TOWNSHIP ROADS.

It is hoped by the business men of the town that a petition will be made to the General Assembly to enact a law by which the people of Williamston township may vote as to whether bonds shall be issued for the improvement of roads. The petition will be signed by citizens of Williamston township only. It will ask that bonds be voted and a road tax fixed that will pay the interest on these bonds and take up a certain number of bonds each year.

The roads of the township will thus be improved and the burden will rest heavily on no property at any time. Let every body get together on the question and hit the hot iron. We shall be in no better shape for this thing next generation than now—especially if we keep such roads as we have. If we loose this opportunity it will be two years before we can make another move.

We should like to argue this question but it is unnecessary. Every body believes that it is the thing to do. The question with most of us, is, can we do any thing, are we able? Yes, we say emphatically and let us put the energy in paying the tax required to pay off bonds we now put in these sandy and muddy roads. Life will be life to ourselves, by this life is left to the animal, increasing his use. The increase in the value of property with good roads will pay the road tax.

This means that the roads leading out from town will be drained smoothed and straightened to the township line. The tax paid in this township will be devoted to its own roads. While we should be glad to see this for the whole county we are glad to make this beginning and see what it means.

Poisons in Foods

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at S. R. Biggs drug store. Try them.

ALL THE FARMERS.

Thursday at noon the farmers of Martin County will hold a meeting at the court house to discuss the cotton situation and pledge themselves to the reduction of acreage and use of commercial fertilizers.

The farmers are the masters of the situation and it is their intention to remain the masters. Every farmer and every citizen in the county regardless of financial condition or business relation should attend and lend his influence. The cause of every man living.

The farmers hold the key to the financial condition of the South. If a large acreage of cotton is planted this year and the amount of fertilizers used that was used last year the stagnation we now experience in business will be prosperity. The reduction of acreage means an increased price per pound. A nine million bale crop will sell for, easily, twice as much as a fourteen million bale crop. A bale under the former conditions would bring sixty dollars while a fourteen million bale crop means a bale will bring only thirty dollars. With a fourteen million crop cotton seed are valueless with a nine million bale crop it is a source of large revenue. The nine million bale crop means \$600,000,000 dollars while the fourteen million bale crop means only \$400,000,000 to be put into the business of the South.

The labor and fertilizer items are not small. It takes a three less labor to cultivate and harvest a nine million bale crop than a fourteen million bale crop while it will sell for nearly twice as much. Labor will not be in such demand and consequently cheaper, and what is used will pay a better profit even were it more costly. The item of fertilizers in our modern methods is a big part of the expense of cultivation. The cutting off of one fourth in cost and the receiving of a double benefit is one end much desired in the use of fertilizers.

We would appeal to you farmers and citizens to organize against the enemies of large acreage, the unnecessary use of fertilizers and the extortionate demands of high priced, worthless labor. In doing this you will save yourselves and the prosperity of the country.

You are the burden bearers of society, who are your own masters and when you become weak society staggers, prosperity fails and all business

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

"I always keep Ayer's Cherry Pectoral in the house. It gives instant relief whenever any of us have coughs or hoarse throats. I have used it for a great many years and so know all about it."—MR. MARY O'BRYEN, Ferrisburgh, N. Y.

loses its force.

Every farmer should pledge himself for a small crop. No farmer should be allowed to escape. No farmer should be allowed to remain on the outside plant a large crop and take advantage of a good price while other farmers have reduced their acreage to make this price. Such a scheme would be worse than trickery and fraud in business, worse than dishonesty. Gentlemen organize, take in every man, use your organization and achieve the great prosperity which you alone can achieve. Your organization and its success is the South's and every institution's in the country—the school, the bank, the factory and your own salvation. Rise to meet the demands the situation, it requires courage, faith and honor and you have it as has no other class of people under the sun.

Cotton Growers Organized.

The Organization of the Martin County Branch of the Southern Cotton Association held its meeting in the Clerk of Court's office Thursday February, 16th. There were about twenty farmers and business men present and the predominating idea was the reduction of cotton acreage and decrease of the use of commercial fertilizers each one-fourth, and the increase of production of home supplies.

Mr. Wheeler Martin was made chairman, and Mr. S. J. Everett secretary. The chair appointed a committee of three with Mr. Justus Everett as chairman to recommend officers for the permanent organization for the county. The following officers were elected by the recommendation of the committee.

Dr. John D. Biggs, President.
J. A. Whitley, Vice president.
S. J. Everett Secretary.
Wheeler Martin Treasurer.

The Chairman read the Plan of organization as forth in the circular letter issued by the Southern Cotton Association. It was approved and adopted by the meeting, and the secretary was instructed to inform our Representative at Raleigh, Mr. Coffield, that he was appointed Martin County delegate to the State convention in Raleigh on the 21st and that he was instructed to act according to the directions of this circular letter. Proceedings of the meeting were interesting. Those present were enthusiastic showing the spirit demanded to meet the emergency. The meeting was adjourned subject to the call of the President.
