FOUR TERMS OF COURT

The litigatus of Martin cour be gratified to learn ator Stubbs has secured the passage of his bill giving Martin County four terms of the Superior Court. The terms are of one week each for the trial of both criminal and civil cases. There are cases on the docket that have been trans farred from docket to docket for each court since 1893now twelve years. This new law will relieve this crowded condition and the time required for getting a hearing in any case will be only balf the time formerly required.

There are some people who believe it will increase exper ses for the county.

Et.

As for us we can difference in the expenses for two two week terms and four one week terms. Juries have to be summoned for each week and the cost in this way is regreater It requires no greate number of witnesses for each case It requires no more jud ges and solicitors only on judge and one solicitor for each week. The sheriff the clerk and their deputies will be sam either way. There is no differ ence in the costs same in having four grand juries instead of two summoned. Their per diem should be no greater. As to the advautages of four terms, it pride in it and character is not necessary to write, they are not be so long at the expense of the county. cases that are now compromised by justices of the peace, very often subjecting themselves to indictment, would be tried in with you, as a visitor or a pas-Superior Court. We remember ser by? did you ever think of Judge Shaw's threats and charges in the last court and they or a community where the were just. When these cases Court for trial and greater ju - observer you can *easily see are carried to the Superior tice enforced can we measure justice and value the dignity Flans or consult the modern ar of the law of the land in dollars and cents? If the number of cases are increased in this way the costs, fines and service of send our money wisely and convicts over pay the expens It is useless to argue the money question in regrard to courts Why not co away with them altogether since they cost? our idea of a state is that it cannot reckon the cost of enforcing justice

MODERN HOMES.

It is a matter of private busess and we apologize for mentioning the subject but it eems that now in the time of our planing for spring building and improving it would be money wisely spent to consult an architect. We notice many houses in town and country that costs considerable, yet they ire inconvenient uncomfortable and to be frank, ugly. Every house is not this way. Most of us think we know best how to have our own house built and proceed, realizing

before the work is complete that we have succeeded only in the making of a botch. We live in these houses the greater part of our lives and in many cases we leave them as our only monuments. The home is the making of the man and woman, the spirit and the
