S. Peel & Co.

**A Thought For The Week.**  
 He who in poverty, or sickness or solitude, can preserve a merry heart and a cheerful countenance is a benefactor to society, a testimony to his God, and the best of all possible friends to himself.—Thorold

**Exactly.**  
 An Arkansas editor, who read that a young lady kneads bread with her gloves on says: "We need bread with our pants on; we need bread with our boots on, and if our subscribers in arrears don't pay up soon we shall need bread without anything on." Amen and amen.—Rhamkate Roaster.

**FOR THE COMPLEXION.**  
 The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. C. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe thorough and gentle. The very best pills.

**Very Muchly Married.**  
 This is a record breaker: On Monday evening of last week Mr. G. H. Lilly of Long Acre township, this county, met M. ss Maggie Watson, made love to her, proposed, was accepted and before he left that evening the time was appointed. On Thursday evening following they were married. Within three days from their first meeting their hearts beat as one. She is his third wife and he is her second husband.—Washington Progress.

The woman referred to has a husband now living in this town, from whom she has not been divorced and we have heard the man has at least two living wives.—Roanoke Beacon.

**THE VICE OF NAGGING.**  
 Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, sleepless, with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy. Try it. Only 50c. All drug-gists guarantee satisfaction.

**DYKES ON THE ROANOKE.**  
 Communicated to The Commonwealth.  
 The breaking of the dykes on the State farm on Roanok, river last May and the damage to crops have caused some discussion throughout the State.  
 A short sketch and the practicality of dyking this river may be of interest.

The valley of the Roanoke below is composed of two classes of land—what are called the first and second low grounds. The first is the section nearest to the river and is very fertile in production of corn. It is naturally the richest soil in the State and up to 1865 produced many thousands of barrels of corn, but since the introduction of free labor and the destruction of the dykes it is almost valueless from overflows.  
 The second section is higher and grows all kinds of crop and is not subject to overflow except in very high water. A great portion of it is above high water, but since 1865 it has decreased very much in value.  
 There are two causes for this—the freeing the slaves and abolishing of the dykes.  
 Now the question is, will free labor work it and can the dykes be rebuilt with safety?  
 As to its being worked by free labor admits of no doubt. It is the natural home of the negro. They are able to stand the climate, while the white man is not, and if protected from water they would prefer to live there.  
 The practicability of dyking this river has been discussed for many years. The general idea is that dyking causes higher water, but the record of the freshets since 1845 shows higher water since the dykes were abandoned. From 849 to 1864 the water as measured by a staff was 24 feet with the dykes all up. From 1865 to 1901 it measured 27½ feet, on several occasions 25 to 25½. I don't know that the dykes caused lower water, but the record shows it.  
 Prior to 1865 the dykes were kept up but they were not perfect and would often break, but it was a success. The reason why they did not stand was that they were not properly located and that there was no concert of action by the owners. Each farmer dyked to suit himself. It would be practical to locate them half a mile more

**A WORTHY SUCCESSOR.**  
 "Something New Under The Sun."  
 All Doctors have tried to cure CATARRH by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membrane that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a Treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges and curing all inflammation. It is the only remedy known to science that actually reaches the affected parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.  
 "SNUFFLES" is the only perfect CATARRH CURE made and is now recognized as the only and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and it also wonderfully quick to relieve HAY FEVER or COLD IN THE HEAD.  
 CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special attention from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the GUARANTEED CATARRH CURE.

Send prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. Cpt. EDWIN B. GHILES & CO., 2312 Market St., Philadelphia.

 The practicability of dyking this river has been discussed for many years. The general idea is that dyking causes higher water, but the record of the freshets since 1845 shows higher water since the dykes were abandoned. From 849 to 1864 the water as measured by a staff was 24 feet with the dykes all up. From 1865 to 1901 it measured 27½ feet, on several occasions 25 to 25½.  Prior to 1865 the dykes were kept up but they were not perfect and would often break, but it was a success. The reason why they did not stand was that they were not properly located and that there was no concert of action by the owners. Each farmer dyked to suit himself. It would be practical to locate them half a mile more

less from the river by competent surveyors and as strait as possible according to the bend of the river. This would shorten the dykes and make them stronger. A narrow current in reason will not rise as high as a broad one in a freshet. It has a soft, strong current—empties the water farther and prevents sand bars, while a broad one causes sand bars and in a freshet rises higher.  
 It has been said that the Mississippi river would not be navigable if the dykes were down, and the "Eads Jetties" at its mouth the wisdom of a narrow channel.  
 Another question has been raised: if one section is dyked, will it cause higher water to the adjoining lands? It will not. Low water at Weldon in May last year was followed by higher water below the falls while higher water in December was followed by lower water below the falls. The dykes at the State farm were up in May and down in December. It has been argued that the dykes at the State farm caused this but that is a mistake. The same condition prevailed 35 miles below Weldon—higher water in December at Weldon followed by lower water below, and lower water in May was followed by high water here. The condition of the lower river controls the water below the falls.  
 If the lower river is high and swamps, tall high water follows, but a low river with dry swamps takes off the water rapidly and will cause a freshet.

There are several reasons why dykes break—improperly located, too narrow, boring of muskrats and want of attention.  
 I think in the future that this river will be dyked, if not by individuals, by the government. Companies are formed to supply water to dry lands by irrigation and possibly they may undertake to keep water off of the land by dyking.

**STOPS PAIN**  
 What is the worth of a woman suffering like Maria Davis suffered? Yet here are women in thousands of homes who are suffering from the same horrible, agonizing pains in spite of the fact that they are using the best of medicine. If you are one of these who want to say that this is impossible.

**WINE OF CARDUI**  
 will bring you permanent relief. Consult yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from irregular menstruation, headache, backache, and nervous depression. Wine of Cardui will stop all these pains and give you relief. Purchase a 50-cent bottle of Wine of Cardui to-day and take it to the privacy of your home.

**THE HONEST WAY**  
 "It is my desire," said Mayor Low, of New York on assuming his office, "that the news papers afford every opportunity to inform the public of my administration, I believe in publicity in regard to municipal affairs, and I wish the representatives of the press to feel that they are at all times to ask about any matters in which the people of the city may be interested."

Honest administrations will never seek secrecy, nor need a compulsory publicity law, but it would be well that such a law should be in effect, for it would prove a cure for many of the ills which now infest public offices and private trust.—New Bern Journal.
