A HOLD-UP

Mr. J. T. Ragan Stopped on the Road by a Burly Negro who Wanted His Money

Saturday morning about eight o'clock, when "Uncle Tommie" Ragan was just beyond the farm of Mr. J. R. Mobley a big burly negro stopped him. The negro said he wanted to ask him a favor, which he soon did—asked him for the loan of a dollar—which Uncle Tom refused. Then the negro grabbed him by the wrist and tried to pull him from the buggy. Mr. Ragan hallowed to his horse and the animal promptly jumped to run, in doing so the negro was knocked down by the wheel. Mr. Ragan's right arm and wrist was much bruised in the scuffle. He says he does not know the negro.

Painful Accident

Early yesterday morning Mr. A. S. Terry, the genial and clever manager of the Southern Veneer Co was unfortunate enough to have the end of one of his fingers cut off.

Mr. Terry started to remove a pile of strips from the veneer knife which he had done thousands of times before, and his finger was caught.

He walked down town to the drug store, about half a mile, and phoned for Dr. Warren, then he sat down and lighted a cigar, which he seemed to enjoy as much as usual.

Dr. Warren soon arrived and had the finger dressed in short order.

Mr. Terry immediately returned to the mill to his work as though nothing unusual had happened.

Big Business Friday

The sale on the market last Friday was the largest this season and the prices were high. There were about 45,000 pounds of the weed disposed of that day at an average of nearly nine cents. This is indeed big prices for tobacco when the grade is considered. Nearly all the tobacco was sorry.

The Saving of Time.

The saving in cost of hauling loads to market over good roads compared with the same haul over bad roads has been strikingly illustrated again and again with a fair degree of accuracy. But the saving of time in driving over good roads as compared with poor ones has not been given the consideration it merits. This saving of good roads applies with equal force whether they be used by the farmer in going to town in his light carriage, the automobilist or the bicyclist. It has been estimated that a half hour's time can be saved in passing over every five miles of good road as compared with the same length of bad road. As time has never been more valuable than it is in these days of the twentieth century, here is another argument for the good roads movement that is often overlooked.—Good Roads Magazine.

A Continual Strain

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottles of August Flower, 25c.; regular size, 75c. At S. R. Biggs.

Jacksonville, Fla., September 6—At 2:30 this morning, a residence occupied by two negro women, Sallie Carnie and Ella Jenkins, in an eastern suburb of this city was blown up by dynamite. The two women were asleep in a bed in the front room and beneath this part of the house the dynamite was placed. While the room was torn to pieces and the bed demolished, the two women escaped unhurt.

A new theory that is proving successful in the cure of Coughs, Lung and Bronchial affections is offered in Bee's Laxative Honey and Tar. Croup and Whooping Cough disappear before its use as snow before the sunshine of Spring. It's pleasant. Sold by S. H. Ellison & Co.
