WASHINGTON LETTER.

BY CHAS. A. EDWARDS.

November 17, 1903.

The special session of the 58th Congress, called by the President for the purpose of working the Cuban reciprocity proposition is now in session.

The opening of Congress was very much like the opening of any Congress that has preceded it. The republican program went through as stated. "Uncle Joe" Cannon was elected speaker according to schedule, and the Hon. John Sharp Williams, of Mississippi, was the nominee of the democratic party as predicted in this correspondence away last spring.

He has had the good sense, as his friends knew he would have, to give his chief opponent, the Hon. Champ Clark, of Missouri, the appointment on the Ways and Means Committee, one of the highest honors that can come to a democrat. Mr. Williams not only showed his generosity by this action, but his good sense as well.

That is an honorable and responsible position, for the "whip" of the House has to see to it that a majority of the members in the city are in their seats and voting on any proposition in which is involved the party policy.

There is one little piece of red tape that each new House goes through with that gives the spectators in the gallery and the members on the floor an opportunity to give vent to their enthusiasm for any particular man they believe in or whom they think is a popular hero.

ber. Both are called out and the member then goes down and selects his seat. There was much applause when certain men were called out. For instance, there was a resolution adopted that gave the floor leader of the republican side, the Hon. Seneca Payne, of New York, and the oldest member on that side of the House, the Hon. Harry Bingham, of Pennsylvania, the floor leader of the Democratic side, the Hon. John Sharp Williams, of Tennessee, the right to choose their seats without drawing for them.

He has received marked attention from democrats here since the assembling of Congress. Some of the party leaders here are beginning to find out that he is a much bigger man than they thought; that he was not merely a newspaper man who had made a phenomenal success of the business, but that the reason he made the success was because he was an able executive, a single-minded patriot, and a lover of the common people.

It is too early to predict what the fights will be in this Congress, but the fight on the Cuban reciprocity proposition is going to be a bitter one. There will not be as many republican recalcitrants in this Congress as there was in the last on that proposition, for the reason, as stated in this correspondence not long ago, that the Sugar Trust has bought out the beet sugar interests and that has closed the mouths of many republicans who otherwise would be opposed to Cuban reciprocity.

To the intense delight of the democratic leaders here, the republican administration has actually tied up in a nice package and handed to the democracy another and a corking good campaign issue in this dirty mess in the Panama country. It is the belief here not only among democrats, but among many good republicans, that the recent revolution in the United States of Colombia in Central America, was hatched in this country and at the instigation of this republican administration in order to get control of the Panama canal.

they going to get way from the imputation that they are responsible for this revolution? If they are not, then there must be some expert mind-readers in the Navy Department, for no sooner had the first rumblings of this trouble between Colombia and one of its states been wafted over the earth than this country had several naval vessels at the proper point in a jiffy in order to put backbone into the revolutionists and to intimidate the Colombian forces.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age.

Only Makes a Bad Matter Worse

Perhaps you have never thought of it, but the fact must be apparent to every one that constipation is caused by a lack of water in the system, and the use of drastic cathartics like the old fashioned pill only makes a bad matter worse.

Disastrous Wrecks

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary.

We do not know whether Tuesday was a good day for peanuts or not, anyway three carloads were bought and stored by Mr. Walter Anderson, of the firm of Anderson, Hassell & Co., Williamston.

Miss Ella Wynn, the oldest daughter of Mr. B. T. Wynn, with her little brother, while out driving Monday evening the team became frightened and ran away, throwing Miss Ella from the buggy and badly injuring her. Dr. Nelson was summoned and, on examination, pronounced serious injuries with a broken rib. The little boy held to the reins and was not hurt.

Take your hat off to the girl who works. It is not an ideal condition of society which makes it necessary for a woman to earn an independent living, to say nothing of supporting a family, but conditions, like the poor, we have with us always.
