Our Present Needs.

the progress of any business is them. What is light, what is Carolina proposes at an early date ooo, of which almost all has been the man power. We do not mean his muscular energy or soda, chairs, buildings, locomomean his muscular energy or force, but rather brain and tives. The principles of these they went forth to fight; who sufcharacter power. The questihings can be taught in school fered worse than death a thousand tion asked in connection with in what is known as manuel times; who were stung and woundthe success or failure of any training. There is nothing ed by privations that the hardiest business is who runs or who manages it? We believe that weak men

cumstances, but we believe cific actions of nature—that tion of committees from all these more strongly that strong men make circumstances. We believe that the ordinary human man-he acts by a certain being can make himself strong principle and that principle is by application, by thought and fixed, certain. exercise of his various powers. The demand of the day is not money, not science, not materials, but the man who can use them, who can organize them and direct them when organized. Circumstances demand a man to shape them.

It is an easy matter to organize a business in our community but we need men to same old "figure," when it comes manage it. Every man can to hubby's part in the transaction. raise money and will be glad of an opportunity to do so if it business enterprise, it may be a home with the proper influgiven. It behooves all men to getting information first-hand, in look well into this subject.

If it is an enterprise we need, let us have one for the ter. And Bourke is the lad to do sake of education, not only to the job .- Atlanta Constitution. the younger people but for the community. The idea predominating in this community quite a "set back" Saturday night is that every man who can lice bagged about nine of the genraise the money must go into tlemen(?). After his excellency cause they know nothing about er by about \$75 and the gamblers anything else. Get a factory here and the enterprise idea will peryade the community into another channel.

part in creating and satisfying be given reasonable compensation this demand. Every grown and no more. There may be less person can recall the impressive stage of their life when some idea of business ambition struck them most forcibly. The question of what he shall banquet at Greensboro, one of the parents by the proper foreman is endowed with certain table.—Louisburg Times.

individualities, but these grow largely from the training of home, community and school

One of the most important factors in the making of men and women is the school and school teacher. The school should be in a position to teach child everything it needs to know. The teacher, although the least appreciated, is the most important personage in the community. The fact that they are so little appreciated is often their own fault. The teacher who calls together a lot of children from day to day to allow those children to pass their time in idleness or in scheming to avoid their school duties and allows them to go home without having perform-

ed that day's sant is in the nation.

The mothers of the Confederacy and veterans, their sons and daughthe best in each child, is worse ters, heirs of their glory, are earnthan black death to a community We have seen men and tribute accounts of such instances

CARNEGIE GIFT.

Andrew Carnegie offers to give the University of North Carolina fifty thousand dollars for a library building, provided the University shall raise a like amount as an endowment fund for the support of

SPENCER BOND ISSUE.

At a meeting of the board of aldermen of Spencer, held last week, an order was passed calling an election to be held on May 16 for the purpose of voting upon the question of issuing \$70,000 of thirty year 5 per cent, bonds for municipal improvements for Spencer. Much interest is already being manifested in the coming election. DIRECT ROUTE TO COAL FIELDS.

The promoters of a railway from Winston to the coast by way of Lexington and Wadesboro declare that work will begin soon. The line will pass by the narrows of the Yadkin river, where 20,000 horse power is being developed for electrical transmission. It is claimed thet this road, commencing with the Atlantic Coast Line, will furnish the most direct route from the West Vargenia coal fields to Charlesleston. S. C., making the latter a coaling station. The capital

TWO BURNED ALIVE.

Last Thursday about noon Mrs. Edward Teague, wife of one of Burlington's most prominent citi- shipping their cotton seed to the zens, was so seriously burned that oil mills to exchange for meal. death resulted at 5 o'clock. Mrs. Teague was assisting a woman serlarge pile of leaves had been raked and one dollar. up and set afire when in some way the flames took hold of the lower edge of her dress and before she had time to extinguish them the wind had fanned them into a blaze that completely enveloped her, and before she could be helped her

lothing was burned from her body. At High Point the same after noon Mrs. Will Rooche was literaly burned alive. She was engaged in cleaning up the yard and had set fire to some leaves and rubbish. and what you write will be edited In some way her clothing caught -clothed in company dress. Just fire and before assistance could reach her every vestage of her clothing was burned from her body and the flesh was so nearly roasted that it fell from its place.

Backache is never known to those persons who take an occasional resin obtained from the Pine tree rest. has long been recognized in the treatment of diseases of the bladder St. Louis, Mo. and kidneys. One dose of Pineules will give relief, and one bottle will
