Farmers Neglecting Their Opportunities.

The Asheville Gazette says: "The rapid growth of towns and industries in Western North Carolina is making an increasing demand for agricultural products—the demand is even now greater than the supply.

This may be applied to any section of our State. Go into the market places of any of our larger communities and it is surprising to find the quantity of vegetables and meats which are the products of other States but which dealers have to import to supply the home demand.

Some of the states most influential and best known citizens are interested in the company and we feel sure that the shareholders have made no mistake in the selection of directors and officers.

This is the first organization ever consummated in the south and it is the duty of every true loyal North Carolinian to rally to the support of the company; which proposes to do business under old line features and every safeguard will be thrown around every policy.

The company officers are the best appointed, not only in this city, but we doubt if they are surpassed in the state.

A Warning to Men Who Fish on Sundays.

The Wilmington Messenger says: "A violent electric storm passed over Chicago last Sunday afternoon. It was just at the hour when the Sunday-schools were in session. Three churches were struck, one of them destroyed, and fifteen hundred Sunday-school children thrown into panic, but none was seriously injured.

The lightning's work should be a warning to some of our Wilmington people who go to the seashore resorts for recreation Sunday afternoons. They had better not carry their fishing lines in their pockets anyhow.

after the tobacco begins to ripen. Used in this proportion and in this way, there will be no trace of the poison left on the leaves at cutting time, and no possible injury can happen to the user of the tobacco.

The other part of the work of this electric storm in Chicago—the damage to two churches and the total destruction of the third while fifteen hundred children were assembled for religious purposes—we do not touch upon, as we can see no moral to be drawn from it that might be of good effect on the habitual Sabbath breaker.

It would take more than one bolt of lightning to put a stop to Sunday fishing around this part of the country, unless all the fishermen were struck with the same bolt.

THE HOME OLD CURE

An Inexpensive Treatment by which Drunkards are Being Cured Daily in Spite of Themselves.

NO NOXIOUS DOSES. NO WEAKENING OF THE NERVES. A PLEASANT AND POSITIVE CURE FOR THE LIQUOR HABIT.

It is now generally known and understood that Drunkenness is a disease and not a weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors, requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS! This remedy is so simple and so effective that it is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it.

It is always well to accept stories of fabulous wealth suddenly acquired with a few grains of allowance. A few months ago Dr. Dillard, an alleged very wealthy negro, returned to Reidsville with stories of the dazzling wealth acquired in Australia. He has been sentenced to jail for embezzling fifty dollars.—Exchange.
