How many of our farmers want good roads, better roads than we now have? Let us hear from you. Write us a postal card. We want to know whether our people want good roads or not. Let the farmers get together during court week and organize a good roads association.

**Greenville Reflector Squiblets.**  
We are too busy to read Representative Droughton's bill authorizing the state treasurer to issue four hundred thousand dollars worth of bonds, but we are agitating on general principles. If no other way out of indebtedness can be found, why not chop off expenses, abolish a few offices here and there, tax dogs, and as a last resort, pass a special act by which the legislature is not to meet for four years. We need the money, but we do not especially need the legislature or the dogs.

We don't care what a congressional committee says about it we still stick to it that the United States "are" and not "is." North Carolina is one of "them" not of "it."

Dr. Kilgo says man was born to rule, but that doesn't prevent a lot of women from thinking that they were born to interfere with destiny.

In one of our exchanges we notice a firm is advertising for gills to strip in a tobacco factory. Hadn't they better wait until the weather gets a little bit warmer.

**A Very Close Call**  
"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed. Price 50c.

**RALEIGH LETTER.**  
Special Correspondence.  
The bond issue bill has appeared. Ex-Governor Doughton, of Alleghany, introduced it Wednesday. It calls for an issue of \$100,000 of 3% per cent interest bearing bonds, payable in fifty years. They are to be \$100, \$50 and \$1000 denominations. We already hear opposition to it, and it has not passed yet.  
The investigation of the Mitchell-Martin march of the convicts is disclosing some bad features. Not much is expected to be disclosed that will be necessary to kick up much of a racket, but it will make an improvement in the future. It may be shown that no one could have foreknew the result of such a trip as that time. But it will have

the effect of making officials more careful in the future. It is an impossibility to get guards who will not abuse their power in some cases.  
The bill to charter The North Carolina Farmer's Protective Association passed the House to-day by a big vote. There was one objection. One member wanted it referred to the committee on insurance but it didn't go.  
A new county is wanted by the people of the Jonesboro and Sanford sections of Chatham, Hartnett and Moore Counties. An advance force of advocates are on the scene to fight for it. The new county would contain 300 square miles, \$19,855.57 tax valuation and about 1200 voters. But they have much before them to get their county. The proposed county has the historic name of Lee.

The superintendents and fellows around Raleigh who are not averse to taking a job, are mighty clever just now. Almost any old kind of a legislator can get an invitation to dine, etc., now. Those superintendents hereabouts think lots of them. It is said the nearest way to a man's heart is by way of his stomach and from what some of the superintendents say about the good things they prepare for the legislator's stomach they are on the right route. P. S.—"My institution wants a few thousands more."

The child labor law is giving trouble. The trouble is there are too many who know just what to do, and they all know different.  
In the liquor debate Thursday, Mr. Lucas speaking of why he was strong for the bill was his love for his family, love for his wife—for she was pretty. Mr. Smith, of Gates, said that Mrs. Lucas loved Mr. Lucas for the same reason. "Yes," replied Mr. Lucas, "but I cheated her badly." And the House roared with laughter and applause.  
The Senate killed the fire crackler bill. So the boys (?) can continue to celebrate.  
The other side of the convict cruelty case is now being heard and it does not look so bad as it did.  
The St. Louis Exposition is now being talked. The State should be properly represented. An appropriation of \$30,000 will probably be asked for.

How to reach some corporations for taxation is a puzzle. It is generally believed that many of them escape a large part of their just taxes because there seems no way of getting at the value for taxation. Some way must be found.  
Representative F. L. Carr, of Greene County, has been appointed private secretary to Senator-elect Overman.  
The revenue act was completed by the joint committee Friday and introduced in the House Saturday by Mr. Doughton. It was the special order for Wednesday, the 18th and 100 copies ordered printed. It is claimed to be the best ever compiled.

The committee on constitutional amendments had its first meeting Saturday. The King and Stubbs amendments were considered. The King amendment provides for the repeal of the discriminating clause in the constitution and that either race may tax itself for its own children. Stubbs amendment simply provides for the division of the school money strictly according to taxes paid by the races. Both provide that they are to be voted at the next general election. A day next week will probably be set for its discussion in the House.

**Wonderful Nerve**  
Is displayed by a many a man enduring pains of accidental Cuts, Wounds, Bruises, Burns, Scalds, Sore feet or stiff joints. But there's no need for it. Bucklen's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c.

**Hard Luck of an Editor.**  
Here are some of the terrible things which, according to a country exchange, are likely to befall delinquents: "Last week a delinquent subscriber said he would pay up Saturday if he lived. He's dead. Another, 'I'll see you to-morrow.' He's blind. Still another one said: 'I hope to pay you this week or go to the devil.' He's gone. There are hundreds who ought to take warning by these procrastinators and pay up their subscriptions now."

