Are you sure your name is on the registration books? Better look after this before it is too late.

The principal of the schools at Cleveland O., declares that Cicero and Demosthenese would not be in it with the orators of this day. Don't destroy all our ideals! We have already had to concede that Ananias would be a poor shoat among later day prevaricators.—Wilmington Star.

How about that board walk on Smithwick street? Do the Commissioners think that the

people of Newtown are going to put up with it forever? THE ENTERPRISE has been calling attention to it for two years. In that time one hole alongside has been filled, and that has long since been washed out.

The hole is not the only dangerous place on that board walk. The entire walk from end to end needs repair and needs it badly, and we again respectfully call the Commissioners' attention to it, especially the Newtown Commissioners. Probably the Commissioners will say again that we do not know what we are talking about, it so, we will take great pleasure in showing them the bare facts.

We don't mind being "cussed" when we are trying to uphold the citizens rights, as in the ditch question a couple of weeks ago, for instance. We didn't know what we were talking about then, said some of the Commissioners. Well, maybe we didn't. Our composing room window was within twenty-five feet of the "Hoyt's German"? and the window up all day; the south wind blowing directly in that window, and we not know what we were talking about. Well, we thought we knew.

From four to six times a day, for two years and a half, we have been over that board walk, and maybe we don't know what we are talking about now. No amount of discussion or persuasion can change our mind on that point.

It has been suggested that these Commissioners as a body, take a stroll down that way one day, next Monday, and investigate the matter.

The speech of Hon. Lee S. Overman was a great treat for those who heard it Wednesday evening. It was a clean, forceful, distinguished and a brilliant discussion of the subject. Not one thing was said that was not made perfectly clear. His delimitation of the character of Roosevelt was superb; giving credit where credit was due. He said that Mr. Roosevelt is indeed a man of character, and of great ability. But, he is of unsound judgement, and an unsafe man to lead our nation.

Senator Overman won the hearts of the people here and the occasion will long be remembered by those who heard him.

It is evident that this speech has put a quietus on the belligerent democrats. None of them were seen in the Convention yesterday.

FARMERS WANT A LAW TO ENFORCE LABOR CONTRACTS.

The farmers who are continually worried with their labor problem say that a legislation is needed along this line. Under the existing arrangements, the average man is powerless to enforce any contract he may make with a laborer or tenant.

Today a Mecklenburg farmer who had been deserted by a tenant came to town to see if he could not find redress in the law, but after he had stated his case, he was told that there was no help for him. A tenant who had contracted to cultivate a portion of his farm left last week, and although the farmer is greatly inconvenienced, he has no redress.

The law provides that a laborer who, after receiving advance pay or supplies, leaves his employment before completing the work he has contracted to do, may be indicted for a misdemeanor; but under any other circumstance he is safe from the law.—Charlotte Chronicle.

A man out of employment is in luck, if he only lives in a "doubtful state."

The candidates have now sent in all their letters; the voters will reply on November 8th.

By the time the campaign ends, citizens of those doubtful states will have money to burn.

Boxers are again alarming China. It seems to be high time for China to begin alarming the boxers.

New York has started a company for insuring eye glasses. What a short-sighted-idea for New York.

In the matter of national disarmament each nation seems to think "next after you, my dear Alphonse."

Hon. J. Edward Addicks claims to be a self-made man. We always understood that he was a gas-made man.

It is announced that J. Pierpont Morgan is to take a rest. There is no "rest" for him to take that we know of.

Russia is to build more submarine vessels. It appears that she has not enough of her fleet under water yet.

A Louisiana physician says young ladies would have fewer calls from doctors if they ate more onions; also fewer from the men.

A Washington girl has broken the record in typewriting; seems to us that we have heard of a few breaking up whole families there.

The Pennsylvania Railroad Company refuses to take a man over thirty-five years of age. We know a good many girls who are not near so particular as that.

Republican statesmen don't seem to think that our prosperity has reached high-water mark yet. However, we don't think it advisable for them to order any more water.

It is an open question whether the railroads or automobiles are killing the greatest number—it looks as though the undertaker should divy up his profits with them.

Dowie piously declares that he is going to ride to Jerusalem on an ass. We suspect that the ass will get tired of him and shake his company before he reaches his destination. Two asses never agree.

Some of the eastern cities have passed laws against restaurants using cats in chop suey. It is not stated, however, whether this is done to protect the chop suey or the cats, or a hit at the Chinaman.

A Kansas woman got one cent judgment from a man who stole a kiss. How very foolish this was—her kisses might have been valued at twenty-five cents a piece had they not been appraised in this way.

It is announced that Emperor William of Germany wants to become an expert yachtsman. If he manages the German ship of state successfully, he will have accomplished quite enough in the nautical art.

We launched two battleships about the time of the Boston peace conference. Our peace conferences and battleships are about keeping pace with each other—peace is such a blessed thing that we are going to have it if we must fight for it.

From the numerous articles Miss Ida Tarbell is writing on the Standard Oil Co., it is clear that she is thoroughly versed on that subject. Up to the time of going to press, however, we have not heard of her appointment on the faculty of the Chicago University as a lecturer on petroleum.

Sixty years ago North Carolina was a worn out State, the Civil War having almost depopulated her towns and laid waste her territory. The days of reconstruction left their blight upon the fair Southland by the sea. A new order of things arose. The dawn of new South life put new blood into her being and the sun of a bright future began to rise. Today she has over \$10,000,000 in her cotton mills, her towns are blessed with graded schools, her colleges are taxed to their utmost capacity and her alumni are filling the most important places in the republic.

THE GOOD OLD WAY

A severe cold or attack of la grippe is like fire, the sooner you combat it the better your chances are to overpower it. But few mothers in this age are willing to do the necessary work required to give a good old-fashioned reliable treatment such as would be administered by their grandmothers, backed by Boschee's German Syrup which was always liberally used in connection with the home treatment of colds and is still in grater household favor than any known remedy. But even without the application of the old-fashioned aids German Syrup will cure a severe cold in quick time. It will cure colds in children or grown people. It relieves the congested organs, allays the irritation, and effectively stops the cough. Any child will take it. It is invaluable in a household of children. Trial size bottle, 25c; regular size, 75c. For sale by S. R. Biggs.

HALT!

Are you aware of that which your WATCH is doing in the course of one year (365 days)
The balance wheel of your watch makes 157,000,000 revolutions.
THINK OF IT!!
In that time the oil gums, produces friction and wears the delicate bearings, destroying their high finish and perfect fit; thereby ruining an accurate time-piece, an ordinary machine should be oiled daily. Your watch should be properly cleaned and oiled once a year. Let me examine it. An honest opinion from me cost you nothing. Come around and examine my stock; I handle Watches of all makes and grades, and at a small percentage, too. I sell
