FRIDAY, AUGUST 5, 1904.

We have at last secured that new press. We are now fitted up to do any kind of printing. Although THE ENTERPRISE print shop always had a good name for printing, we are now in a position to make a greater reputation along that line. With a gasoline engine two revolution, job and book press, and two platen job presses, we can take out work with any of the print shops in the country.

We are a little later this week with our paper than we wanted to be, this is due to getting a foundation under our press.

We ask the support of Martin County, both in our job and newspapers department. We will meet all legitimate competition in the job line and guarantee you as good work as you can get anywhere.

We intend to furnish a newspaper in keeping with the times and solicit your subscriptions.

**We Need a Fire Engine**

"In time of peace let us prepare for war."  
We have been having fires in our town almost every winter that passes and they have in every case been of serious loss to us.

Fire stays the hand of progress and thereby makes investment risky. We should not look to insurance companies for they only restore a part of the loss incurred. They do not put us on our feet again and give us back the trade we have built up, when our stores are burned; but our trade has to go elsewhere and hence our business has to go to the wall.

We need in the first place an organized fire company, composed of young men. This will cost us nothing, for the very best young men would willingly join the company, we dare say.

This would mean that these young men, being organized, would be on the spot where the fire happened to be. This would mean in many cases that a great percentage of our fires would be extinguished before they got any headway.

Of course we would have to have a few buckets and ladders. We are sure the merchants would supply us with these and they must be kept in a place where any one of the members of the company could get them.

Moreover we must have a Hand Chemical Fire Engine. There is a picture of one in the New International Encyclopedia. It is a two wheel apparatus, being about four feet high, with a tank for chemicals about 3 1/2 by 1 1/2. It has a lantern in front. The hose appears to be about two inches in diameter. This is what the town needs, it seems to us.

We must first organize a fire

**Littleton Female College**

This institution with a patronage of more than 200 pupils from five different states, covering an area of 1000 miles in diameter, desires immediate correspondence with any young lady who wishes to go off to school. A postal card or letter will bring immediate reply and interesting information.

The 23rd Annual Session will begin on Wednesday, Sept. 14, 1904  
J. M. RHODES, President, Littleton, N. C.

company of young men, and this we are going to have if we have nothing else, and if this proves well the rest will come to us for we will have plays and ice cream suppers and get us a Hand Chemical Fire Engine.

Let us unite young men on having this organization. It is for the mutual benefit of the whole community. You will soon be the leaders and we want to see our town take a step even further than it has taken.

Fires have been impeding our growth for many long years and we have now reached a solution if we will band together and form a company. The very best young men of other towns join and have lots of fun in practicing running, and we feel sure our young men will take hold of this movement and push it onward to the organizing point.

**Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.**

**The Death Penalty**

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It is the best Salve on earth and will prevent fatality, when Burns, Sores, Ulcers and Piles threaten. Only 25c, at S. R. Biggs.

Bishop Joseph S. Key, Southern, M. E. Church, writes: "We give Dr. Moffett's 'TEETHINA' (Teething Powders) to our little grandchild with the happiest results. The effects were almost magical, and certainly more satisfactory than from anything we ever used. 'TEETHINA' (Teething Powders) counteracts and overcomes the Effects of the Summer Heat."

**Death of Watts Barnhill**

After a hard fight for life Mr. Watts Barnhill, of Hamilton, finally breathed his last Friday evening. He was sick with Typhoid Fever a little over a month. He was just twenty-one years of age in the very height of life.

He was buried Saturday evening at about four o'clock, the funeral services being conducted by Rev. T. H. Sutton.

Mr. Barnhill was a member of the Methodist Church.

The Enterprise extends the hand of sympathy to the bereaved father and brother and sister in this their hour of deep grief.

**Taken With Cramps**

Wm. Kirmse, a member of the bridge gang working near Littleton was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called upon and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines—Elkader, Iowa, Argus.

This remedy never fails. Keep it in your home, it may save your life. For sale by S. R. Biggs.

**Good Roads for Griffins**

There will be a meeting of the Road Hands and Tax Payers of Griffins at Township Hall Saturday August 6th at 1 o'clock for the purpose of devising ways and means of improving their roads. This is the first step taken towards having good roads in Martin County and we hope and trust it will be a success and redound the glory of old Griffins.

**Healthy Mothers**

Mothers should be in bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boschee's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectation easy, and gives instant relief and refreshing rest to the cough racked consumptive. New trial bottles, 25c.; large size, 75c. At S. R. Biggs.

Pinesalve acts like a poultice. There is no sore, boil or abrasion of the skin Pinesalve will not cure. Pinesalve draws the fire out of a burn instantly and heals without leaving a scar. Sold by S. H. Ellison & Co.
