An article from Griffin's, dated January 28th, stated that Griffin's District had furnished 14 teachers since 1881, and asked to hear from other districts of Martin. In response we wish to say that Woolard's No. 4, of Bear Grass Township has furnished since the above named date 18 teachers, one of whom is now a bookkeeper for the Bank of Fayetteville, N. C., one a graduate of Kentucky University; one general manager of an insurance company at Petersburg, Va.; and one an efficient telegraph operator for the A. C. L. R. R. Co.

There are others who have acquired sufficient book knowledge to teach school, but have accepted positions in other branches of industry. This we insist should be credited to the many who have so satisfactorily filled the teacher's chair in this school. Young ladies and gentlemen, strive to reach that mark that the top round makes. We see no reason why Martin should not rank with any other county. We can if we try, if we try we will, so let's prepare ourselves by applying. We need not fear whether there is something to do, but, whether we can do it. These good old patriots who are now holding the reins and driving good government to every man's door in the Old North State, will some day fall asleep no more on this earth to wake. Then, who will be able to take their places, those who have never taken steps to advance themselves in life? Every one says no, but those who have purchased the storm coat and gloves. (Education and honor). J.