**The Cause of Many Sudden Deaths.**  
There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys—poisoned blood will attack the vital organs or the kidneys themselves break down and secrete away all by itself.  
Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.  
It corrects inability to hold urine and stinging pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.  
Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that shows how to keep it all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.  
Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

**TWIN BALLOTS.**  
Along in November, when chill was the weather, Two ballots were cast in a box together. They nestled up close like brother to brother; You couldn't tell one of the votes from the other.  
CHORUS:  
They were both run votes and sanctioned the license plan, But one was cast by the canning old Brewer, And one by the Sunday school man.  
The Sunday school man—no man could be truer— Kept busy all summer denouncing the brewer, But his fervor cooled off with the change of the weather, And late in the autumn they voted together.  
The Sunday school man had always been noted For fighting saloons—except when he voted; He piled up his prayers with a holy perfection, Then knocked them all down on the day of election.  
The cunning old brewer was cheerful and mellow; Said he, "I admire that Sunday school fellow; He's true to his church—to his party he's truer, He talks for the Lord, but he votes for the brewer."  
—Selected.

**Domestic Troubles**  
It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in Stomach and Liver troubles. They not only relieve you, but cure. 25c.

**WASHINGTON LETTER.**  
(From our Special Correspondent.)  
Feb. 16, 1903.  
The Venezuelan affair has been brought to a satisfactory conclusion and, while Mr. Bowen has secured the most favorable terms for Venezuela that she had a right to expect Germany has demonstrated to the world that she is a Shylock among nations and that her alliance with Great Britain was made for the sole purpose of collecting her debts, regardless of the rights of her allies. Under the terms of the protocols just signed Great Britain and Italy receive \$27,500 each as a cash payment, and Germany receives \$317,000, the full amount of her original demand, in monthly payments being ginned immediately. In thus demanding her pound of flesh Germany has outraged the Anglo-Saxon sense of justice, and in the judgment of Minister Popen, has laid the foundation for the ruin of her trade with the countries of south America. The protocols providing for the settlement of individual claims, the raising of the blockade and the reference to the Hague Tribunal of the question of a preferential for those countries which adopted warlike methods were signed late Friday night and immediately orders for the raising of the blockade were issued from the respective capitals. Until such time as the full amount of the claims of the creditor nations are settled 30 per cent of the custom receipts of La Guira and Pae to Cabello is to be set aside for that purpose.

The legislation accomplished includes the appropriation of \$50,000 for the use of the Attorney-General in the prosecution of trust-cases, the enactment of a law expediting the trial of anti-trust cases in the courts, the enactment of the Elkin's bill prohibiting rebates on transportation charges and the creation of a Commissioner of Corporations in the new Department of Commerce and Labor. The Littlefield bill which passed by the House is now in the Senate Committee on Judiciary where it has been considered, but without result.

The Alaskan Treaty has been ratified by the Senate and the President is now considering the personnel of the commission which is to adjudicate the Alaskan boundary dispute. Under the provisions of the treaty there will be three eminent jurists appointed by the United States and three appointed by Great Britain. Within two months from the ratification of the treaty, each side will present to the other a copy of its brief and counter-cases must be exchanged within two months thereafter. The first meeting of the commission will be held in London as soon as possible and subsequent meetings will be held at such places as may be determined by the commission. A vote of four to two will decide all points of difference but in the event that the commission is evenly divided, no change will take place in the existing status of the dispute. Rumor has it that Secretary Root and Senators Lodge and Turner, of Washington, will be appointed commissioners.

The House has passed a bill appropriating \$5,600,000 for the completion of the National Capitol and the construction of an office building for the use of its members and the measure is certain to receive the approval of the Senate. Persons familiar with the Capitol will remember that on the East front the Senate and House wings extend 108 feet beyond the center section. The original plans, which were approved by President Fillmore in 1859, provided for the extension of the central portion as far East as the wings and that is the improvement about to be begun. The new space will be used for committee rooms and, following the established custom, that portion on the Senate side of the center of the building will be devoted to the Senate and the Supreme Court.

