THE SECRET OF SUCCESS

Forty Million bottles of August Flower sold in the United States since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the two greatest enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders?—that it has proved itself the best of all liver regulators? August Flower has a matchless record of over thirty-five years in curing the ailing millions of these distressing complaints—a success that is becoming wider in its scope every day, at home and abroad, as the fame of August Flower spreads. Trial bottles, 25c; regular size, 75c. For sale by S. R. Biggs.

WASHINGTON LETTER

(Special Correspondence.) The concrete work being put in by the engineers engaged on the new Union station here for the Pennsylvania and the Baltimore and Ohio railroads is said to be the most extensive use of cement ever attempted in the United States. The station building and the approaches are to be placed on concrete abutments forty feet square and fifty feet high. This mass of concrete is produced by huge bins leading to a mixer, and the work is mainly done by machinery, few men being required in the construction. The huge cement piers are to bear the weight of the station structure and the high dome which will surmount the building. These walls will ultimately be faced with white granite.

It is stated that John H. Williams, resolution and petition clerk of the house of representatives, has been selected to succeed the late Colonel Walter H. French as the clerk of the house. Colonel French died recently in Europe, and since that time there has been much speculation as to his probable successor. Mr. Williams comes from Scranton, Pa., and has acted as private secretary for Representative Connell a number of years. The appointment of the file clerk is made by Major McDowell, clerk of the house, and is one of the very best positions under his control.

Commissioner Macfarland is formulating a plan for an annual census on a simple scale of the inhabitants of the District of Columbia by the police department. The reason for the proposed action lies in the fact that, to Mr. Macfarland's mind, the results obtained from a police census will be more satisfactory than those from the existing method of calculation based on the decennial returns of the federal census.

The absence of President and Mrs. Roosevelt from Washington enables visitors to see much of the White House, and hundreds of strangers in the city are enjoying the pleasure. Of course when the family of the president is at home there must be some privacy, and the building is closed except the big east room and the east terrace entrance. Occasionally cards of admission are issued upon request for visitors to see the private parlors—red, green and blue rooms. This privilege, however, is not granted often and is greatly appreciated. No special cards are now necessary, as the entire building except strictly private apartments is open.

It has been decided by the District commissioners, acting with the superintendent of public buildings and grounds, to place the Dunbar statue of Aleck Shephard, former governor of the District of Columbia, in the small triangular park in front of the new municipal building. The statue will stand midway between Thirteenth and Fourteenth streets and face Pennsylvania avenue. The statue will be in bronze, heroic in size and cost \$10,000.

Recommendations of Inspector General Burton for more economical requirements in army uniforms have made this question the general subject of discussion in army circles. The order now in effect forces officers to expend so much for clothing that a lieutenant is at his wits' end to make his allowance cover his tailoring expenses. Army officers generally regard the expense as burdensome, and undoubtedly they would be better off with half the apparel now called for by the regulations. The general staff, however, is said not to be disposed to adopt General Burton's recommendations.

Mrs. Marcus A. Hanna, widow of the senator, is expected to come to Washington to live in the early part of this fall. She will make Washington her winter home and has leased the handsome house belonging to General Corbin. She has been in Maline much of the summer.

The recent launching of the Louisiana has called attention to the views of an element in the navy department that is advocating a board of officers whose entire duty it will be to determine the type of vessels to be constructed. The supporters of this idea maintain that none of the different boards now organized has the competence or the time to pass on this important question, and the result is that defects of a most grave nature exist in vessels of the navy that are supposed to be the best in existence. The Louisiana and Connecticut even are not spared. One assertion is that their guns are mounted too low to be served effectively against many of the vessels of foreign navies.

Assistant Secretary C. H. Darling of the navy department has taken up the problem of adequately manning the ships of the United States navy and has turned to the naval militia of the country with the hope that in this organization will be found the solution of the perplexing question. From his interest in the naval militia and his inauguration of this new policy with respect to that organization Mr. Darling has been given the title of "the father of the new naval militia." The new policy contemplates a decided change from the former treatment of the naval militia, and it is proposed in the future not to give the organizations old, discarded vessels, but to give them the "best ships available." It is stated that 45 per cent of the men who have enlisted in the naval militia of the District of Columbia since 1898 have gone into the service of the United States navy. CARL SCHOFIELD.

Miss Lewis' Dancing Class

Miss Lollie Lewis, of Goldsboro, began the season's first dancing class on Wednesday evening of last week. She has quite a number of young people under her instruction, who will soon become adept in the terpsichorean art. The following boys and girls were noticed when the reporter was present: Misses Hattie Lou Ward, Fannie Belle Timmons, Hattie Kirby, Blanche Mizell, Frances Knight, and Messrs. Sid Mobley, John Hassell, James Williard, Don Godwin, Wheeler Martin, Jr., Leslie Fowden, Walter York, Grover Hardison, Thad Lawrence, Haywood Knight, George Howard Linley-Keit and Fred Bullock.

A Wonderful Saving

The largest Methodist Church in Georgia, calculated to use over one hundred gallons of the usual kind of mixed paint in painting their church. They used only 32 gallons of the Longman & Martinez Paint mixed with 24 gallons of linseed oil. Actual cost of paint made was less than \$1.20 per gallon. Saved over eighty (\$80.00) dollars in paint, and got a big donation besides. EVERY CHURCH will be given a literal quantity whenever they paint. Many houses are well painted with four gallons of L. & M. and three gallons of linseed oil mixed therewith. Wears and covers like gold. These celebrated Paints are sold by S. R. Biggs.

The Windsor-Williamston Picnic a Most Enjoyable Event

Williamston people certainly have hearty thanks to Messrs. Crawford and Newell for arranging such a pleasant day for them on the occasion of the picnic with Windsor. The Windsor people acted somewhat as host on account of the place of meeting being in Bertie county, and again proved themselves charming. Everything was done for the amusement of everyone. The lunch was served at 1:30 p. m., and the young people seated on the grass, seated in groups made a picturesque scene. After the lunch the amusement was dancing on the green, which was a very enjoyable pastime. Each one, in his own way, strove to amuse the other, and, as the shadows grew long, the party returned home, tired because of the pranks and frolics of a happy day.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." For sale by S. R. Biggs.

From 148 to 92 Pounds

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength. Sold by Anderson, Crawford & Co."

HALT! Are you aware of that which your WATCH is doing in the course of one year (365 days). The balance wheel of your watch makes 137,000,000 revolutions. THINK OF IT!! In that time the oil gets, produces friction, and wears the delicate bearings, destroying their high finish and perfect fit; thereby ruining an accurate time-piece, an ordinary machine should be oiled daily. Your watch should be properly cleaned and oiled once a year. Let me examine it. An honest opinion from me cost you nothing. Come around and examine my stock; I handle Watches of all makes and grades, and at a small percentage, too. I sell 1847 ROGERS' BROS.' SILVERWARE which is the best.
