### WASHINGTON LETTER.

[From our Regular Correspondent] Washington, Nov. 3.-The campaign is ended and every one is awaiting with interest the result of the voting. The apathy which characterized the early days ofthe campaign has given place to greater interest as the elections approached and there is prospect of a reasonably heavy vote. The managers of both Congressional committees claim victory, although they are wide apart on their figures and the majority of unprejudiced authorities in Washington look for a republican victory but with reduced majorities.

There was a wild scramble among the newspaper correspondents a few days ago for information in regard to the attitude of the United States of Colombia towards the construction of the Panama canal and as a result some very sensational stories were sent out of Washington. Subs quent events have shown that many of these were unwarranted. The State Department is now assured that Min ister Cancha has erred in judgment of the position of his government and, on the representations of U. S. Minister Hart, at Bogota, it is not improbable that this Government will complete the purchase of the Panama Canal Co's, property without waiting for the formal ratification of the treaty in process of negotiation. Advices from authoritive sources in Bogota are now reaching the Department which warrant the statement that complete concord will not be difficult of attainment. The surrender of Gen. Uribe-Uribe and his return to Bogota, it is predicted, will soon be followed by that of General Herrega, commanding the insurgent forces on the isthmus and that will bring the insurrection to an end. It is believed that with the restoration of peace the claims of the United States will be prompt ly taken up and favo ably acted upon and that actual operations on

Considerable prominence has been given in the newspapers of ry by Lieutenant George T. Emed line between Alaska and the ant En mons may have discovered is not probable, and it is known that at one time, the Russian mismiles it land and established mis sions, many of them in stone buildings. These landmarks, have, ment between the United States and Great Britain. It is a matter of record that after prolonged negoany previous arrangement or s t tlement. The United States interprets that agreement to mean 30 miles from tidewater. The rights to establish other boundaries has no bearing on the case but is mere ly encouraged by the Canadian of the real issue. Secretary Hay perfectly understands the situation, which is as clear as could be in any pay no a tention to such evidence as Lieutenant Emmons is now pre paring to submit to the Navy Department, but he will never sub mit the matter to arbitration which usually results in the ar bitrators concluding to "split the difference' between the claimants In this case the United tSates would have everything to lose and noth-Hay will not take any chances.

that were now argued for days, bottles free. He proposed to hustle the enova tors from the chief contractor down to the laborers and he has been do- l'iconffie's Littl Blue Liver Pill makes ing it. He stopped the work long of all the delectations and unhealthy mat-

LaGrippe.

Daughter Had Frequent Spasms.

Dr. Miles' Nervine Cured Them Both.

Dr. Miles' Nervine is a specific for nervous disorders. It removes the cause and effects a speedy and permanent cure.

"I feel it is my duty to let you know that your medicines have cured my little girl of nine, of spasms. She commenced having them at the age of three. Our family doctor said she would outgrow them but she did not. We took her to another physician who said her trouble was epileptic fits in a mild form. He did her no good either. She was so nervous she could hardly walk. As I had already used Dr. Miles' Nervine and found it a good remiedy for myself I commenced yiving it to my child. I gave her in all ten bottles of the Nervine and one of the Blood Purifier. That was over-two years ago and she has not had an attack since we commenced the treatment. She is no longer troubled with nervousness and we consider her permanently cured. I enclose her picture. My mother in law lost her reason and was insane for three months from the effects of LaGrippe. Six bottles of Dr. Miles' Nervine cured her. My sixter has also taken it for sick headache with good results. We all thank you very much for your good medicines and kind advice. I don't think there is any other medicine half so good. I send my daughter's photograph so that you may see what a sweet little girl lives out in Arkansas"—Mrs. HANNAH BARKET, Springdale, Ark. gdale, Ark.

### Woman's Golumn.

Edited by fliss Jennie Moore.

The qualities that go to make a beautiful and stylish woman of today are vastly-different and much slaughtered, each of which would those required to make a beauty in have eaten more than its own our great-grandmother's time The fearfully and wonderfully made head-coverings; the towering struc- most useful of birds, have been tures made of artificial hair worked killed in numbers to get the longin with the natural and helped out wing feathers for ladies' hats. The for the use of 'rats' and "mice;" game laws are being constantly disthe long stiff, tight stays that made regarded; thousands of partridges comfort an unknown quality; are shipped out of the State in the shoes that made graceful carriage ry, and for the past month these healthful outdoor exercise are numbers about many of our princi-"perfectly lady-like" and fashion- martens were shot at Rocky Mount our couldn't indulge in such games as toes. So golf or tennis for fear their interesting languor and fashionable paleness would give place to a flousy color and roughness. Immediately after any great revolution things comfortable channel. "The new woman" with her manish clothes and loud voice settled into the commonsense, healthful, joyous womanly woman of to-day. The beauty producing prescriptions of to-day are health producing ones also. Health, beauty and co go hand-in-hand each dependent upon the other.

Strength, both mental and physcal, is encouraged and cultivated. We have educational advantages of which our grandmothers never dreamed of. Our independence and advantages are far superior to any they knew-our possibilities and opportunities are much greater -hence much more should be, and ed down to us from them, which we should never forget nor oversincerity and an inheritance of daintiness and refinement.

that last summer 16,000 man h heus and jackdaws were killed in Currituck county and shipped to Northern millinery houses; that the gulls and terms of our coast region at the current of the coast region at the current of the coast region at the current of the cu izens of North Carclina to know a

have been almost exterminated for this same purpose; that the mock ingbirds are becoming extremely rare in many regions where former ly they were abundant, because their nests are so persistently robweight of insect food daily. ### A Soft Voice.

No talk on a woman's charme would be complete that did not | waste. go to extremes, and time is requir-touch on her voice. American wo ed for them to settle into a tranquil men are not a proverb for their loud, shrill voices. For much of their defects in that line the climat is responsible. Women cannot after the timbre of their voices, bu they can modulate them." The need not talk at the top of the lungs in public and in private, as is the way of too many of them. The young girls who are growing up are as great sinners in this respect as their mothers, and one is forced to the conclusion that the class a for voice culture in the schools will do little good if not supplemented by home training. Let the women of the land try to keep the foot on the soft pedal in conversation and sec if it will not have its effect in re ducing the noise one finds at every place where women are gathered together for chat or discussion.

We desire to give somebody a Steel Range and at the same time increase our subscription list. The ENTERPRISE should go into the homes of every man in the county and we are, striving unto that end It will be a surprise to many citticket. The larger number of