The only change in the statehood situation during the past week has been the addition of the Omnibus bill in the form of a rider to the Post Office Appropriation bill. As the conferees of both the Senate and the House, under whose consideration this measure would naturally come, are all favorable to statehood, Senator Quay regards this as a decided victory. Senator Elkins speaking on the subject to-day, told your correspondent that he regarded the fight as practically won. He said that the Senate would be forced to permit the question to come to a vote and that the Statehood supporters were quite strong enough to pass the bill as amended. Senator Hale on the other hand expressed grave doubts of the Quay forces having sufficient strength to overrule the chair which, he said would throw out the amendment on the point of order certain to be raised. Even if they mustered sufficient strength to overrule the Chair that will not mean victory, in the opinion of Senator Aldrich, who declares that the Senate will debate the bill and precipitate an extra session of Congress rather than permit the establishment of such a precedent as the passage of irrelevant and general legislation as announced to an appropriation bill.

An effort was made last week to ratify the Colombian treaty but it failed. Senator Morgan talked for the entire time of the executive session, five hours, and no vote was reached. The next day Senator Quay refused to permit another executive session for the consideration of the treaty. Senator Morgan's opposition to the Colombian treaty is also preventing the ratification of the Cuban treaty and meanwhile certain interests hostile to the convention appear to be gaining strength.

**A Card of Thanks.**  
Through the columns of this paper the members of the Trinity School Dramatic Club desire to express their fullest appreciation of all the multiple kindnesses shown them during their recent stay in Williamston. The superb hospitality of its people, the courtesy and generosity of its business men, the hearty and obliging kindness of the opera house manager, and the unexampled generosity and thoughtfulness of its hotel proprietor could not be surpassed outside of Williamston. In behalf of the members sincere thanks are extended.  
K. G. Henry, Manager.

Believing that the cordial welcome and gracious hospitality extended by these good people of Williamston to our dramatic club, was at least, in some measure, a token of kindly feeling to Trinity School, I wish to subscribe to all that the manager has said above and to add this expression of my personal gratitude.  
N. C. Hughes, Principal.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitation in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.

**Teddy's Confidence.**  
A friend of the Roosevelt family says that when Theodore, Jr., was but a small chap of seven years he was thrown into a state of great excitement by a proposed trip in the care of his mother. The night before he started his father said, "Ted, you must take good care of your mother while you're away."  
That night the child undressed himself without any help from his nurse, and when he knelt at his mother's knee to say his prayers, he prayed, "Please, God, take good care of papa, but I'm going with mamma myself."

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Melard F. Craig, of Middlebrooke, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by N. S. Peel & Co.

**Scrapie.**  
At hog killing time take the head, liver and heart, and cleanse them thoroughly. Put all on the fire in cold water, bring to a boil and cook till the bones can be easily removed, then take out in a chopping bowl and chop fine, seasoning it with salt, pepper and sage. After straining the liquor on the stove, return the meat to it and thicken with corn meal and a handful of flour till it is the consistency of mush. Dip out into deep dishes and when cold slice and fry a nice brown as you would mush. It is very nice for breakfast. If you make more than you can use at once, run hot lard over the rest and you can keep it all through the winter.—N. E. Wilborn, Rusk, N. C.

A girl was married in Kansas last week. They marry in that state every week, but this particular marriage is of special interest. The Emporia (Kan.) Gazette estimates that during the seven days previous to this marriage, the bride-elect was the guest of honor at five parties, ate a peck of salad, drank a keg of coffee, stood on her feet twenty hours, walked one hundred miles, let the dressmaker paw her over thirty hours, and packed and unpacked her trunk twelve times. When she was married, they remarked she "looked pale."—Ex.

The best physic. "Once tried and you will always use Chamberlain's Stomach and Liver Tablets," says William A. Girard, Pease, Vt. These Tablets are the most prompt, most pleasant and most reliable cathartic in use. For sale by N. S. Peel & Co.

**A Disintegrating Bachelor.**  
A good-looking, well-to-do Springfield bachelor who was being teased by the young women of the club for not marrying, offered to take the girl whom the club should elect his wife just to show them that he was not averse to matrimony. Each girl went to a corner and wrote her choice on a piece of paper, disguising her handwriting. There were nine members of the club, and the result showed one vote for each. The young man is still a bachelor, but the club is broken up and its members are all mad at each other.

**TENDENCY OF THE TIMES**  
The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject, it is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip) and it has been observed that remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is found that there is fever and difficulty in breathing and pains in the chest then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures.

**KODOL ALMANAC**  
The Most Unique of Any.  
We have just received, with the compliments of the publishers, a copy of the Kodol Almanac 200 Year Calendar. With a copy of this publication at hand one is in possession of a calendar which covers the past as far back as the day of our National Independence, meets all the requirements of the present, and dates as far into the future as near as the beginning of the next century.  
By reference to this calendar the day of the week, of any given date in any month of the year, from 1776 to 1976, may be found at a glance. Another feature of remarkable interest is its weather forecasts. These predictions are not only as accurate and reliable as it is possible to calculate, but they are definite geographically, thus localizing the predictions and foretelling the weather which may be looked for in each section of the country.  
Messrs. E. C. DeWitt & Co., of Chicago, the sole owners and publishers of the Kodol Almanac and 200 Year Calendar, and while several millions of copies are in circulation, they have yet a few hundred copies of the first edition, and will send one copy to any enclosing a two-cent stamp, with the request for same, provided this paper is mentioned.

