STUMBLING BLOCKS.

About enough funds have been raised to complete the extension of Main street to the McCaskey road but we need a little more and need it bad.

The contributions on the part of many have been very liberal and are in a striking contrast to some who have not contributed at all. This street is extended by private contribution for the reason that the town is levying a tax to keep up its institutions—schools, street improvement, and fire protection—and the citizens feeling that it was very much of a business enterprise that the town could hardly be called upon to undertake it.

In a democracy we are controlled by the majority. Here is an object of unanimous agreement. Every one believes the street should be opened, and most of those who are able have contributed liberally, but there are some who believe the street is right and should be opened, yet they will give nothing.

Here is the situation—we dislike writing such things, but the public will know our men: One of the non-contributors was known to drive along the McCaskey road and point toward Main street and figure the saving to himself and the great amount asked of him to help complete the road—one fifth the saving to him for a year—was denied. He can figure the advantage to himself and is not willing to pay a small part of the cost; can talk of its help to the town and community and not willing to contribute anything as a citizen; acknowledges that it will make him money and help his town, and yet others must pay the cost.

It is not necessary to say this is but an example. There are several of them. Here is one class of citizens willing to help the community and town, on the other hand a class who will not contribute but figure on their gain at the expense of others.

Later we expect to publish the list of the contributors and the people can see for themselves who are helping the community. What helps the community more than a progressive citizen? What helps the community help its citizens, therefore those who help the community help its individual citizens and in turn ought to be helped by the citizens.

The method we have referred to above is nothing less than discouraging. Honest men are always honest. These stumbling blocks should be rolled to the side of the road where they can rest in their entire selfishness and decay to the great joy of the community.

To cure a cold in one day. Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure.

THE RE-UNION.

In last week's paper we gave an account of the Confederate veterans re-union committee meeting. Those present were very anxious that this re-union be entirely successful in every respect.

Five thousand people can enjoy seeing each other, hearing the speeches and the good music as much and proportionately more than a few hundred. The consideration is that of providing dinner for the crowd. It is understood that everybody is invited and urged to be present.

Let everybody be liberal and make it successful, a genuine re-union for Martin county. It will cost each one a little if the cost is properly distributed but heavily and unjustly if a few have to bear the burden.

PROGRESS OF OUR BANKS.

There is no better indication of the progress of the County than the progress of its banks. In last week's paper we had an article showing the excellent opening of the Farmers and Merchants Bank—a deposit of over \$20,000, on the first day—and a personal mention of its promoters.

In this week's paper we call attention to the statements of the Bank of Robersonville and the Bank of Martin County, of Williamston.

The Bank of Robersonville has extended its capital stock from \$3,000 to \$5,000, since the March statement to the Corporation Commission its resources capital stock etc. amounting to nearly \$40,000. Since the March report of the Bank of Martin County its capital stock has been extended from \$12,000 to \$15,000, thirty shares of stock having been distributed to twenty influential business men in all sections of the county.

This re-organization took place the first day of May when there was a surplus of \$7,500. We notice from its statement on the 29th day of May this surplus had increased to \$7841.71 or a gain of \$341.71 in 29 days or a gain of 27 per cent. for the year. The resources of the bank now reaches about 105,000.00. There has been a change in its officers, Mr. Wheeler Martin formerly vice-president is now president and Mr. James G. Staton vice-president while Mess. Jno. L. Hassell and Frank L. Gladstone, of Hamilton, have been added to the board of Directors.

All these banks are managed by sane and safe business men, which bespeaks their solidity and progress. We are proud to refer to such records and hope they will be still better at the end of August, the end of the third quarter.

Dying of Famino is in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends.

When I had consumption in its first stage writes Wm. Myers of Cearfoss, Md. "after trying different medicine and a good doctor, in vain, I at last took Dr. King's New Discovery which quickly cured me."

The Cause of Many Sudden Deaths. There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both in English and French, sent free by mail, Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
