Why?

The world is full of goodness. Christian men and women, with loving hearts and loving hands, walk our streets ready to help the weak and cheer the faint. No cry comes to them unheeded—save the cry of the unfortunate souls whose days are being spent in the cheerless cells of our county prison. He whose life must pay the penalty of his crime, is alone in his misery. No one good to him with the sweet message of the Gospel of Jesus Christ and tries to hold the Cross before eyes that may soon open in the Great Beyond. Are not these souls to save within prison walls? Are not they creatures of God as well as we who bask in the sunlight and breathe the free air of heaven? They have sinned—are under the law; in the spirit of the lowly Nazarene, we should help them as best we can. Why are they neglected by even the ministers of the church whose mission it is to point men to the forgiving Christ? Can any one tell us? "I was in prison and you visited me not."

Special Term of Court.

At the beginning of last week it looked as though the state docket would be disposed of in two days; but the grand jury made a number of indictments and the whole week was taken in trying criminals.

The civil docket was not touched and there are seventy-eight cases to be disposed of. No civil business has been transacted by the court to amount to anything this year. The docket is crowded and lots of money and property are tied up in the courts and we must have a special term to dispose of this accumulation.

As a result of this delay people who have cases come here from court to court only to learn that their coming is in vain.

This is not right and some remedy should be effected. People want to get out of court to settle their troubles and delay only aggravates them. They have respect for the law and regard the courts as a farce. They have a right to have their cases tried and the means should be provided. Witnesses and litigants lose money and time besides their lawful right is being infringed upon.

A petition will be presented to the board of County Commissioners signed by the Bar, the county officers, litigants and his honor Judge Webb asking for a special term of court for the trial of civil cases. At this term, at the present rate of accumulation, there will be about one hundred cases for trial. Such a record has never been known in the history of the county.

Without a special term of court at the end of next year there would be about two hundred cases on the docket.

The Robersonville Graded School case alone is sufficient justification for the demand of an extra term of court.

The Nall Case.

The Board of Directors of the Central Hospital have recently held two meetings in Raleigh to investigate the Nall case.

The feeling of the whole state has been aroused but there seems to be, and we think, no grounds for it. The patient was a strong man, physically, and of a violent disposition when aroused. He had attempted to escape the hospital and was pursued by three attendants two of whom on reaching him and on attempting to capture

him were nearly exhausted when the third came to their aid. Nall was a strong man physically, except he was troubled with heart disease. His heart failed as result of this violent exercise, and death resulted. There were some wounds on his body made in the effort to recapture him and the alarm of fractured skull was raised.

The skull was examined by Post Mortem. Eight physicians say that he died of heart disease these eight the most eminent in the state giving their reasons and stating the symptoms found which sustain them. The two physicians who disagree are men of character but of no especial prominence professionally, and giving as their reasons for death the clot of blood on the brain, the others say this could not have been the cause of death.

Dr. Ferree one of the hospital staff in charge of the male wards was away on a vacation at the time of Nall's death, and on his return it was found that he had observed symptoms of heart disease and had forbidden Nalls taking any violent exercise. This thoroughly substantiates Drs. McKee and Jenkins diagnoses of Nall's case.

With all this evidence before us we are thoroughly satisfied that Nall died of heart disease and that Dr. McKee and his staff are exonerated in the eyes of the public.

We have always had the most kindly feeling for Dr. McKee and have as much if not more confidence in his executive ability and medical skill now than before. We are glad the investigation was made however and confidence fully restored. The institution is in better shape than it ever was, and everything is being done in the best possible way.

STATE VS. PRESTON DANIELS.

Judgement of the Lower Court Affirmed.

Defendant was convicted of murder in the first degree and sentenced to be hung. The only exception was from the refusal of the judge of the lower court to instruct the jury that there was not sufficient evidence of premeditation and deliberation on the part of the defendant to justify the jury in returning a verdict of murder in the first degree.

Held. That it is not necessary in order to show premeditation that the design to kill should be shown to have existed for any definite length of time. Therefore, when the defendant returned to the car which he had left and found deceased sitting in the seat with his female companion and told him to leave, and deceased left, and afterwards made the remark that this was a "diabole crowd," and defendant thereupon turned and pulled his pistol from his pocket and passed it behind his body and shot the deceased, after calling, "look out," such actions and words were sufficient to go to the jury on the question of deliberation and premeditation necessary to support a verdict of murder in the first degree.—News and Observer.

A Wonderful Saving.

The largest Methodist Church in Georgia, used 20 gallons of L. & M. mixed with 24 gallons of oil, thus making paint cost about \$1.20 per gallon. They calculated to use 100 gallons of other paint. Saved about \$80.00, and also got a donation of L. & M. Dealers gladly sell L. & M., because their customers call it, and say they used it 12, 14 and even 30 years ago.

Don't pay \$7.50 a gallon for linseed oil, which you do in ready-for-use paint. Buy oil fresh from the barrel at 60 cents per gallon, and mix it with L. & M. Paint. It makes paint cost about \$1.20 per gallon. Sold by S. R. Biggs, Williamston, N. C.

The legislature of 1899 passed a law prohibiting the killing of squirrels in Martin County between March 1st, and Aug. 15th. The legislature of 1905 changed it to Oct. 15th. This law was made yet we hear of squirrel hunting and know of their being eaten. This law should be enforced or it should be repealed. Officers of the law enforce it!

NOTICE.

The annual meeting of the Martin County Tobacco Warehouse Company will be held Wednesday night October 4th., at the office of the Dennis Simmons Lumber Company. All stock-holders are requested to be present.

A. G. Allen's Minstrels Coming.

A genuine old-fashioned southern minstrel show by real southern darkies. Allen's New Orleans Minstrels under canvas.

This is the first Minstrel company in the United States to appear under canvas. Mr. Allen is the originator of the idea. The interior of his tent is arranged with a mammoth stage and scenery the same as an opera house, but of course on a much larger scale. Owing to the large seating capacity the tent, which is two thousand, the company is enabled to show for the extremely low price of 25 and 35 cents thus guaranteeing the largest Minstrel production in the world at the lowest price of admission.

For Thin, Poor Blood

You can trust a medicine tested 60 years! Sixty years of experience, think of that! Experience with Ayer's Sarsaparilla; the original Sarsaparilla; the strongest Sarsaparilla; the Sarsaparilla the doctors endorse for thin blood, weak nerves, general debility.

But even this grand old medicine cannot do its best work if the liver is inactive and the bowels constipated. For the best possible results, you should take in conjunction with Ayer's Pills while taking the Sarsaparilla. The liver will quickly respond, and so will the bowels.