**SEATS OF NORTH CAROLINA**  
Martin County  
J. C. Crawford, Sheriff of Martin County, in the State of North Carolina, do hereby certify that the following described real estate in said county and state to wit: Moss Jones interest in one town lot in Farmale, was on the 5th day of May, 1902, duly sold by me in the manner provided by law for the delinquent taxes for the year 1901 thereon; amounting to \$4.43, including interest and penalty thereon, and the cost allowed by law to Adolphus Riddick for the said sum of \$4.43, being the highest bidder for the same. And I further certify that unless redemption is made of said real estate in the manner provided by law, said Adolphus Riddick and his heirs or assigns will be entitled to a deed therefor, on and after the 5th day of May, 1903, on surrender of this certificate. In witness whereof I have hereunto set my hand, this 5th day of May, 1902.

**Mother**  
Lost Reason After LaGrippe.  
Daughter Had Frequent Spasms.  
Dr. Miles' Nervine Cured Them Both.

Dr. Miles' Nervine is a specific for nervous disorders. It removes the cause and effects a speedy and permanent cure.  
"I feel it is my duty to let you know that your medicine has cured my little girl of spasms. She commenced having them at the age of three. Our family doctor said she would outgrow them but she did not. We took her to another physician who said her trouble was epileptic fits in a mild form. He did her no good either. She was so nervous she could hardly walk. As I had already read Dr. Miles' Nervine and found it a good remedy for myself I commenced giving it to my child. I gave her in all ten bottles of the Nervine and one of the Blood Purifier. That was over two years ago and she has not had an attack since we commenced the treatment. She is no longer troubled with nervousness and we consider her permanently cured. I enclose her picture. My mother-in-law lost her reason and was insane for three months from the effects of LaGrippe. Six bottles of Dr. Miles' Nervine cured her. My sister has also taken it for sick headache with good results. We all thank you very much for your good medicine and kind advice. I don't think there is any other medicine half so good. I send my daughter's photograph so that you may see what a sweet little girl lives out in Arkansas."—Mrs. HANNA BARKER, Springdale, Ark.

**LAND SALE!**  
By virtue of an order of J. A. Hobbs, Clerk of the Superior Court of Martin County, in a special proceeding entitled John L. Hines and others, against Carry A. Hyman, I will sell for cash at the Court House in the town of Williamston on Monday, the 2nd day of March, 1903, a tract of land in Martin county, described as follows:—A tract of land containing 100 acres more or less, adjoining Louis Long and J. G. Mirell on the North, J. G. Mirell on the East, B. A. Price on the South and Orange Fields on the West, and known as "The Old Nedham Hyman Homestead."  
This the 15th day of Jan., 1903.  
WHEELER MARTIN,  
17-47p Commissioner.

**SEATS OF NORTH CAROLINA**  
Martin County  
J. C. Crawford, Sheriff of Martin County, in the State of North Carolina, do hereby certify that the following described real estate in said county and state to wit: Moss Jones interest in one town lot in Farmale, was on the 5th day of May, 1902, duly sold by me in the manner provided by law for the delinquent taxes for the year 1901 thereon; amounting to \$4.43, including interest and penalty thereon, and the cost allowed by law to Adolphus Riddick for the said sum of \$4.43, being the highest bidder for the same. And I further certify that unless redemption is made of said real estate in the manner provided by law, said Adolphus Riddick and his heirs or assigns will be entitled to a deed therefor, on and after the 5th day of May, 1903, on surrender of this certificate. In witness whereof I have hereunto set my hand, this 5th day of May, 1902.  
J. C. CRAWFORD, Sheriff  
19-47p Martin Co.

**SEATS OF NORTH CAROLINA**  
North Carolina Superior Court, Martin County I. Sept. Term, 1902  
W. L. Sherrod vs. Cornelia Duncanson, et al.  
By virtue of a judgment of the Superior Court of Martin County, in the above entitled action, I will on the 16th day of March, next (it being the first day of court) sell for cash at the Court door in Williamston, N. C., 15 1/2 acres of land known as the W. D. Duncanson tract containing about 240 acres more or less. For a full description thereof or for a copy of the judgment, reference is made to said judgment, returned on the 5th day of February, 1902.
