Littleton Female College the advertisement of which appears in this issue of our paper is a very flourishing institution with a large patronage and is doing a great work for the education of young women.

Don't pay \$1.50 a gallon for Linseed oil (worth 60 cents) which you do when you buy thin paint in a can with a paint label on it. 8 and 6 makes 14, therefore when you want fourteen gallons of paint, buy only eight gallons of L. & M., and mix six gallons of pure linseed oil with it.

You need only four gallons of L. & M. Paint, and three gallons of Oil mixed therewith to paint a good sized house. Houses painted with these paints never grow shabby, even after 18 years. These celebrated paints are sold by S. R. Biggs.
